JAMÁBANDI REPORT

FOR THE

NORTHERN DIVISION,

1883-84.

[*Price—Eight Annas.*]

00108325

No. of 1885.

F. SHEPPARD, Esquire,
Commissioner, N. D.:

LIBRARY OF THE ROYAL ASIATIC SOCIETY OF THE BOMBAY BRANCH

JOHN NUGENT, Esquire, C. S.,
Secretary to Government,
Revenue Department, Bombay.

Camp *1885.*

Sir,

I have the honour to submit the Annual Report on the Revenue Settlement of the Northern Division for the year 1883-84, with the following Appendices :—

Appendix No. I.—Huzúr Form No. X. A.—Contrasted statement of the gross and net land revenue.

Appendix No. II.—Huzúr Form No. XII. C.—Statement of outstanding balances of land revenue.

Appendix No. III.—Huzúr Form No. XIII. D.—Contrasted statement of advances under the Land Improvement Act.

Appendix No. IV.—Huzúr Form No. XIII. D. (1).—Contrasted statement of ordinary taccávi advances.

Appendix No. V.—Huzúr Form No. XIV. E.—Showing the objects for which advances under the Land Improvement Act were granted.

Appendix No. VI.—Huzúr Form No. XIV. E. (1).—Showing the objects for which ordinary taccávi advances were granted.

Appendix No. VII.—Huzúr Form No. XV. F.—Statement of outstanding balances of advances under the Land Improvement Act.

Appendix No. VIII.—Huzúr Form No. XV. F. (1).—Statement of outstanding balances of ordinary taccávi advances.

Appendix No. IX.—Huzúr Form No XVI. G.—Contrasted statement showing each description of culturable land bearing assessment.

Appendix No. X.—Huzúr Form No. XVII. H.—Statement showing the average yield per acre of the principal products.

Appendix No. XI.—Huzúr Form No. XVIII. (1) B.—Contrasted statement of sáyar receipts for khan ábkári.

Appendix No. XII.—Huzúr Form No. XIX. J.—Showing outstanding balances of miscellaneous revenue.

Appendix No. XIII.—Huzúr Form No. XX. K.—Contrasted statement of allowances to village and district hereditary officers.

Appendix No. XIV.—Huzúr Form No. XXI. L.—Contrasted statement of occupied and unoccupied and waste land taken up.

Appendix No. XV.—Huzúr Form No. XXV. P.—Statement showing lands set apart for public purposes.

Appendix No. XVI.—Huzúr Form No. XXVI. Q.—Statement showing the number and classification of occupancies.

Appendix No. XVII.—Huzúr Form No. IX.—Statement showing the average incidence of Government demand.

Appendix No. XVIII.—Statement showing processes issued for the realization of land revenue, and their results.

Appendix No. XIX.—Statement showing the number of cattle, carts, ploughs, &c., in each of the districts of the division.

Appendix No. XX.—Statement showing the character of the season in each of the districts of the Northern Division.

C x E 58

2. The Kolába District, which was included in last year's report for sake of convenience, has now been omitted. The Panvel Táluka, with division of Uran, has also been omitted, having been transferred from to the Kolába District.

3. I will now proceed to review the several Appendices to the o[rder] which they are enumerated above.

4. The number of villages and hamlets (Government and alienated) shown in Columns 3 to 5 of Huzúr Form No. [1] Appendix No. I. The following comparative table exhibits the number of villages in the current and preceding years :—

No.	Districts.	1883-84.			1882-83.			Increase.			Decrease.		
		Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.
1	Ahmedabad	882	52	884	883	52	885	...	...	...	1	...	...
2	Kaira	563	28	591	563	28	591	...	...	...	...	...	...
3	Panch Mahals ...	607	143	750	610	140	750	...	3	3	3	...	...
4	Broach	408	15	423	408	15	423	...	...	...	...	...	...
5	Surat	813½	39½	853	813½	39½	853	...	...	...	...	...	...
6	Thána	1,876	108	1,984	1,876	108	1,984	...	...	...	...	...	...
	Total ...	5,099½	385½	5,485	5,103½	382½	5,486	...	3	3	4	...	...
	Net ...	...	...	...	...	...	...	...	3	3	4	...	...

5. There are only slight fluctuations in Ahmedabad and the Panch Mahals. In the former, a village in the Gogha Táluka having been deserted, the lands belonging to it have been included in the adjoining village, and in the latter district the decrease is nominal, being merely a transfer from Government to alienated of 3 villages under the alienation settlement enquiry.

6. The following is a comparative table of Government and alienated hamlets :—

No.	Districts.	1883-84.			1882-83.			Increase.			Decrease.		
		Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.
1	Ahmedabad	256	10	266	256	10	266	...	...	...	...	...	...
2	Kaira	517	17	534	517	17	534	...	...	...	...	...	...
3	Panch Mahals ...	583	96	679	584	95	679	...	1	1	1	...	...
4	Broach	14	...	14	14	...	14	...	...	...	...	...	...
5	Surat	857½	26½	884	857½	26½	884	...	...	...	...	...	...
6	Thána	2,230	103	2,333	2,235	103	2,338	...	...	...	5	...	...
	Total ...	4,457½	252½	4,710	4,463½	251½	4,715	...	1	1	6	...	...
	Net ...	...	...	...	...	...	...	...	1	1	6	...	...

7. The decrease of one Government hamlet in Panch Mahals is due to the reason shown above, for the transfer of the villages ; while that of five hamlets in Thána is due to their having been deserted in the year under report.

8. The following is a brief comparative Abstract of Huzúr Form No. A., showing the gross and net land revenue, the realizations, remissions and balances outstanding for the previous year and 1883-84, in each district of the Northern Division :—

No.	Districts.	Gross Revenue.		Alienations		Gross Revenue.
		1883-84.	1882-83.	1883-84.	1882-83.	1883-84.
1	2	3	4	5	6	7
		Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

	Increase ...	15,287 6 9	.....	.....	.....	18,106 [illegible]
	Decrease ...	.....	.....	2,819 2 0	.....	
5	Surat	27,58,452 4 11	27,56,392 5 1	4,18,319 10 5	4,18,223 14 10	23,40,[illegible]
	Increase ...	2,059 15 10	.....	95 11 7	.....	[illegible]
	Decrease ...	.....	.....	.....	.....	
6	Thána	13,28,554 4 11½	13,11,726 0 11	1,17,867 7 11	1,16,400 5 2	12,10,[illegible]
	Increase ...	16,828 4 0½	.....	1,467 2 9	.....	[illegible]
	Decrease ...	.....	.....	.....	.....	
	Total ...	1,21,17,469 13 0	1,20,54,001 15 1½	26,05,246 3 9	25,87,380 7 2	95,[illegible]
	Increase ...	63,467 13 10½	.....	17,865 12 7	.....	
	Decrease ...	.....	.....	.....	.....	

12. The amount of pressure used in collecting the revenue is shown in the following table :—

	No. of Notices under Section 152 of the Land Revenue Code.	No. of cases in which five-fourth penalty was imposed under Section 148.	No. of cases of distraint of property.	No. of cases of attachment of Company.
Northern Division ... 1885-86 ...	29,061	2,203	396	164
Northern Division ... 1884-85 ...	24,737	1,924	306	140
Central Division ... 1885-86 ...	43,475	681	98	302
Central Division ... 1884-85 ...	52,085	724	65	210
Southern Division ... 1885-86 ...	32,838	658	451	100
Southern Division ... 1884-85 ...	40,193	761	618	95

In the Northern Division there was an increase in the number of notices issued in Ahmedabad, Kaira, Panch Mahâls and Thâna, but in the other Divisions the only districts in which an increase took place were Poona and Ratnâgiri. In Khandesh a considerable decrease (from 13,945 to 6,491) in the number of notices is observed, but the amount in respect of which the notices were issued was greater than in the previous year. As regards the number of cases in which penalties under Section 148 of the Land Revenue Code were inflicted the only districts in which any increase of importance took place were the Panch Mahâls and Surat. Cases of distraint of property only call for notice in Ahmednagar where they rose from 17 to 58, and this district was also, with the exception of the Panch Mahâls, the only one in which much increase took place in the number of occupancies forfeited to Government.

13. The general result of the administration of land revenue during the year under review is contrasted with that for the previous year in the following statement :—

		1885-86.	1884-85.
		Rs.	Rs.
Gross Revenue ...	Northern ... Divisions ...	1,22,03,723	1,21,65,122
	Central ...	1,23,83,015	1,23,29,239
	Southern ...	97,01,219	95,51,119
	Total ...	3,42,93,957	3,39,45,480
Alienations	Northern ... Divisions ...	26,14,242	26,13,854

.....	.....	.....	.....	.....	
.....	12,030 13 0	.....	13,378 10 8	.....	

9. It will be seen from the above that the results are very satisfactory inasmuch as there is an increase under Government revenue and in the amount of collections, while there is a decrease under remissions and outstanding balances of current and former years. This will be more readily perceived from the following totals under the principal heads :—

Heads.	1883-84.	1882-83.	Increase.	Decrease.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Gross revenue	1,21,17,469 13 10	1,20,54,001 15 1½	63,467 13 10½	.....
Alienations	26,05,246 3 9	25,87,380 7 2	17,865 12 7	.....
Public Works revenue from irrigation.	.....	.....	.....	.....
Government revenues	95,12,223 9 3	94,66,621 7 11½	45,602 1 3½	.....
Remissions	14,863 7 4	17,452 1 4	.....	2,588 10 0
Revenue for collection	94,97,360 1 11	94,49,169 6 7½	48,190 11 3½	.....
Collections	94,89,690 9 5	94,40,152 0 5½	49,538 8 11½	.....
Balances on account of current year.	7,669 8 6	9,017 6 2	.....	1,347 13 8
Balances on account of former years.	2,728 2 2	14,758 15 2	.....	12,030 13 0

Gross Revenue.

10. The variations under this head will be explained under Government revenue.

Alienations.

11. The following table shows the fluctuations under this head in each Collectorate :—

Districts.	Increase.	Decrease.
	Rs. a. p.	Rs. a. p.
Ahmedabad...	.....	52 9 0
Kaira	992 11 11	.....
Panch Mahals	18,181 13 4	.....
Broach	.....	2,819 2 0
Surat	95 11 7	.....
Thána	1,467 2 9	.....
Total ...	20,737 7 7	2,871 11 0
Net ...	17,865 12 7	.....

12. The decrease in Broach is chiefly due to corrections having been found necessary in the assessment fixed by the survey on the lands of the inám villages of Vad and Kaoli in the Jambusar Táluka when enquiry was made for the issue of sanads to the inámdárs. The slight decrease in Ahmedabad does not call for remark. On the other hand, the large increase in the Panch Mahals is principally due to correction of the former record in consequence of the Survey Department having now communicated the correct area and assessment of several alienated villages, and partly also to the transfer of villages already adverted to above, and that in Thána is chiefly attributable to the transfer of the revenue derived from the untapped inám toddy trees from the head "Excise" to "Land Revenue" as per Government Resolution No. 4927, dated the 30th June 1883. The small increase in Kaira is mainly due to the assessment in the inám village of Manjipura having been raised in consequence of the introduction of the survey settlement. The increase in Surat is trifling.

Government Revenue.

13. The following table shows the Government revenue in each Collectorate as compared with that of the preceding year :—

Districts.	1883-84.	1882-83.	Increase.	Decrease.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Ahmedabad	14,58,614 9 8	14,48,292 1 8	10,322 8 0	.....
Kaira...	19,76,974 1 8½	19,75,478 0 3	1,496 1 5½	.....
Panch Mahâls ...	2,74,384 10 9	2,76,033 1 2½	.....	1,648 6 5½
Broach	22,51,430 11 7	22,33,324 2 10	18,106 8 9	.....
Surat...	23,40,132 10 6	23,38,168 6 3	1,964 4 3	.....
Thána	12,10,686 13 0½	11,95,325 11 9	13,361 1 3½	.....
Total ...	95,12,223 9 3	94,66,621 7 11½	47,250 7 9	1,648 6 5½
Net ...	.....	.....	45,602 1 3½	.....

14. All districts, except the Panch Mahâls, show an increase. The fluctuations are explained as follows by the several Collectors :—

I.—COLLECTORATES SHOWING INCREASE.

Ahmedabad.

	Rs.
Increase—	
By unoccupied land taken up for cultivation	12,732
„ increased realization owing to the fluctuating terms of leases of Mehvási and Tálukdári villages	980
Sale-proceeds of dry wood...	8,586
Penalties for building upon assessed lands	3,510
Sale-proceeds of occupancy right	1,083
Increased realization from the Ahmedabad Railway Suburb ...	7,038
Decrease—	
By relinquishment of lands	16,690
„ less realization from the sale-proceeds of building sites ...	4,606
„ do. do. of earth, sand, &c. ...	546
„ do. penalty for unauthorized occupation ...	632

Kaira.

Increase—	
By unoccupied land taken up for cultivation	9,864
„ increased realization from notice and process fees ...	569
„ do. the sale-proceeds of dry wood ...	2,084
„ do. unauthorized occupation of land...	503
Decrease—	
By relinquishment of occupied lands	9,168
„ sale-proceeds of alluvial land	1,205
„ do. of trees	375
„ less realization from the Nadiád Railway Suburb ...	444
„ the levy of certain miscellaneous items of revenue from the Cambay State having been foregone under the new Treaty.	344

Broach.

Increase—	
By unoccupied land taken up for cultivation	16,693
„ increased realizations from sale-proceeds of grass ...	517
„ do. do. of the right of occupancy ...	6,095
„ do. do. of alluvial land	1,762
„ do. do. of dry wood	8,757
„ do. do. of the occupancy right of waste land...	3,184
From notice and process fees	647
Decrease—	
By relinquishment of lands	14,821
„ less realization from penalty for unauthorized occupation of land	3,821
„ do. do. of rent of land from kilns, &c. ...	356

Surat.

Increase—	
By unoccupied land taken up for cultivation	6,271
„ sale-proceeds of occupancy right	1,442
„ increased realizations from sale-proceeds of wood ...	4,930
„ do. do. of survey maps	3,148

	Rs.
Decrease—	
By land relinquished and lying waste	13,250
„ less realizations from the sale-proceeds of alluvial land ...	663

THA'NA.

Increase—	
By sale-proceeds of occupancy right	2,002
From Notice and Process fees	389
By land sold for building purposes	338
„ increased realizations from fees for excavating earth, &c., from assessed lands	1,711
„ assessment charged for authorized cultivation of land ...	699
„ revenue from salt-pan lands	1,504
„ tax on untapped palm-trees	13,455
„ revenue from unassessed lands leased for cultivation ...	533
Decrease—	
In surplus collections	4,502
„ fines levied from unauthorized occupation of land ...	749

II.—COLLECTORATES SHOWING DECREASE.

PANCH MAHÁLS.

Decrease—	
By relinquishment of lands	7,355
„ sale-proceeds of occupancy rights	221
„ less realization from trees on Government land	282
„ transfer of certain land from the head of "Government" to "Alienated" under the alienation enquiry	816
„ falling off in the number of ploughs in villages in which the "Plough Assessment" system prevails	358
„ revenue from land lapsed to Government ...	640
„ reduction of the revenue of the village of Salia for 1881-82 shown under Deposit last year	354
„ sale-proceeds of grass and fruit trees	205
„ assessment levied for unauthorized cultivation ...	195
„ ground-rent	230
„ less realization of miscellaneous revenue	278
„ salámi settlement levied after the adjustment in accounts of alienated land	339
Increase—	
By unoccupied land taken up for cultivation	9,647

Remissions.

15. The remissions granted during the year amounted to Rs. 14,863-7-4 against Rs. 17,452-1-4 in 1882-83, being a decrease of Rs. 2,588-10-0. The subjoined statement shows the amount remitted in each district as compared with the preceding year :—

Districts.	1883-84.	1882-83.	Increase.	Decrease.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Ahmedabad	1,719 12 11	1,642 11 1	77 1 10	.....

Net ...	.....	.....	.....	2,588 10 0

16. The largest amounts were granted in Broach and Surat. In the former Rs. 6,390 were necessary on account of floods principally in the Narbada river, and in the latter Rs. 3,064 were remitted on account of "other accidents".

17. From the details given in columns 25 to 33 of Appendix I. it will be observed that more than half the total sum is due to injury by accidents, Rs. 149 to introduction of survey, Rs. 849 to poverty, death, &c., and Rs. 3,840 to other causes.

Revenue for collection and outstanding balances.

18. The amount for collection during the year under report was Rs. 94,97,360-1-11 against Rs. 94,49,169-6-7½ of the preceding year, and of the former sum Rs. 7,669-8-6 only remained uncollected at the close of the year. The total outstanding balance (including Rs. 2,728-2-2 on account of former years) amounts to Rs. 10,397-10-8 against Rs. 23,776-5-4 at the close of the preceding year.

19. Huzúr Form No. 12C shows how these balances are distributed over the several Collectorates of this Division, and it will be seen that there are no balances in Kaira, while in Thána the amount is trifling. The largest balances are in the Panch Maháls, Ahmedabad, Surat and Broach, and the total amount may be classified as follows:—

Appendix II.

	On account of current year.	On account of former years.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
Recoverable	1,329 14 4	1,161 0 5	2,490 14 9
Irrecoverable	3,686 12 1	630 8 6	4,317 4 7
Doubtful and disputed	2,652 14 1	936 9 3	3,589 7 4

Recoverable balance.

20. Of the recoverable item, a sum of Rs. 858-1-1 was collected after the close of the year, and of this, Rs. 503-2-5 were on account of former years. Of the remainder, the largest amount belongs to Ahmedabad, and measures have been taken for its recovery. The larger portion (Rs. 629) of the balance in the Panch Maháls is on account of former years and is due from certain occupants who are residents of Baroda territory. The Collector is in communication with the Agent to the Governor General for the recovery of the amount. The amounts in Broach, Surat and Thána are small and will be collected in due course.

Irrecoverable balance.

21. Of the irrecoverable balances the largest amounts are in Panch Maháls and Surat. The following amounts will be written off in the former:—

Rs. 1,200 due by the Thákors of Limbdi and Gholana as sanctioned by Government.

„ 727 being excess over quit-rent on service land of certain Pátils, on completion of the enquiry in progress as sanctioned by Government.

„ 356 being quit-rent due by certain Desáis who have offered to surrender land in lieu, and in Surat,

„ 938 on account of certain lands in the village of Bet washed away by floods.

„ 555 on account of settlement of Peta (sub) Inám lands in the village of Jamálpur which has been declared to be of the Bandhi (fixed) Jama tenure.

22. The sum of Rs. 469 due in Broach will also be written off, as the lands of the defaulters concerned have been confiscated, and they have no other property from which the balance could be recovered. The small sum in Ahmedabad will be similarly written off.

23. In Ahmedabad the collection of the sum of Rs. 2,000 on account of the Jama of the village of Hirápur has been held in abeyance under Government Resolution No. 5708 of 14th July 1884; another sum of Rs. 251 is on account of rent of lands in the limits of the city and is pending the result of suits filed against Government, and Rs. 390 are awaiting disposal of an appeal in this office regarding the levy of a Bágáyat cess on certain lands in the Daskroi Táluka. The sum of Rs. 865 is due in Panch Mahál from the holders of certain alienated villages who contend for a payment partly in cash and partly by surrender of land in lieu, and the matter is under inquiry. The small sums in Broach and Surat await disposal of certain petty appeals and references. There was no change made in the dates of the levy of revenue instalments in this Division except in Surat where in the Chorási Táluka and in some of the villages of Bárdoli, the collection was postponed for a month in consequence of the crops being late in those parts.

Doubtful and disputed balance.

Advances under the Land Improvement Act.

24. From the appendices named in the margin, it will be seen that no advances were made under the Act in the year under report, and that the outstanding balance of Rs. 40 of the previous year was recovered.

Appendices III, V and VII.

Ordinary Takávi Advances.

25. A sum of Rs. 300 was advanced in Kaira under the old rules for the purchase of bullocks and for sinking a well; out of this sum Rs. 200 have been recovered, the balance being left for recovery in future years. There was no balance outstanding of the previous year.

Appendices IV, VI and VIII.

Culturable Area and Cultivation.

26. Huzúr Form No. 16G. shows under different heads the culturable area in each district together with the area of land occupied for cultivation as compared with that in the preceding year. The modification of this form has been sanctioned by Government, but the orders were received too late for the adoption of the modified form in this year's report.

Appendix No. IX.

27. The following is a brief abstract of this statement showing the area under cultivation, and the proportion of waste to the culturable land :—

Districts.	Total extent of Culturable Land in 1883-84.	Cultivated in		Increase in 1883-84.	Decrease in 1883-84.	Land left waste in 1883-84.	Percentage of Waste on Culturable Land.
		1883-84.	1882-83.

* Including Tálukdári and Mehwási lands. † Including Tálukdári lands. ‡ Excluding Salt pans.

28. The total occupied land during the year shows a net increase of 258,669 acres as compared with the preceding year, but most of this increase is nominal, as 49,408 acres in Kaira and 207,284 acres in Panch Mahals of Tálukdári lands have been included in the statement for the first time. But excluding these figures, these districts and those of Broach and Thána exhibit an aggregate increase of 8,554 acres against the decrease of 6,576 in Ahmedabad and Surat, giving in a net increase of 1,978 acres for the division. Detailed reasons for these fluctuations are given in the supplementary statement to Appendix No. XIV. (Huzúr Form No. 21L).

29. The following statement shows the extent of culturable land in each district and the area cultivated and that remaining uncultivated during the year 1883-84 under the heads of dry-crop, garden and rice lands :—

Districts.	Culturable and assessed area in Acres.				Cultivated in 1883-84.	
	Irrigable Garden Land.	Dry-crop.	Rice.	Total.	Irrigable Garden Land.	Dry-crop.
	A. g. a.	A. g. a.	A. g. a.	A. g. a.	A. g. a.	A. g. a.

Total ..	501,089 24 6¾	4,177,377 26 3¾	5,940 25 4	434,913 26 0½	21,169 35 9½	462,024 6 14

30. There is a net increase of 288 acres under garden land as compared with the previous year. Such increase is common to all districts except Panch Mahâls, Broach and Surat which show a slight decrease.

31. In dry-crop lands there has been a net increase of 257,892 acres. All the districts except Surat share in this increase, the largest proportion being in Kaira and Panch Mahâls in consequence of the addition of Tâlukdâri lands in those districts as explained in para. 28.

32. Under rice lands there is an increase in all districts except in the Panch Mahâls which shows a slight falling off of 28 acres, giving a net increase of 1,337 acres under this head.

33. The following table shows the fluctuations in the area of cultivated lands under the same heads :—

Districts.	Garden.		Dry-crop.		Rice.	
	Increase.	Decrease.	Increase.	Decrease.	Increase.	Decrease.
	A. g.	A. g.	A. g.	A. g. a.	A. g.	A. g.
Ahmedabad ...	98 28	.....	.....	3,520 18 0	65 32	.....
Kaira	561 0	.....	51,406 13	.....	524 3	.....
Panch Mahâls ...	.....	170 14	210,930 7	.....	187 5	.....
Broach	12 26	.....	1,025 34	.....	.....	73 38
Surat	.....	142 29	.....	3,016 15 0	.....	61 34
Thâna	.....	12 29	.....	52 0 4	908 24	.....

34. The fluctuations above shown under the heads Garden and Rice lands are inconsiderable, but there has been a large addition to the dry-crop area in the Kaira and Panch Mahâls for reasons already adverted to, and in Broach owing principally to the extension of cultivation, while, on the other hand, Ahmedabad and Surat show a considerable falling off owing principally to lands relinquished in consequence of deterioration of soil or being flooded in certain portions of the former and to the transfer of lands to Forests in the latter.

Chief Products.

35. Huzúr Form No. 17 H. showing the average seed sown and yield per acre of the products of each Collectorate are appended in original together with the usual condensed abstract.

Appendix X.

36. It will be seen that in the returns this year the orders of Government in para. 3 of their Resolution No. 394 of the 16th January 1884 have been carried out, and as far as possible, information has been furnished regarding lands in alienated villages, except in Panch Mahâls, where it was found impracticable to give similar information. But it is to be regretted that formulæ prepared by the Committee and sanctioned in Government Resolution No. 397, dated 16th January 1884, were not translated and furnished to the local táluka officers early enough for adoption in the preparation of this year's returns. The result is that the returns are not entirely reliable having been prepared according to the former practice, which was, as Government is aware, little better than guess work.

37. The area in which the principal crops were grown during the year is shown in the subjoined statement:—

Districts.	Jowári.	Bájri.	Wheat.	Paddy and Rice.	Total of Principal Food-grains.	Cotton.	Other Crops, including occupied Land not cultivated and grass Land.	Total.	Land twice cropped.
	A. g. a.	A. g. a.	A. g. a.	A. g. a.	A. g. a.	A. g. a.	A. g. a.	A. g. a.	A. g. a.

3	Interest	17,490 5 0	18,620 12 9	.....	1,130 7 9
4	Other items	865 0 3	1,372 0 0	.....	506 15 9
	Total ...	35,465 14 11	34,724 6 7	2,378 15 10	1,637 7 6
	Net ...	.....	.....	741 8 4	.....

39. It will be seen from Appendix XII. that there is no balance left uncollected of this revenue either on account of former or of the year under report.

Appendix XII.

Village and District Hereditary Allowances.

40. Huzúr Form No. 20 K. is a comparative statement of the allowances of Village and District Hereditary Officers and of allowances of a Miscellaneous nature for the years 1883-84 and 1882-83. The result is a net increase of Rs. 9,743-3-3. The various fluctuations are explained below.

Appendix XIII.

Items appearing in Táluka Form No. 20.

41. The only item which calls for explanation is the decrease of Rs. 2,448 in the allowances of village servants useful to Government. This is due merely to the discontinuance of the practice in Kaira of debiting the payments for the month of July in the accounts for that month instead of the subsequent one.

Items appearing in Táluka Form No. 21.

42. The net increase of Rs. 424 is principally caused by the settlement of the haks of certain District Hereditary Officers in the tálukas of Váda and Sháhápur in the Thána District as per Government Resolutions Nos. 3374 and 5270 of the 2nd May and 16th July 1883 respectively. The entry of Rs. 1,274-4-2 is on account of the Pálkhi allowance of Desái Kalanrái Hakumatrái of Broach, which has been ordered to be continued in his lineal male line without deduction of the settlement as per Government Resolution No. 6402 of 6th December 1880.

Items appearing in Táluka Form No. 22.

43. The decrease under this head is due to certain allowances having lapsed to Government on the death of life-holders in the Ahmedabad, Broach and Surat districts and to a sum of Rs. 24 having remained unclaimed for more than 6 years in the last-named district.

Girás.

44. The decrease under these heads is also due to lapses under the rules in the Ahmedabad District.

Kothlisanth and Dharmádáv.

45. The revenue of the villages from which this hak is paid in Ahmedabad having decreased, the allowance has diminished in proportion.

Amals.

46. The decrease of Rs. 393-15-9 is due to the transfer to this head of a Káji's allowance in the Thána District from Táluka Ledger No. 22.

Other items.

47. The increase under this head is due to the amount hitherto paid from the Mahi Kántha Treasury having been ordered to be brought on the accounts of the Ahmedabad District.

Compensation.

48. The increase under this head is in consequence of the increase in the revenue of Maleki villages in Kaira.

Malek Vaje.

49. The payment of allowances to the brothers of Mirza Jehangir Khán Amrudin Khán in Broach was sanctioned in Government Resolution No. 5848, dated the 26th November 1883.

Political pension.

50. Huzúr Form No. 21 L. shows the area and assessment of all occupied lands, also of lands thrown up and taken up for cultivation during the years 1883-84 and 1882-83 in each Collectorate, and the supplemental statement which is also appended shows the causes in detail of the fluctuations in the area of lands relinquished and taken up for cultivation.

Appendix XIV.

51. The following is a brief abstract of Huzúr Form No. 21 L. showing the total occupied lands, the lands resigned and taken up, and lands of revenue defaulters bought by Government with increase and decrease under each head:—

Year.	Occupied Lands.		Lands taken up.		Lands bought in by Government of Revenue Defaulters.		Lands taken up.	
	Area.	Assessment.	Area.	Assessment.	Area.	Assessment.	Area.	Assessment.
	A. g. a.	Rs. a. p.	A. g. a.	Rs. a. p.	A. g. a.	Rs. a. p.	A. g. a.	Rs. a. p.
1883-84	4,177,377 26 3½	79,42,181 8 7	43,502 1 8	60,188 12 11	1,012 19 8	2,265 8 3	40,511 33 4	62,524 3 2
1882-83	3,918,707 31 7½	79,46,782 7 1	*42,421 35 7	57,221 8 4	3,703 29 12	9,468 6 6	49,012 2 8	79,605 10 8
Increase ..	258,669 34 12	....	1,080 6 1	2,967 4 7	....	....	....	....
Decrease ..	....	4,600 14 6	....	....	2,691 10 4	7,202 14 8	8,500 9 4	17,081 7 6

*This does not include the nominal addition of 72,491 acres of Tálukdári land included under his head last year.

52. The results as shown by the above statement are very satisfactory, but it must be remembered that the increase in the occupied lands is due largely to the nominal addition in Kaira and Panch Mahál frequently referred to. To this same cause may also be traced the disproportion of the assessment of the lands, which is apparent from the figures, as the addition consists merely of the area, the assessment having always been included. The satisfactory features are, however, in the increase of the area of lands taken up and the decrease in that of lands of revenue defaulters bought in and of lands thrown up.

53. Of the area of lands thrown up, 38,391 acres out of a total of 40,511 were due to resignations against 47,924 in the preceding year, and it will be observed that within a trifle an equal amount of land was taken up during the year under report. Taking each district separately, the districts of Kaira, Panch Mahál and Broach show an aggregate increase of 5,745 acres against a decrease of 6,579 in Ahmedabad and Surat. In Thána the fluctuation is so slight that it may be left out of consideration here. In Ahmedabad the explanation submitted by the Collector is satisfactory, as it has been shown that in the táluka of Parántij lands are every year relinquished owing to the inferiority of the soil, and though fresh lands are taken up in lieu of these, fluctuations are necessarily the result; also that in the tálukas of Dholka and Daskroi low-lying lands which have been submerged have been relinquished.

54. In Surat the explanation of the decrease is to be found by classing the lands relinquished under two principal heads, *viz.*, (1) exhaustion of soil, and (2) poverty of cultivators, and it appears that under the 1st head over 5,000 acres were relinquished in the tálukas of Bárdoli, Chikhli, Bulsár, Párdi and Mándvi, the largest proportion being in the last-mentioned; and under the second head over 1,300 acres in the tálukas of Bárdoli, Chikhli and Mándvi, the large proportion being again in the last-mentioned táluka. The land in parts of the Surat District is, as Government is aware, extremely poor, and it is every year the case that cultivators are exchanging their exhausted and unproductive lands for others which have remained fallow for some time, and in the exchange fluctuations necessarily occur in the extent of occupied lands. It appears on careful enquiry that among other causes 21 acres of land in Jaláipur were relinquished owing to the high rates of assessment and about 274 acres in the Olpád Táluka owing to lands being submerged.

55. The mills and cotton presses in Gujarát attract a large number of labourers, who prefer regular wages to the precarious profits of agriculture.

56. Owing also to reduction of assessment in the Bánsda State, a good many cultivators who had immigrated into Chikhli and Párdi have now returned.

57. It is also very probable that the fact of liquor being obtainable at cheaper rates in the adjoining Baroda territories may have had something to do with the resignation of occupancies in Surat. This is an inducement which the Káliparaj people are never able to withstand.

58. The next district which demands consideration is Broach, but this year happily there is an increase of 1,640 acres in the area of lands taken up as compared with that thrown up. While only 910 acres of lands were taken up in the year before, it is satisfactory to find that 4,104 acres have been taken up this year. Again, 2,464 acres only have been thrown up against 2,703 in the preceding year. This is a satisfactory feature, and considering that a succession of bad seasons has affected parts of the district, particularly the western portion of the tálukas of Vágra and Jambusar, it may happily be said that a re-action has now set in. From the enquiries which I was enabled to make recently while in the Broach District I have been confirmed in this view. The following figures represent the difference between the area and assessment of lands taken up and relinquished in this district between the years 1874-75 and 1883-84 :—

	More taken up.		More thrown up.	
	Area.	Assessment.	Area.	Assessment.
		Rs.		Rs.
1874-75	540	193	.....	.....
1875-76	3,092	61,489	.....	.....
1876-77	110	180	.....	.....
1877-78	267	.....	.....	383
1878-79	.....	.....	557	180
1879-80	.....	.....	1,957	4,766
1880-81	.....	.....	1,173	4,135
1881-82	.....	.....	3,146	12,076
1882-83	.....	.....	4,149	14,894
1883-84	965	2,210	.....	.....

When it is remembered that extensive destruction of crops was caused by the hail-storms of January 1877, that there was insufficiency of rain in 1877-78 and excessive rain in the following year, the above figures speak for themselves. It will be seen from Government Resolution No. 4956, dated 27th August 1881, that the total outstanding balance on the 1st January 1880 was, as reported by the Collector, Rs. 1,63,162, and that at the date of the Collector's subsequent report (August 1881) it was reduced to Rs. 36,648. Thus, therefore, the large sum of Rs. 1,26,514 was realized during the revenue years 1879-80 and 1880-81, and the result of the pressure resorted to in order to collect this amount is shown in the rather sudden increase in the extent of lands thrown up in the two following years. The re-action shown in the third year might still have been delayed, but Broach is a rich district and has been able to recover itself without much effort.

59. The area and assessment of land assigned for special purposes are shown in Huzúr Form No. 25 P., and the Supplemental Statement appended to it furnishes detailed information for each Collectorate. The aggregate quantity of land thus set apart amounts to 77,409 acres of assessed and 1,119,907 of unassessed, making a total of 1,197,316 acres. The largest portion of this is taken up by forest and by land assigned for cattle pasture.

Appendix No. XV.

60. The number and extent of occupancies in each Collectorate and their average size are shown in Huzúr Form No. 26 Q.

Appendix No. XVI.

61. The fluctuations in the number of occupancies do not call for remarks, but as regards the area it may be added that in all districts except Surat there has been considerable addition to the figures of the last year. The increase in Ahmedabad of 16,538 acres is owing to the inclusion of certain inám lands the area of which was not ascertained before. In the Panch Maháls 43,344 acres have been added for the same reason. The increase of 3,081 and 763 acres in

Kaira and Broach respectively is due to the extension of cultivation. In Surat the decrease of 390 acres is attributed to relinquishments of larger occupancies and increase in smaller ones, and this is apparent from the number of occupancies as compared with the preceding year.

62. Huzúr Form No. 9 shows the incidence of the Government demand per acre both on Government and alienated lands paying quit-rent. The following abstract gives the average incidence on dry-crop, garden and rice lands in each Collectorate :—

Appendix No. XVII.

Collectorates.	Dry-crop.			Garden.			Rice.			Total.		
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.
Ahmedabad	1	5	7	5	6	8	4	10	4	1	10	4
Kaira	2	8	0	3	14	3	4	13	1	3	5	0
Panch Mahâls	0	14	8	2	2	0	2	5	7	1	0	8
Broach	4	2	1	7	12	11	7	7	1	4	7	2
Surat	2	8	9	9	6	1	7	11	8	3	4	10
Thána	0	3	1	5	6	3	3	1	1	1	2	10

63. It will be observed that the dry-crop rate is highest in Broach and lowest in Thána, while the garden and rice rates are highest in Surat and lowest in the Panch Mahâls.

64. The difference in the average incidence as compared with previous year in Broach is due to the division this year of Tálukdári and Bhágdári lands under the separate classifications of dry-crop, garden and rice, instead of including them as formerly under the 1st heading only.

65. This statement shows the processes adopted for the realization of land revenue during the year under report as compared with the preceding year. It appears that a large number of notices were found necessary in all districts except Ahmedabad and the Panch Mahâls. The increase is particularly large in Surat and Broach and also Thána. But it is satisfactory to find that the more severe forms of coercion have been found less necessary, on the whole, in all districts.

Appendix No. XVIII.

66. This Appendix shows the statistics regarding agricultural stock for each táluka of the districts in this Division.

Appendix No. XIX.

67. It will be seen from its abstract at the foot that there has been an increase under every head except "male buffaloes" and "colts." This result is satisfactory.

68. A statement exhibiting the general character of the season for the year under report in each district is appended.

Appendix No. XX.

I have the honour to be,
Sir,
Your most obedient Servant,
G. F. SHEPPARD,
Commissioner, N. D.

G. F. SHEPPARD,
Commissioner, N. D.

APPENDIX No. XX.

Statement showing the character of the Season in the Collectorates of the Northern Division in 1883-84.

Name of Collectorate.	Rainfall.		Remarks.
	Average of preceding 5 years.	In 1883-84.	
	In. cts.	In. cts.	
Ahmedabad	34 43	22 48	With regard to season the Collectors report as follows:—"The monsoon set in in the last week of May. * * Sufficient rain fell in June to enable the sowing of kharíf to be commenced, but owing to heavy rain in July re-sowing was found necessary.** The transplanting of rice was begun in the last week of that month, but was destroyed owing to the long break in the weather in August. Serious apprehensions were entertained as to the safety of the crops owing to the total failure of rain till the last week of the month when sufficient rain fell to save the surviving crops. The unseasonable rainfall affected to a more or less extent the kharíf and rice crops, but it proved exceptionally favourable to cotton. The wheat crop was on the whole good* *."
Kaira	38 18	31 82	"The rain came on 27th May and ceased on 8th October at the proper time. It suited the bájri and jowári well. Kodra, Banti, Bawto and rice crops were fair. There is hardly any low-lying land in this district, nor was it damaged by floods. The character of the season was generally a good one."
Panch Mahálś... ...	41 99	47 95	"The rain during the year was heavy. A long break from 20th July to 26th August threatened the prospects of the season, but fortunately matter was improved by a fall of rain in the latter part of August. The rabi crops were also sown with great advantage and on the whole the season was a fair one."
Broach	49 53	42 82	"The rainfall during the season was below the average of the preceding 5 years. There was a good deal of rain from the 26th of June to the end of July 1883. There was a heavy flood in the Narbada on the 1st July and following days. There was then a long break during August and some apprehension was felt, but on the 27th the rain began again and continued at intervals until the 2nd of October. September was a very wet month and the rainfall at that time was very beneficial to the cotton crop. Kharíf and rabi crops generally turned out well. The season was therefore on the whole good."
Surat	63 92	77 88	"The rain came early in June and ceased by the end of October suiting generally all kinds of crops. No crops have been injured by the action of the flood and rain in the tálukas of Olpád, Chorási, Bárdoli and Mándvi. The principal crops of jowári, rice and wheat were in good condition. Cotton was slightly injured, the produce being 15 annas in the rupee on the average. In the tálukas of Jalálpur, Chikhli, Balsár and Párdi the rainfall was favourable and the kharíf and rabi crops were all in good condition. The season was on the whole favourable. No injury was done to crops by the young locusts in the tálukas of Bulsár, Párdi, Chikhli, Bárdoli and Jalálpur as prompt measures were taken for their destruction."

APPENDIX No. XX.—*continued.*

Name of Collectorate.	Rainfall.		Remarks.
	Average of preceding 5 years.	In 1883-84.	
	In. cts.	In. cts.	
Thána	100 94	111 8	"On the 27th May 1883 the rain began, and though the fall was beyond the average it was seriously interrupted by long break in July and August, while unusually heavy rain fell in october. In Bassein the early rice crops suffered damage from draught to the extent of 4 to 8 annas and the salt rice was almost entirely ruined. In a few villages of the Bassein Táluka rice crops were also injured by disease from which cane suffered as well to some little extent. Locusts greatly injured the crops on warkas lands in Kalyán, Bassein, Sháhápur, Murbád, Bhiwndi, and Váda and Mokháda Mahál; and in Sháhápur, Murbád, Váda and Bhiwndi, some fields were left fallow. Considerable injury was done to náglí and wari crops in the tálukas of Kalyán, Bassein, Sháhápur, Murbád Bhiwndi, Váda and Mokháda Mahál."

JAMÁBANDI REPORT

FOR THE

CENTRAL DIVISION,

1884-85.

1885

[*Price*—14 *Annas.*]

LIBRARY OF THE ROYAL ASIATIC SOCIETY

No. $\frac{R}{3499}$ OF 1885.

From

E. P. ROBERTSON, ESQUIRE,
Commissioner, C. D.;

To

THE SECRETARY TO GOVERNMENT,
Revenue Department.

Poona, 27th June 1885.

SIR,

I have the honour to submit the Annual Report on the Revenue Settlement of the Collectorates of the Central Division, as per margin, for the year 1883-84, together with the usual appendices as specified below:—

Poona	Sholápur.
Ahmednagar.	Khándesh.
Sátára.	Násik.

Huzúr Form No. 9. — Appendix No. I.—Average incidence of the Government demand in each Collectorate on Government and alienated lands paying quit-rent.

Huzúr Form No. 10 A. — Appendix No. II.—Contrasted statement showing the gross and net land revenue, together with remissions and the balances outstanding.

Supplement to Huzúr Form No. 10 A. — Appendix No III.—Statement showing the minor items of revenue entered in column 22 of the abovenamed statement.

Huzúr Form No. 13 D. — Appendix No. IV.—Contrasted statement showing the amount of takávi advances, the sums written off, and balances outstanding.

A.—For advances granted under the Land Improvement Act.

B.—For advances granted for miscellaneous agricultural purposes.

Huzúr Form No. 14 E. — Appendix No. V.—Statement showing the objects for which takávi advances were given, the collections made, and balances written off.

A.—For advances granted under the Land Improvement Act.

B.—For advances granted for miscellaneous agricultural purposes.

Huzúr Form No. 16 G. — Appendix No. VI.—Contrasted statement showing the extent of each description of culturable land bearing assessment.

Huzúr Form No. 17 H. — Appendix No. VII.—Statement showing the average amount of seed sown, and average yield per acre, of each of the principal products in three parts, *viz*:—

Part I.—For Government villages including alienated lands in such villages;

Part II.—For alienated villages in which the survey has been introduced; and

Part III.—For alienated villages not under the survey settlement.

Huzúr Form No. 18 I. (B.) — Appendix No. VIII.—Contrasted statement of miscellaneous items of sáyar revenue.

Huzúr Form No. 20 (K.) — Appendix No. IX.—Contrasted statement of allowances of Village and District Hereditary Officers, including miscellaneous allowances.

Huzúr Form No. 21 L. — Appendix No. X.—Contrasted statement showing the area of occupied land thrown out of, and waste land taken up for, cultivation.

Supplement to Huzúr Form No. 21 L. — Appendix No. XI.—Explanatory statement of the reasons of increase and decrease in the area of land thrown out of, and taken up for, cultivation.

Huzúr Form No. 25 P. — Appendix No. XII.—Statement showing the details of land set apart for special and public purposes.

Huzúr Form No. 26 Q. — Appendix No. XIII.—Statement showing the number and extent of occupancies.

Appendix No. XIV.—Statement showing the number of cattle, carts, ploughs, &c., in each of the districts of the Central Division.

B 374—1 C D

The Season.

2. The season was on the whole a favourable one for agriculture. The early or kharíf crops suffered to some extent from excessive rain, and the yield from them was scanty. The heavy rain, however, which fell untimely for the kharíf crops, proved very beneficial for the late or rabi crops, which came up well and in every district yielded an abundant harvest. Locusts made their appearance early in the monsoon in all except the Sholápur District, but they were not as numerous as in the previous year, and scarcely any injury was done by them to the standing crops. Cholera appeared in the early part of the season in all the districts of the Division, and some deaths occurred from it. The disease however soon disappeared, and with this exception, and the prevalence for a time of small-pox in the Sátára District, the state of public health was generally good.

Villages.

3. From the subjoined table it will be seen that there is a net decrease of 3 in the total number of villages in the Division. The Sátára District shows a decrease of 1 Government village, owing to the lands of the village of Morgiri, a hill fortress without any inhabitants, having been distributed among the villages in its neighbourhood, while the Sholápur District shows one alienated village more than last year, which is due to its having received one such village (Donuz) from the Kaládgi District. The reduction of 3 Government villages in Khándesh is caused by the transfer to His Highness Holkar and to Nimar of 3 villages long since, but only removed from the Khándesh Register last year under the sanction conveyed in Government Resolution No. 8456, dated 17th November 1883:—

No.	Collectorates.	Villages.						In 1883-84.					
		1883-84.			1882-83.			Increase.			Decrease.

Hamlets.

4. In the total numer of hamlets for the Division there is an increase of one as compared with the preceding year. The increase occurs in Khándesh, and is due to a newly established hamlet having been brought to account this year:—

No.	Collectorates.	Hamlets.						In 1883-84.					
		1883-84.			1882-83.			Increase.			Decrease.

Land Revenue—Financial Results.

5. The subjoined table, which is an abstract of Appendix No. II., Huzúr Form No. 10 A., contrasts the financial results of the year's settlements with those of the preceding year for each district and for the Division. It shows that the gross revenue for the Division has increased by Rs. 54,377-14-11; that alienations have decreased by Rs. 5,990-0-4; that the Government revenue has improved by Rs. 83,222-4-9; that the Public Works revenue from irrigation has fallen off by Rs. 17,281-15-2; that the remissions granted were less by Rs. 6,62,157-5-8; that the Government revenue for collection has increased by Rs. 7,45,379-10-5; that the collections have been more by Rs. 11,10,272-4-2; while the balances outstanding at close of the year—are, for the current year less by Rs. 3,64,892-9-9, and for former years also less by Rs. 27,549-2-1. Full explanation of the causes of these fluctuations will be found further on:—

Gross Land Revenue.

6. As shown above the gross land revenue of the Division has risen from Rs. 1,20,85,186-14-11 to Rs. 1,21,39,564-13-10 in the year under report, giving a net increase of Rs. 54,377-14-11, which is made up as follows :—

	Increase. Rs. a. p.	Decrease. Rs. a. p.
Poona	3,516 1 7	.....
Ahmednagar ...	.....	3,176 6 11
Sátára	.....	1,204 5 5
Sholápur ...	.....	16,246 15 3
Khándesh ...	17,451 11 3	.....
Násik	24,037 13 8	.....
Total ...	75,005 10 6	20,627 11 7
Deduct Decrease ...	20,627 11 7	
Net Increase ...	54,377 14 11	

Alienations.

7. These amounted for the year to Rs. 21,15,271-7-8. In the preceding year they amounted to Rs. 21,21,261-8-0. There is thus a reduction in the year under report of Rs. 5,990-0-4, which is made up as follows :—

	Increase. Rs. a. p.	Decrease. Rs. a. p.
Poona	4,131 0 0	...
Ahmednagar	219 9 4	...
Sátára	...	1,064 15 1
Sholápur	...	3,454 10 6
Khándesh	873 12 11	...
Násik	...	6,694 13 0
Total ...	5,224 6 3	11,214 6 7
Deduct Increase ...	5,224 6 3	
Net Decrease ...	5,990 0 4	

The increases in Poona, Ahmednagar and Khándesh are due chiefly to the assessments of Inám villages having in Poona been raised by the revision survey, and in Ahmednagar and Khándesh to larger receipts by Inámdárs from alienated villages in those districts. The decreases in the other districts of the Division are owing, in Sátára, to the lapse of certain life-holdings, and in Sholápur and Násik to the levy of increased judi or quit-rent from lands in the possession of village officers.

Government Revenue.

8. Deducting alienations, the Government revenue of the year for the Division amounted to. Rs. 98,79,128-3-11 or to Rs. 83,222-4-9 more than that of the preceding year. In the Poona, Khándesh and Násik districts there are increases aggregating Rs. 99,084-0-0, while in the Ahmednagar, Sátára and Sholápur districts there are decreases amounting in all to Rs. 15,861-11-3. The causes of increase and decrease in each district are thus explained :—

Poona.—Increase Rs. 17,381-8-1, due chiefly to the operations of the revision survey; to the judi payments of village officers having been increased; and to larger receipts from certain items of miscellaneous revenue.

Ahmednagar.—Decrease Rs. 951-4-6, caused principally by smaller receipts this year from the sale of the right of occupancies, and by the reduction of assessment by the operation of the survey.

Sátára.—Decrease Rs. 1,560-1-1, owing mainly to a reduction in the judi payments of the Pant Sachiv and to the transfer of revenue-paying lands to the Forest Department.

Sholápur.—Decrease Rs. 13,350-5-8, due chiefly to smaller realizations from the sale of occupancy rights and to refunds of over-collections under the orders in Government Resolution No. 6487, dated 9th December 1880.

Khándesh.—Increase Rs. 45,270-5-3, due principally to the extension of cultivation and to larger receipts from miscellaneous items of land revenue.

Násik.—Increase Rs. 36,432-2-8 caused chiefly by the extension of cultivation, and the operations of the revision survey.

Public Works Revenue from Irrigation.

9. The receipts under this head show a net decrease, as compared with the preceding year 1882-83, of Rs. 17,281-15-2. In the Poona, Ahmednagar and Násik districts there are decreases aggregating Rs. 20,568-3-11, while in Sátára, Sholápur and Khándesh there are increases aggregating Rs. 3,286-4-9, the difference between these two sums representing the net decrease for the year.

Remissions.

10. The remissions appearing as such this year show a decrease, as compared with the preceding year, amounting to Rs. 6,62,157-5-8, the sum remitted during the year being Rs. 1,31,850-3-6 as against Rs. 7,94,007-9-2 in the preceding year. Of the sum remitted this year, Rs. 39,378-5-0 were given on account of the destruction of crops by locusts in Násik alone, and Rs. 83,285-13-1 chiefly in Poona, Ahmednagar and Násik, in temporary abatement of the revised survey rates. Deducting these two items, the remissions under the remaining heads amount to Rs. 9,186-1-5, details of which appear in Appendix II.—Huzúr Form No. X (A).

Collections and Current Year's Balances.

11. Deducting the Public Works revenue from irrigation and the remissions of the year, the land revenue for collection is Rs. 97,47,278-0-5, being an increase of Rs. 7,45,379-10-5 as compared with the preceding year. Of this sum Rs. 96,92,161-15-4 were collected by the close of the year, leaving outstanding on the 1st August 1884 Rs. 55,116-1-1, which is less by Rs. 3,64,892-9-9 than the sum that was outstanding on the corresponding date in the preceding year. Except in Sátára there is a decrease in the outstanding balances in all the other Collectorates of the Division.

12. Of the sum of Rs. 55,116-1-1 there was collected and written off a total of Rs. 17,112-12-10, as shown in the margin, subsequent to the close of the year, leaving outstanding at the date of the Collector's reports Rs. 38,003-4-3, of which the greater part is considered recoverable.

13. The table following the next paragraph furnishes details of the various processes employed during the year for the realization of the Government dues. There is a decrease, as compared with the preceding year, in the aggregate number of notices issued, but an increase in Sátára and Khándesh, especially in the latter district, in which the number has risen from 2,899 in the preceding year to 6,102 in the year of report. In all the other districts of the Division there is a decrease. The amount recovered as notice-fees is larger in every district except Poona and Sholápur. In Poona, owing to a misprint, the sum collected as notice-fees appeared in last year's report as amounting to Rs. 23,550-6-0 instead of Rs. 2,355-6-0, which was the correct figure for that year.

14. In one case in Poona it was found necessary, owing to the contumacy of the cultivator, to resort to the extreme measure, first of detention and subsequently of imprisonment in the Civil Jail for the recovery of the Government demand. Penalties of one-fourth were levied in 1,499 cases against 276 in the preceding year, the greatest, both as regards number and amount, appearing under this head against Khándesh. Distraint and sale of moveable property was resorted to in 57 cases against 142, and of immoveable property in 11 cases against 7 in the preceding year. Forfeiture and sale of occupancies was enforced in 166 cases for the recovery of Rs. 6,348-12-0, but lands bearing assessment of Rs. 1,107-5-0 only were finally sold. Land assessed at Rs. 493-4-0 of that forfeited was subsequently restored to the defaulting parties, the portion remaining with Government being of the assessed value of Rs. 2,511-6-0.

Statement showing the Processes employed in Realization of Government Dues.

Change of dates in the Revenue Instalments.

15. As directed in Government Resolution No. 5473, dated 11th August 1882, it should be mentioned that in the year under report the dates for collecting the revenue instalments were altered from kharíf to rabi in 1 village of Taloda and 11 villages of Sháháda in the Khándesh District, it being found that rabi crops predominated in them, and that the change was necessary in the interests of the cultivators.

Former years' Balances.

16. These amounted at the beginning of the year according to last years' returns to Rs. 4,93,507-9-8, but for the reasons given in the notes to Appendix II. it will be seen they should have stood at Rs. 4,93,373-3-7. Of this sum there were collected during the year Rs. 2,01,314-1-8, and Rs. 2,46,109-5-2 were written off the books, so that the balance outstanding at the close of the year stands at Rs. 45,949-12-9 as per details noted in the margin. Subsequent collections and adjustments effected after the close of the year and up to the date of the Collectors' returns further reduced the total outstanding by Rs. 8,606-6-0 as shown in the margin.

TAGÁI.

18. The transactions under this head are given in Appendix No. IV.—Huzúr Form No. 13 D., which is in two parts A and B, the former relating to advances under the Land Improvement Act, and the latter to advances for ordinary agricultural purposes.

19. It will be observed that advances under the Land Improvement Act were given in the year of report in 26 villages of the Ahmednagar, Sátára, Sholápur and Násik districts, and that the sum advanced was Rs. 4,425, of which Rs. 3,575 were given in the Ahmednagar District alone. The balances of former years remaining for collection at the close of last year amounted to Rs. 23,049-11-0, and this added to the sum advanced in the current year gives a total of Rs. 27,474-11-0 to be accounted for. Of this total there were collected during the year :—

	Rs. a. p.
On account of current year's advances	75 0 0
„ former years' advances	9,825 7 0
And written off as irrecoverable in Ahmednagar on account of former years' advances	55 0 0
Making a Total of ...	9,955 7 0

Leaving on 1st August 1884 for recovery :—

	Rs. a. p.
On account of current year's advances	4,350 0 0
„ former years' advances	13,169 4 0
Making a Total of ...	17,519 4 0

20. The advances for ordinary agricultural purposes were given in the current year in 102 villages, none being given in the Poona District, and amounted in the aggregate to Rs. 25,302-5-0, the largest sums appearing against

the Khándesh and Ahmednagar districts. The balances of former years remaining to be collected at the close of last year amounted to Rs. 49,072-14-4, so that the total to be accounted for is Rs. 74,375-3-4. Of this sum there were collceted during the year—

	Rs.	a.	p.
On account of current year's advances	1,529	13	0
„ former years' advances	16,011	2	0
And were written off as irrecoverable in Poona, Ahmednagar and Khándesh on account of former years' advances	4,747	15	10
Or a Total of ...	22,288-14		10

Leaving for recovery on 1st August 1884 :—

On account of current year's advances	23,772	8	0
„ former years' advances	37,487	9	10
Or a Total of ...	64,701	8	7

21. Appendix V., Huzúr Form No. 14 E., which is also in two parts A and B, the former relating to advances under the Land Improvement Act and the latter to ordinary advances, shows the objects for which the advances were given under each head, the instalments due, and the recoveries made during the year.

22. From Part A it will be observed that of a total to be accounted for of Rs. 27,474-11-0, there were collected during the year—

	Rs.	a.	p.
On account of instalments due in the current and future years in payment of advances made in present or former years	7,563	2	0
On account of instalments which fell due in former years.	2,337	5	0
Or a Total of ...	9,900	7	0

and were written off—

On account of instalments which fell due in past years ..	55	0	0
Or an aggregate of ...	9,955	7	0

and that the balances outstanding on 1st August 1884 were—

	Rs.	a.	p.
On account of instalments which fall due in future years.	11,192	7	0
„ „ due in the current year ...	3,756	13	0
„ „ which fell due in former years.	2,570	0	0
Or a Total of ...	17,519	4	0

23. Part B shows that of a total of Rs. 74,375-3-4 to be accounted for, there were collected during the year—

	Rs.	a.	p.
On account of instalments due in the current and future years in payment of advances made in present and former years	13,257	2	9
On account of instalments which fell due in former years.	4,283	12	3
and were written off as irrecoverable—			
On account of instalments which fall due in the current year in Ahmednagar	50	0	0
On account instalments which fell due in past years in Ahmednagar and Khándesh	4,697	15	10
Or a Total of ...	22,288	14	10

leaving the following balances outstanding at the close of the year, *viz.*:—

		Rs.	a.	p.
On account of instalments	which fall due in future years.	34,726	9	6
,, ,,	due in the current year ...	7,017	8	9
,, ,,	which fell due in former years.	10,342	2	3
	Or a Total of ...	52,086	4	6

24. The total outstandings under both heads, *viz.*, advances under the Land Improvement Act, and advances for ordinary agricultural purposes, thus amounted on 1st August 1884 to Rs. 69,605-8-6, of which Rs. 4,352-12-0 were collected up to the date of the Collectors' returns, subsequent to the close of the year, as shown below, leaving for adjustment Rs. 65,252-12-6:—

Districts.	Advances under the Land Improvement Act.			Ordinary Agricultural Purposes.			Total.		
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.
Poona	106	0	0	45	8	0	151	8	0
Ahmednagar	806	8	0	1,991	8	0	2,798	0	0
Sátára	181	0	0	843	8	0	1,024	8	0
Sholápur	10	0	0	.....			10	0	0
Khándesh	130	0	0	138	12	0	268	12	0
Násik	50	0	0	50	0	0	100	0	0
Total ...	1,283	8	0	3,069	4	0	4,352	12	0

Reduction of Assessment.

25. No reductions of assessment were made in any part of the Division in the year of report.

Cultivation and Chief Products.

26. Appendix No. VI., Huzúr Form No. 16 G., exhibits in detail the extent of each description of culturable land bearing assessment in each táluka and district of the Division and the portion of each in cultivation in the present and the preceding year, and from it the subjoined table, which also shows the land left waste in each district in the present year, has been compiled. It will be observed that cultivation has extended in all the districts of the Division in the year of report. The percentage of waste is for the Division below that of the preceding year by 25 gunthas 4 annas. Sátára still shows the lowest percentage of waste to culturable land, and Khándesh the highest:—

No.	Collectorates.	Cultivated in		In 1883-84.		Left Waste in 1883-84.	Percentage of Waste to culturable Land.
		1883-84.	1882-83.	Increase.	Decrease.

Appendices Nos. X. and XI., Huzúr Form No. 21 L. and its Supplement, explain the causes of increase and decrease, and show briefly that the increase is due chiefly to the extension of cultivation and in a minor degree to the operations of the revenue survey.

28. Appendix No. VII., Huzúr Form No. 17 H., is this year submitted in three parts, (1) showing the acreage under cultivation in each táluka, the average quantity of seed sown, and the average yield per acre of the chief products in Government villages inclusive of alienated lands in those villages; (2) giving similar information for alienated villages into which the survey has been introduced; and (3) giving approximately the same information for alienated villages not under the survey settlement: and to each part a separate abstract is added showing (No. I.) the average quantity of seed sown per acre, and (No. II.) the average yield per acre of each crop in the several districts of the Division, in view to carrying out the orders conveyed in Government Resolution No. 1327, dated 17th February 1883. It will be observed that owing to the inclusion of the alienated lands in Government villages in Part I. of this statement, the figures therein do not agree, as they formerly did, with those appearing in Appendix No. VI., Huzúr Form No. 16 G.

Sa'yar Revenue.

29. The subjoined table, which is an abstract of Appendix No. VIII., Huzúr Form No. 18 I. (B), embodies under the usual headings particulars of the year's sáyar revenue in contrast with those for the preceding year:—

Collections and Balances.

30. The sáyar revenue of the year amounted for the Division to Rs. 25,341-2-10 or Rs. 11,524-14-3½ in excess of that of the preceding year. The whole of this sum was realized within the year and no balance remained outstanding for adjustment at the end of the year.

Entire Revenues.

31. The table subjoined to this paragraph and which is an abstract of Appendix No. II., Huzúr Form No. 10 A., and of Appendix No. VIII., Huzúr Form No. 18 I. B., exhibits the entire revenues of the year, both land and sáyar, for the Division, in contrast with the same for the preceding year. The fluctuations noticeable under the various heads having been already explained in their proper places, nothing further in the way of explanation is needed here :—

32. Appendix No. IX., Huzúr Form No. 20 K., is a contrasted statement of the allowances of village and district officers and allowances of a miscellaneous nature, being a compendium of the items appearing in Táluka Forms Nos. 20, 21 and 22. Compared with the preceding year there is an increase in all except the items of payment to district hereditary officers.

33. The increase in the other items is due chiefly to the larger disbursements made in payment of the dues of village officers and village expenses, as well as under the headings Dharmádáya and Political Pensions, as compared with those of the preceding year.

34. Appendices Nos. X. and XI., Huzúr Form No. 21 L. with its Supplement, have already been referred to in a preceding paragraph of this report. The former shows the extent of land thrown out of, and waste land taken up for, cultivation during the year, and the latter furnishes details of the entries appearing in columns 5 and 6 and in columns 13 and 14 of Huzúr Form No. 21 L. The subjoined table gives in abstract form the chief items in contrast with the same for the preceding year, and from it will be seen that considerably more land was taken for cultivation than was thrown up during the year, and that the land forfeited to Government was about one-half less than in the preceding year. The net increase in the cultivated area was acres 177,367-24-8 in 1883-84 as compared with the area in cultivation in the preceding year, 1882-83 :—

Years.	Total cultivated Land.		Land thrown up.		Land forfeited to Government.		Fresh Land taken up.	
	Area.	Assessment.	Area.	Assessment.	Area.	Assessment.	Area.	Assessment.
	A. g. a.	Rs. a. p.	A. g. a.	Rs. a. p.	A. g. a.	Rs. a. p.	A. g. a.	Rs. a. p.
1883-84	12,356,424 21 1	87,89,469 13 2	77,041 29 12	36,515 10 2	2,897 5 4	2,334 4 0	2,57,306 19 8	1,21,818 4 9

1883-84 Decrease ..	....	....	32,140 7 0	7,213 15 3	2,697 28 0	....	....	....

35. The subjoined table, which is an abstract of Appendix No. I., Huzúr Form No. 9, gives the incidence of the Government demand on an acre of dry-crop, garden and rice land in each Collectorate of the Division, and also the incidence of the Government demand in the case of both Government and alienated land in occupation during the year, separately and combined. It will be observed that the incidence per acre on dry-crop land continues highest in Khándesh and lowest in Sholápur and that in the case of garden and rice lands, the incidence is highest in Sátára and lowest in Sholápur, while the general incidence of the Government demand is again highest in Khándesh and lowest in Sholápur. The incidence of the Government demand on alienated land stands highest in Khándesh and lowest in Poona, the same as in the preceding year :—

Collectorates.	Incidence of Government Demand on an Acre of			Incidence of the Government Demand on an Acre of Government Land.	Incidence of the Government Demand on an Acre of alienated Land.	Average Incidence of the Government Demand on both Government and alienated Lands.
	Dry-crop Land.	Garden Land.	Rice Land.			
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

Central Division ...	0 10 5	2 1 8	2 7 4	0 11 5	0 4 11	0 10 3

36. Appendix No. XII., Huzúr Form No. 25 P., furnishes details of the lands set apart for special and public purposes as the same stood in the year under report. The aggregate quantity of land so set apart amounts for the Division to acres 615,260-29-4 assessed at Rs. 1,58,827-13-10, in addition to acres 2,024,246-17-8 of unassessed land, making a total of acres 2,639,507-6-12, of which no less than acres 2,152,871-13-4 or an area of about 3,367 square miles are appropriated for forests alone.

37. The table subjoined, which is compiled from Appendix No. XIII., Huzúr Form No. 26 Q., shows the number of holdings in each district not exceeding 5 acres in extent, and the number exceeding 1,000 acres, in contrast with the figures for the preceding year. It will be observed that the number of holdings of the larger size has decreased in Khándesh, Sholápur and Ahmednagar, increased in Sátára by 5, but is unaltered in Poona. In the Násik District there is not a single holding exceeding 1,000 acres in size. The average size of occupancies continues to show largest in Sholápur and smallest in Khándesh :—

Collectorates.	Number of Holdings in 1883-84.		Number of Holdings in 1882-83.		In 1883-84.				Average size of Occupancies.
					Increase.		Decrease.		
	Not exceeding 5 Acres.	Exceeding 1,000 Acres.	Not exceeding 5 Acres.	Exceeding 1,000 Acres.	Not exceeding 5 Acres.	Exceeding 1,000 Acres.	Not exceeding 5 Acres.	Exceeding 1,000 Acres.

Net increase in holdings not exceeding 5 acres	414

38. Appendix No. XIV gives the number of cattle, ploughs and carts in each táluka and district of the Division, with an abstract at foot contrasting the totals for the year with the same for the preceding years, the result being an increase in the case of horned cattle, except she-buffaloes ; an increase in horses, mares and colts ; a decrease in asses, sheep and goats, as well as in ploughs with two bullocks ; and an increase in ploughs with four bullocks, as also in carts used for riding and other purposes. These increases are satisfactory, being indicative of returning prosperity.

I have the honour to be,

Sir,

Your most obedient Servant,

E. P. ROBERTSON,

Commissioner, C. D.

B 374—7 OD

APPENDIX No. I.

HUZU'R FORM No 9.

Statement showing the Average Incidence of Government Demand for the Poona District for 1883-84 both on Government and alienated Lands on which Quit-rent is payable to Government.

* The difference of Rs. 147-6-1 between the figures in this column (37) and those in column 85 is due to the correction of errors in the accounts of last year.

† The difference of Rs. 13 between the figures in this column (37) and those in column 85 is due to the balance outstanding in the village of Donaj transferred from the Kaládgi district having been added to the balances of last year in Sholápur.

JAMÁBANDI REPORT

FOR THE

SOUTHERN DIVISION,

1883-84.

[*Price—Ten Annas.*]

B 1470

No. 636 of 1885.

From

ARTHUR CRAWFORD, Esquire,

Commissioner, S. D.;

To

JOHN NUGENT, Esquire,

Secretary to Government,

Revenue Department.

Commissioner S. D.'s Camp,

Bijápur, 10th March 1885.

Sir,

I have the honour to submit the Annual Jamábandi Report of the Collectorates of the Southern Division for the year 1883-84, together with the usual Appendices. The táluka of Panvel, with the Uran Petha, which formed part of the Thána Collectorate, was annexed to the Kolába Collectorate of this Division from 1st October 1883, under Government Resolution No. 6478 of 31st August 1883. For purposes of comparison, the figures for that táluka for the year 1882-83 have accordingly been incorporated in those of the Kolába Collectorate for that year.

Season.

2. The season opened with a good rainfall covering most of the district.

Belgaum.

In July and in the first fortnight of August, rain held off for some time and crops began to wither, but the copious fall at the end of August revived them. Heavy storms in October did a considerable amount of damage to the standing crops, especially rice. The average outturn of rabi and kharíf crops was, however, estimated at 10 and 12 annas respectively.

3. At the beginning of the season cholera was prevalent in a few villages in Belgaum, Gokák and Athni Tálukas. In July the epidemic disappeared. Ague and fever prevailed in almost all the tálukas. There was no cattle-disease.

4. The rainfall of the year in each táluka was considerably less than that

Dhárwár.

of the previous year, but in 1882 it was exceptionally heavy. Late in September heavy rain somewhat injured the crops, when they were about to come into ear. The outturn of rice, of Jowári, the lesser millet and the sugarcane was estimated at about 12 annas. The rabi crops were on the whole good.

5. The public health was on the whole good throughout the year. Cholera broke out in Navalgund, Ron and Ránebennur Tálukas, but the mortality from it was trifling. Cattle-disease was prevalent in some parts of the district.

6. The rainfall was not seasonable; the sowing of kharif was retarded for

Kaládgi.

want of rain, and in some tálukas it was not completed till the middle of August. The outturn of kharif crop. therefore, varied in different tálukas from 4 to 8 annas. The rabi crops suffered almost everywhere to a considerable extent from the same cause.

7. Public health was not on the whole good. Cholera broke out in the monsoon and disappeared in November. About 1,000 people were carried off by it.

8. The rain began early in June and ceased by the middle of September.

Kánara.

The rice crop was generally good, the average outturn being nearly 14 annas in a rupee. Garden cultivation prospered well.

9. Fever was prevalent in the district to some extent, and with the exception of Supa Táluka and Mundgod Petha, where fever of a very bad type broke out, the public health was on the whole good. Cattle-disease prevailed slightly.

Kolába.

10. The rainfall was on the whole good. A little damage was done to the early sowings by locusts in all the tálukas except Alíbág and Panvel. The varkas crops, especially, fell a prey to their ravages. No damage appears to have been done to the rice crops.

11. Cholera prevailed to a considerable extent in the Panvel Táluka. In the other tálukas it was prevalent to a more or less extent but was not severe. Fever also prevailed throughout the year. Cattle-disease existed in Alíbág, Mángaon and Panvel Tálukas.

Ratnágiri.

12. On the whole the rainfall, though almost equal in quantity to that of last year, was not well distributed. The harvest therefore, though generally good was inferior to that of 1882-83, with the exception of the harik crop which was superior to that of many years past. The outturn of rice, early and late, was estimated at 12 annas, that of varkas, early, at 10½, and late, at 12 annas in a rupee.

13. Fever prevailed in Málvan, Devgad and Sangameshvar Tálukas and Mandangad Petha and caused in all about 511 deaths. Small-pox existed everywhere. In Ratnágiri, Sangameshvar, Khed and Mandangad it prevailed to a very great extent. A few cases of cholera occurred in Sangameshvar, Dápoli and Mandangad Petha, resulting in a mortality of 18.

14. The season was on the whole slightly above the average, and public health good.

Villages.

Huzúr Form No. 10 A, Appendix No. I.

15. The total number of villages, both Government and alienated, in the year under report, were 7,726½ against 7,434½ in the preceding year. From the subjoined table, which gives details of the fluctuations in each district of the Division, it will be observed that there was no change in the Belgaum, Dhárwár, and Ratnágiri districts. The decrease of one in the number of alienated villages in the Kaládgi Collectorate is owing to the transfer of the village of Donaj from Indi Táluka of this district to that of Pandharpur in the Sholápur Collectorate. The increase of 15 in the number of Government villages in Kánara is due to the same number of hamlets having been raised to the status of independent villages at the time of the introduction of the revenue survey. The increase of 238 and 40 in the number of Government and alienated villages respectively in Kolába is solely due to the transfer of Panvel Táluka to that Collectorate:—

Collectorates.	Villages.						In 1883-84.					
	1883-84.			1882-83.			Increase.			Decrease.		
	Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.

Ratnágiri	1,273½	64	1,337½	1,273½	64	1,337½	...	...	...	...	...	...
Total ...	6,954½	772	7,726½	6,701½	733	7,434½	253	40	293	...	1	1

Hamlets.

16. The following is a comparative table showing Government and alienated hamlets as they stood during the years 1883-84 and 1882-83. In the 3 ghát districts of Belgaum, Dhárwár and Kaládgi and the coast district of Ratnágiri there has been no change, while of the two other districts, Kánara gives a decrease of 18 in the number of Government hamlets and Kolába an increase of 113 in Government and of 14 in alienated hamlets :—

Districts.	Hamlets.						Number in 1883-84.					
	Number in 1883-84.			Number in 1882-83.			Increase.			Decrease.		
	Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.
Belgaum	369	128	497	369	128	497	...	...	...	...	...	...
Dhárwár	175	11	186	175	11	186	...	...	...	...	...	...
Kaládgi	113	17	130	113	17	130	...	...	...	...	...	...
Kánara	2,549	...	2,549	2,567	...	2,567	...	...	...	18	...	18
Kolába	901	84	955	788	70	858	113	14	127	...	...	...
Ratnágiri	4,852	286	5,138	4,852	286	5,138	...	...	...	...	...	...
Total ...	8,959	526	9,485	8,864	512	9,376	113	14	127	18	...	18

The decrease in Kánara was due to the operations of the survey, and the increase in Kolába is ascribable to the transfer of the Panvel Táluka to that district.

17. A brief abstract of Huzúr Form No. 10 A. shows the gross and net land revenue, the realizations, remissions, and balances outstanding in the several districts for the year 1883-84 as compared with the preceding year, and the following table gives in a concise form the various totals under the principal heads for the two years under consideration :— Appendix No. III.

Heads.	1883-84.	1882-83.	Increase.	Decrease.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Gross land revenue	94,11,051 4 2	93,25,842 6 5	85,208 13 9	.....
Alienations	16,19,970 1 9	16,32,398 12 1	.....	12,428 10 4
Government revenue	77,86,774 0 5	76,88,644 0 6	98,129 15 11	.....
Public Works revenue from irrigation ...	4,307 2 0	4,799 9 10	.....	492 7 10
Remissions	1,25,082 5 9	6,49,158 2 10	.....	5,24,075 13 1
Amount for collection	76,61,691 10 8	70,39,485 13 8	6,22,205 13 0	.....
Collections	76,10,581 12 9	70,11,788 2 7	5,98,793 10 2	.....
Balance on account of current year ...	51,109 13 11	27,697 11 1	23,412 2 10	.....
Balances on account of former years ...	20,099 0 8	17,878 4 2	2,220 12 6	.....

Gross Land Revenue.

18. The gross land revenue of the Division for the year amounted, as shown above, to Rs. 94,11,051-4-2, being more than that of the preceding year by Rs. 85,208-13-9. There is an increase in every one of the districts as shown below :—

	Rs. a. p.
Belgaum	2,065 13 0
Dhárwár	10,547 14 2
Kaládgi	11,210 1 7
Kánara	10,180 2 7
Kolába	5,764 12 6
Ratnágiri	45,440 1 11
Total ...	85,208 13 9

The causes of fluctuations under this head will be found under Government Revenue.

Alienations.

19. During the year, these amounted to Rs. 16,19,970-1-9 or Rs. 12,428-10-4 less than in the year 1882-83. In Kolába and Ratnágiri there is an increase, while in the other three districts of Southern Marátha Country there is a decrease. In Kánara the alienated revenue showed no fluctuation. The following shows the increase and decrease under this head for each district :—

Appendix No. III, Column 4.

Districts.	Decrease.	Increase.
	Rs. a. p.	Rs. a. p.
Belgaum	763 12 3	.....
Dhárwár	10,852 3 8	.....
Kaládgi	3,968 14 8	.....
Kánara	.....	.....
Kolába	.....	2,855 11 7
Ratnágiri	.....	300 8 8
Total ...	15,584 14 7	3,156 4 3
Deduct Increase ...	3,156 4 3	.....
Net Decrease ...	12,428 10 4	.....

Belgaum. Decrease due principally to lapse of inám lands and increase in the mámul judi consequent on the introduction of the revised rates.

Dhárwár. Decrease due chiefly to lapse of inám lands, revision survey enhancement of scale and nim judi and rectification of errors in the accounts.

Kaládgi. Decrease principally due to lapse of alienated lands and transfer of the inám village of Donaj to the Sholápur Collectorate.

Kolába. Increase mainly due to the introduction of survey rates and transfer of ábkári inám to land revenue.

Ratnágiri. Increase chiefly due to the application of survey rates to inám lands.

Government Revenue.

20. The Government realizable revenue, after deducting alienations and the Public Works revenue from irrigation, amounted to Rs. 77,86,774-0-5, which, compared with the previous year's demand, exhibits a net increase of Rs. 98,129-15-11. The fluctuations are as shown below :—

	Increase.
	Rs. a. p.
Belgaum	2,978 15 3

21. Cultivation of waste lands, higher receipts for grazing, and the levy of increased judi, chiefly account for the increase in the three upcountry districts. In Kánara application of the survey rates and higher receipts for grazing, in Kolába transfer of tree-tax to land revenue and inclusion of a moiety of the revenue of the partly alienated (sherákati) lands in the accounts, and in Ratnágiri adoption of higher commutation rates and the receipts of attachment expenses from the realization of attached villages, contribute to the large increase.

PUBLIC WORKS REVENUE.

22. There is a decrease in the receipts under this head, amounting for the Division to Rs. 492-7-10. The three coast districts realized no revenue from irrigation.

Appendix III, Column 8.

REMISSIONS.

23. The remissions during the year exhibit a net decrease of Rs. 5,24,075-13-1, the total amount remitted being Rs. 1,25,082-5-9, as compared with Rs. 6,49,158-2-10 in 1882-83. The details in columns from 25 to 33 of Appendix No. I. will show that remissions on account of first introduction of survey were chiefly granted in Belgaum and Kánara, amounting to Rs. 39,152-13-6. In Kolába Rs. 8,232-15-4 and Rs. 2,000-15-7 were remitted on account of damage caused by locusts and fire respectively as sanctioned in Government Resolutions Nos. 2000 and 2073 of 5th and 7th March 1884 respectively, and Government Resolution No. 1561 of 19th February 1884. The remissions granted under other heads are but trifling, and require no explanation, with the exception of one large item against Kánara—Rs. 72,141-6-6—in column 33. This item represents the nominal remissions retained in the accounts pending the completion of the survey settlement in the district.

COLLECTIONS AND CURRENT YEAR'S BALANCES.

24. Deducting the remissions and Public Works revenue from irrigation there remained a net demand for collection of Rs. 76,61,691-10-8, or Rs. 6,22,205-13-0 more than in the previous year. Of this total demand Rs. 76,10,581-12-9 were collected before the close of the year, showing an increase of Rs. 5,98,793-10-2 over the collections of 1882-83. This result is very satisfactory. The balance on the 1st of August 1884 was Rs. 51,109-13-11. Although this balance shows an increase of Rs. 23,412-2-10 over that of the same date in 1882-83, the result cannot be considered as unfavourable when the increased demand in each district of the Division is taken into consideration. Subsequent recoveries and adjustments made up to 30th November 1884 have, however, reduced the balance to Rs. 39,485-10-5 :—

Districts.	Balance on 1st August 1884.	Since collected.	Since remitted or written off.	BALANCE ON 1ST DECEMBER 1884.		
				Recoverable.	Irrecoverable.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

25. The Collector of Ratnágiri has been specially directed to take speedy steps for the collection of the large amount of the outstanding balances on account of previous years, and it is expected that it will be soon cleared off.

26. No change has been made in any district of this Division in the dates of payment of the revenue instalments during the year under report, nor any action was taken under Rule 85 of the Rules under the Land Revenue Code.

27. The table given below will show the state of the outstanding balances from former years, the collections made and the amounts written off during the year and the balance on 1st August 1884:—

Districts.	Balance on 1st August 1883.	Amount collected.	Amount written off.	Balance on 1st August 1884.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Belgaum	1,467 7 8	46 12 8	58 15 0	1,361 12 0

Total ...	45,561 11 3	23,687 13 4	1,774 13 3	20,099 0 8

28. The collections and adjustments made between 1st August and 1st December 1884 were Rs. 2,288-9-2, leaving a balance of Rs. 17,810-7-6, of which Rs. 15,724-11-10 are recoverable.

29. The table subjoined shows the entire balances, both for the current and former years as they stood on 1st August 1884, but as shown above, those for the current year have by subsequent collections and adjustments been reduced to Rs. 39,485-10-5, and those for former years to Rs. 17,810-7-6 :—

Districts.	Particulars.	Current year's Balances.	Former year's Balances.	Total.

Compulsory Processes.

30. The processes adopted for the realization of arrears of land revenue during the year under report and their results are embodied in this Appendix. The number of notices issued for the recovery of Rs. 4,54,326-4-9 was 44,587 against 25,683 in the previous year, exclusive of the Panvel Táluka, for which figures for that year are not available on this office records. Kolába shows the unusually largest number of notices and the largest amount of arrears for which they were issued. The increase appertains chiefly to the tálukas of Roha, Mángaon and Mahád, and is attributed to unpunctuality in payments by the rayats which necessitated the village officers to issue notices to defaulters 10 days after the instalments fell due. This is not satisfactory to my mind. The next largest number appears against Ratnágiri and is due, as remarked in previous reports, to the numerous small holdings in that district. In Belgaum there is an increase due to more notices having been issued to Watandárs for the realization of quit-rents due from them. Dhárwár, Kaládgi and Kánara show a satisfactory decrease. The notice fees levied throughout the Division amounted to Rs. 5,801-6-9.

Appendix No. IV.

31. In 1,021 cases the penalty under Section 148 of the Land Revenue Code was imposed for Rs. 1,951-5-10 due, and the sum recovered amounted to Rs. 896-12-7.

32. There were 942 cases in which moveable property was distrained to recover Rs. 35,902-8-7, out of which it was found necessary to resort to sales for the recovery of Rs. 3,299-1-9 only. The sum realized was in excess of the arrears by Rs. 551-11-6.

33. The area of land forfeited for arrears of revenue amounting to Rs. 2,433-14-4 was 1,094 acres and $36\frac{3}{4}$ gunthás, bearing an assessment of Rs. 1,160-6-6, of which the occupancy right of acres 426-$22\frac{3}{4}$ assessed at Rs. 426-7-6 was sold to the public for Rs. 2,007-13-5; acres 87-37, assessed at Rs. 194, were returned to defaulters, and the balance, acres 580-17 assessed at Rs. 539-15-0, remained with Government.

34. It will be seen from the above that coercive measures were generally adopted by the local officers in extreme cases only, and that they exercised sound discretion and endeavoured to avoid harshness or undue severity in the collection of Government revenue.

Takávi (Advances under the Land Improvement Act).

35. The transactions under this head are shown in the Appendices noted in the margin. Fresh advances during the year were made in the Ratnágiri District only to the extent of Rs. 180-8-0 for agricultural purposes.

Appendices Nos. 13 D. and 14 E.

36. It will be seen that advances under the Takávi Rules prescribed under Section 4 of Act XV. of 1880 were made in the year under report in the Belgaum and the Ratnágiri Districts, amounting in all to Rs. 107.

13 D. (I.) and 14 E. (I.)

37. Collections on account of former years' advances were made to the extent of—

Rs. 400-0-0 in Dhárwár „ 2-0-0 in Kaládgi	Under the Land Improvement Act.
„ 283-2-0 in Kaládgi ...	Under the rules under Section 4 of Act XV. of 1880.

Leaving outstanding on 1st August 1884—

Rs. 545-8-0 Dhárwár and Ratnágiri.	Under the Land Improvement Act.
„ 232-0-0 in Belgaum, Kaládgi and Dhárwár.	Under the rules under Section 4 of Act XV. of 1880.

Of these sums —

	Under the Land Improvement Act.			Under Act XV. of 1880.		
	Rs.	a.	p.	Rs.	a.	p.
Fall due in future years ...	545	8	0	207	0	0
Fall due in the current year ...	.....			.....		
Fell due in former years ...	.....			25	0	0
Total ...	545	8	0	232	0	0

38. As was the case in former years, takávi advances were not sought by cultivators to any considerable extent. It is hoped the new Act and the rules under it which afford further facilities for obtaining advances will induce the rayats to seek the assistance proferred by Government for improving their agricultural properties.

39. The culturable area in each district, as contrasted with that of the preceding year, is shown in the statement marginally noted. The area of each kind of land occupied for purposes of cultivation are also given in this statement. This statement can never be quite accurate until the whole Division has been surveyed and brought under settlement. At present it shows accurately the extent of culturable land under different heads, in surveyed districts, and only approximately as regards the unsurveyed tracts. Particulars of land cultivated in both years and of land left waste in 1883-84 and the percentage which the latter bears to the culturable area are given in the subjoined table:—

Form No. 16 G., Appendix No. IX.

Districts.	Total Extent of culturable Land in 1883-84.	Cultivated in		1883-84.		Land left waste.	Percentage of Waste to culturable Area.
		1883-84.	1882-83.	Increase.	Decrease.		
	A. g. a.	A. g. a.	A. g. a.	A. g. a.	A. g. a.	A. g. a.	
Belgaum	1,181,261 1 8	1,082,115 29 0	1,076,298 21 0	5,817 8 0	....	99,145 12 8	8·4
Dhárwár	1,614,078 22 2	1,509,873 35 12	1,503,011 18 12	6,862 17 0	....	104,204 26 6	6·4

Ratnágiri	1,03,9025 13 8	1,039,025 13 8	1,048,399 31 8	....	9,374 18 0	....	....
Total ..	6,584,009 4 14	6,043,509 9 0	6,011,384 33 13¼	41,498 33 2¾	9,374 18 0	540,499 35 14	8·2
			Decrease ..	9,374 18 0			
			Net Increase ..	32,124 15 2¾			

40. In Ratnágiri the same area is shown as usual both under "Cultivated" and "Culturable," as the latter cannot be exactly ascertained till the district has been fully surveyed. Most of the culturable land in Ratnágiri is cultivated.

41. All the districts of the Division, except Ratnágiri, show an increase in the area cultivated in 1883-84 over that cultivated in 1882-83, the net increase being acres 32,124-15-2¾.

42. The decrease in Ratnágiri is due to certain lands being left fallow, and to the remeasurement of varkas lands. The increase in Belgaum, Dhárwár, Kaládgi and Kolába is due to the larger area of land taken up for cultivation, lapse of inám lands, and to bringing to account of land from partially alienated (sherákati) villages. Land taken up for cultivation alone is shown in Supplement to Huzúr Form No. 21 L., which speaks favourably of the condition of the agricultural classes.

43. Huzúr Form No. 17 H. shows the extent to which crops of various kinds were grown in each of the districts of the Division, and supplementary thereto are given the abstract statements showing the average quantity of seed sown per acre and the average yield per acre of each crop. The information regarding the khálsa and alienated

Appendix No. X.

villages has been given in separate statements for Dhárwár, Kaládgi, Kolába and Ratnágiri as in all these districts only a few of the alienated villages are completely surveyed, and the rest are partly or wholly unsurveyed. For Belgaum the figures for khálsa and inám villages (surveyed) are given together in one statement and those for the unsurveyed inám villages in another.

In reply to a reference the Collector of Belgaum states that "the area cannot be converted into acres and gunthás. In the Belgaum Táluka the area is shown in thikáns, in the Chikodi Táluka in cháhurs, bighás, pánds, &c., and in the Athni Táluka in cháhurs, táks, annas and wáv. Besides the area of one kind of measurement in the alienated villages in one táluka differs from that of the same kind of measurement in another táluka."

44. The table given in paragraph 38 of the last year's report has been omitted from this report, as the figures for khálsa and inám villages together for last year are not available for the purposes of comparison with those of the year under report.

45. The incidence of the Government demand on an acre of dry-crop, garden and rice lands and alienated lands paying quit-rent to Government as well as the incidence of Government demand on Government land alone is given in the following table :—

Huzúr Form No. 9, Appendix No. XIV.

Districts.	Incidence of Government Demand per Acre.					Average Incidence of Government Demand per Acre on both Columns 4 and 5.
	On Dry-crop Land.	On Garden Land.	On Rice Land.	On Government Land alone.	On alienated Land.	
	1	2	3	4	5	6
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Belgaum	0 11 2	2 15 9	2 14 6	0 13 2	0 5 3	0 9 0
Dhárwár	1 1 6	5 9 4	3 0 2	1 3 7	0 9 11	1 0 2
Kaládgi	0 8 7	1 5 2	1 9 11	0 8 4	0 4 10	0 5 9
Kánara	0 6 4	9 10 9	2 13 9	2 6 7	.....	2 6 7
Kolába	0 3 5	5 6 5	3 13 10	1 9 4	0 7 11	0 2 7
Ratnágiri	0 5 8	7 9 6	3 14 6	0 13 6	0 3 2	0 12 9

46. With the exception of Kánara and Ratnágiri which are not wholly surveyed and the figures for which cannot be admitted with certainty, Dhárwár pays the highest average amount per acre on dry-crop land and Kolába on garden and rice land. Kaládgi pays the lowest average amount owing to its inferior soil.

47. Allowances to the village and district hereditary officers and allowances of a miscellaneous nature, due in the current year, have been contrasted in this statement with those paid in the preceding year. The fluctuations appearing in the Forms Nos. 20, 21 and 22 have been explained in detail below the statement.

Huzúr Form No. 20 K., Appendix No. XI.

48. Huzúr Form No. 21 L. shows the area and assessment of all occupied lands, also of lands thrown up and taken up for cultivation during the years 1882-83 and 1883-84 in each of the Collectorates of the Division, and a supplementary statement which is also appended gives in detail the causes of fluctuations in the extent of land relinquished and taken up for cultivation. The total area of land occupied at the beginning of the year was acres 6,006,697-9-0¼, of which acres 24,559-17-5 and 1,227-1-4 were respectively thrown up and forfeited for non-payment of Government demand. The area taken up for cultivation during the year was acres 57,910-21-4, and the whole area in occupation at the close of the year was acres 6,038,821-11-11¼.

Appendices Nos. XII. and XIII.

	Total occupied Land.		Land thrown up.		Waste Land forfeited to Government.		Land taken up.	
	Area.	Assessment.	Area.	Assessment.	Area.	Assessment	Area.	Assessment.
	A. g. a.	Rs. a. p.	A. g. a.	Rs. a. p.	A. g. a.	Rs. a. p.	A g. a.	Rs. a. p.
1882-83	59,55,072 15 6½	53,58,199 6 0	38,601 14 11½	43,735 8 10	874 12 4	598 6 9	91,100 20 9½	80,873 11 2
1883-84	60,06,697 9 ½	53,94,739 1 7	24,559 17 5	17,625 13 11	1,227 1 4	673 7 6	57,910 21 4	82,459 14 2
1883-84 .. Increase ..	51,624 33 9½	36,539 11 7	....	....	352 29 0	75 0 9	....	1,586 3 0
1883-84 .. Decrease ..	....	....	14,041 37 6½	36,109 10 11	....	..	33,189 39 5½	....

49. The results exhibited by the above table are satisfactory. There is an increase in the total occupied area and its assessment at the opening of the year, while there is a decrease both in the area and assessment of land thrown up. Although the total area of land taken up during the year is less than last year's, it is of a more valuable quality, as it bears a far higher average assessment than the land taken up last year.

50. Huzúr Form No. 25 P. furnishes details of the land set apart for special and public purposes as the same stood during the year under report. The total area of the land so set apart amounts for the Division to acres 144,509-26-1 assessed at Rs. 6,172-8-0 in addition to acres 1,504,919-6-6¼ of unassessed land. The increase over the preceding year is chiefly in lands set apart as Forest Reserve and for cattle pasturage which constitute the largest portion of the area given in the statement.

Appendix No. XV.

51. The number and extent of occupancies in each Collectorate and the average size of each is detailed in Huzúr Form No. 26 Q. In the table subjoined, holdings not exceeding 5 acres and those exceeding 1,000 acres in extent in contrast with the figures for 1882-83 are given for the sake of comparison:—

Appendix No. XVI.

Districts.	Number of Holdings.		Average Size of Occupancies.
	Not exceeding 5 Acres.	Exceeding 1,000 Acres.

Total ... 1883-84	148,885	73	16 24 8

52. The statistics regarding live stock, ploughs and carts are exhibited in this appendix for each táluka in the districts of this Division with an abstract at the foot contrasting the totals for the year with the same for the preceding year. All the three up-country districts show a good increase in almost all the live stock except sheep in Belgaum and mares and asses in Kaládgi ; whereas the coast districts show a marked decrease : Kánara in cows, bullocks and buffaloes (female), and Kolába and Ratnágiri in buffaloes, male and female, and sheep. On the whole, there is an increase under all the heads, small decreases appearing only in the number of asses, ploughs with four bullocks, and riding carts. These results are on the whole satisfactory and may be taken as an indication of the well-to-do condition of the agricultural classes.

Appendix No. XVII.

53. Since the close of the year under report the Agricultural Department has been organised for the collection of statistics and maintenance of survey records in the Dhárwár District, and similar establishments will also gradually be formed in other districts. It is expected that these new establishments will greatly conduce to the improvement of all agricultural statistics in future years.

I have the honour to be,

Sir,

Your most obedient Servant,

ARTHUR CRAWFORD,

Commissioner, S. D.

INDEX OF APPENDICES TO THE JAMÁBANDI REPORT OF THE SOUTHERN DIVISION FOR 1883-84.

Appendix No. I.—Huzúr Form No. 10 A.—Contrasted Statement of the Gross and Net Land Revenue.

Appendix No. II.—Supplement to Huzúr Form No. 10 A.—Statement showing the minor items of Revenue entered in Column 22 of the above-named form.

Appendix No. III.—Contrasted Statement, being an analysis of No. 10 A.

Appendix No. IV.—Statement showing the processes adopted for the realization of Land Revenue and the result thereof during the year.

Appendix No. V.—Huzúr Form No. 13 D.—Contrasted Statement of Advances made under the Land Improvement Act.

Appendix No. VI.—Huzúr Form No. 13 D (I).—Contrasted Statement of Takávi Advances made under the Rules prescribed under Section 4 of Act XV. of 1880.

Appendix No. VII.—Huzúr Form No. 14 E.—Statement showing the objects for which Advances under the Land Improvement Act were given.

Appendix No. VIII.—Huzúr Form No. 14 E (I).—Statement showing the objects for which the Takávi Advances under the Rules prescribed under Section 4 of Act XV. of 1880 were made.

Appendix No. IX.—Huzúr Form No. 16 G.—Contrasted Statement of Cultivated Lands.

Appendix No. X.—Huzúr Form No. 17 H.—

(1). Statement showing the average amount of Seed sown, and average Yield per acre, of each of the Principal Products in Government Lands, with Abstracts I. and II.

(2). Statement showing the average amount of Seed sown, and average Yield per acre, of each of the Principal Products in alienated Lands.

Appendix No. XI.—Huzúr Form No. 20 K.—Contrasted Statement of the Allowances to Village and District Hereditary Officers including Miscellaneous Allowances.

Appendix No. XII.—Huzúr Form No. 21 L.—Contrasted Statement showing the area of Occupied Land thrown up and Waste Land taken up for cultivation.

Appendix No. XIII.—Supplement to Huzúr Form No. 21 L.—Explanatory of the reasons of Increase and Decrease in the Area of Land thrown up and Waste Land taken up for Cultivation.

Appendix No. XIV.—Huzúr Form No. 9.—Statement showing the average Incidence of Government Demand on Government and Alienated Lands paying quit-rent.

Appendix No. XV.—Huzúr Form No. 25 P.—Statement showing details of Land set apart for special and public purposes.

Appendix No. XVI.—Huzúr Form No. 26 Q.—Statement showing the Number and Extent of Occupancies.

Appendix No. XVII.—Statement showing the Number of Cattle, Carts, Ploughs, &c.

ARTHUR CRAWFORD,

APPENDIX

No. I.

No. 10 (A).

HUZUR FORM

Contrasted Statement exhibiting the Gross and Net Land Revenue of the several Collectorates of the Southern Division for the Land Revenue years A.D. 1883-84 and 1882-83; together with the amount of Realizations, Remissions, and Sums written off, and of the Balances outstanding on account of current and former years up to the 1st August of each year.

ARTHUR CRAWFORD,
Commissioner, S. D.

BOMBAY: PRINTED AT THE GOVERNMENT CENTRAL PRESS.

Annual Reports: Revenue Settlement Reports of the Northern, Central and Southern Divisions for 1883-84.

No. 8092.

REVENUE DEPARTMENT.

Bombay Castle, 5th October 1885.

Letter from the Commissioner, S. D., No. 636, dated 10th March 1885.
Letter from the Commissioner, N. D., No. 856, dated 14th March 1885.
Letter from the Commissioner, C. D., No. R.—3499, dated 27th June 1885.
} Submitting the annual reports on the revenue settlement of their respective Divisions for the year 1883-84.

Memorandum from the Commissioner, S. D., No. 1837, dated 10th July 1885.

RESOLUTION.—His Excellency the Governor in Council must express his dissatisfaction with the great delay which has occurred in the submission of the Jamábandi Reports of the Central and Southern Divisions for the year 1883-84. The latest date fixed for the submission of the reports is the 1st March, and the time thus allowed for their preparation—seven months—appears to be ample. But the report for the Southern Division was not received until the 2nd May, and that for the Central Division until the 28th July or almost a year after the close of the period to which it relates. The Commissioner, S. D., does not account for the delay. The Commissioner, C. D., attributes it to the change introduced in Statement 17H and to the discovery of errors. But that statement differs from those in previous reports only in containing information regarding alienated lands, the adoption of the formulæ which have been framed for estimating the outturn of crops having been deferred until the current year. The explanation cannot therefore be regarded as satisfactory. It has been repeatedly pointed out that such reports lose much of their value and interest by delay in publishing them, and His Excellency in Council must insist on greater punctuality being observed in future.

Nature of season.

2. The rainfall in 1883, although in some places below the average, was generally seasonable. In some districts in the Northern and Southern Divisions the kharif crops were injured by drought in the months of July and August, while in the districts in the Central Division excessive rain during these months proved equally injurious. In all the districts except Bijápur, where both the kharif and rabi crops were below the average, the rabi crops yielded a good harvest. Locusts appeared in the beginning of the monsoon in the Deccan and the Konkan, and injured the warkas crops in the latter Division to a considerable extent, but did little damage in the former.

Territorial changes.

3. The number of Government and alienated villages in the several Divisions in the year under review and the previous year respectively are shown in the following statement. In this as in all other statements given below the figures for the Panvel Táluka, which was transferred from the Thána to the Kolába District on 1st October 1883, are included in those for the Southern Division both for the year under review and for the previous year :—

	Villages.			
	Government.		Alienated.	
	1883-84.	1882-83.	1883-84.	1882-83.
Northern Division	5,099½	5,103½	385½	382½
Central do.	8,576¾	8,580¾	1,100¾	1,099¾
Southern do.	6,954½	6,939½	772	773
Total ...	20,630¾	20,623¾	2,258¼	2,255¼

The decrease of 4 in the number of Government villages in the Northern Division is due to the desertion by its former inhabitants of one village in the Ahmedabad District, and to the classification of 3 villages in the Panch Mahâls as alienated, which caused a corresponding increase in the number of alienated villages in this Division. The decrease of 4 in the number of Government villages in the Central Division resulted from the distribution of the lands of a village in the Sátára District among the villages in its vicinity and the removal from the register in the year under review of 3 villages in Khándesh, two of which were transferred to the Nimar Division of the Central Provinces in 1872 and one to His Highness the Holkar so long ago as 1866. The cause of the great delay in amending the register is not explained. The transfer of one alienated village from the Bijápur to the Sholápur District accounts for an increase of one in the number of alienated villages in the Central Division and for a corresponding decrease in the Southern Division. The increase of 15 Government villages in the Southern Division is attributed to the fact that some hamlets in Kánara were classed as villages at the time of the survey settlement.

Cultivable area.

4. The area of cultivable land in the three Divisions in the year under review and the previous year respectively was as follows :—

	Cultivable assessed Area in Acres.							
	Garden Land.		Dry-crop.		Rice.		Total.	
	1883-84.	1882-83.	1883-84.	1882-83.	1883-84.	1882-83.	1883-84.	1882-83.

Less in 1883-84	....	.....	....	....	..	..	....	....

* Exclusive of the districts of Ratnágiri and Kánara.

In all Divisions there is an increase in garden land, that in the Central Division being the largest. A great part of the large increase shown in the area of dry-crop land in the Northern Division is nominal, resulting from the inclusion for the first time in the figures for the year under review of the area of tálukdári lands in Kaira and Panch Mahâls. The figures for the two years should have been made homogeneous. Most of the Tálukdári lands have been shown as dry-crop, but it is not quite clear whether all have been entered under that head. A decrease is shown in the cultivable area in Surat, but is not explained. The areas of cultivable land in Ratnágiri and Kánara are not included in the figures for the Southern Division, as reliable information regarding them cannot be obtained until these districts have been fully surveyed.

Area occupied.

5. The following statement shows the area in occupation in each district in the year under review and the previous year respectively and the manner in which the variations have occurred :—

Collectorates.	Land occupied in 1882-83.		Land relinquished.		Land forfeited for non-payment of revenue.		Land taken up.		Land occupied in 1883-84.

In this statement the area of the Kaira and Panch Maháls tálukdári lands has been included in the figures for 1882-83 as well as in those for 1883-84. There was in the whole Presidency, excluding Kánara, an increase of 211,470 acres in the area, and of Rs. 1,41,988 in the assessment of occupied land. In the Central Division alone the increase in area amounted to 177,368 acres and in assessment to Rs. 82,968. The proportion of the assessment to the area shows that both the lands which were relinquished and the lands which were taken up in that division were of inferior quality; the good land remains permanently in occupation. When a large proportion of the cultivable area consists of poor soil, the nature of the season has an immediate and marked effect on the area in occupation. Thus there were taken up in the year under review in the Sholápur District 83,748 acres, of which the average assessment is little over 6 annas per acre. The areas taken up in Ahmednagar, Khándesh and Násik were also large, but in the last two districts considerable areas were also relinquished. The Commissioner, C. D., should be requested to report whether the figures purporting to show that in Ahmednagar 1,324 acres relinquished are assessed at Rs. 10,629 and 30,338 acres taken up are assessed at Rs. 11,177 are correct, and if so, why these areas were respectively relinquished and taken up. The former phenomenon, if real, is too remarkable not to have a definite cause. The figures in Appendix XI. purporting to show the area (3 gunthas) and assessment (Rs. 10,025) of land relinquished owing to the operations of the Survey Department are obviously incorrect. Although there was an increase in the year under review of 1,978 acres in the area of land occupied in the Northern Division there was a decrease of Rs. 4,602 in the assessment, which results from the fact that the lands relinquished and forfeited bear a higher assessment than those taken up. In the Ahmedabad and Surat Districts there was a material, though not very large, decline in the area in occupation. The Commissioner, N. D., states that the decrease in Ahmedabad is due to the relinquishment of low-lying lands in the Dholka and Daskroi Tálukás which had been submerged and to the fact that some land of inferior quality in the Paráńtij Tálúka was abandoned. Exhaustion of soil and poverty of cultivators are stated to be the chief causes of the decrease in Surát, but it is observed that the lands relinquished in that district bear a rather high assessment, and the Commissioner does not notice that as a result of an enquiry instituted in consequence of the contraction of cultivation shown in the report for 1882-83, some reduction of water-assessment was made in certain cases, and steps were taken to remedy defective drainage. These measures were not however carried out in time to affect the cultivation of 1883-84. Only 21 acres of land are stated to have been thrown up in the year under review on account of high rates of assessment. It is also reported that owing to the reduction in the rates of assessment in the State of Bánsda many cultivators belonging to that State who had settled in the Chikhli and Párdi Tálukás relinquished their holdings and returned to their homes. The decrease in cultivation in the Broach District, which had annually taken place to a greater or less extent since 1877-78, ceased in the year under review, in which there was an increase of 965 acres, assessed at Rs. 2,209, in the area of land in occupation in that

district. In the Southern Division exclusive of Kánara the increase in the occupied area is shown as 32,124 acres assessed at Rs. 63,622, but the figures for the Ratnágiri District are obviously erroneous and vitiate the totals. Rs. 50,453 is shown as the assessment of 8,135 acres taken up, and Rs. 38,361 as the assessment of 17 acres taken up for minor causes. In future the information should be given only for settled villages, and there is no reason why this course should not be followed also in Kánara. In the Bijápur District 31,869 acres were taken up for cultivation, the average assessment per acre of which (6 annas) is about the same as that of the land taken up in Sholápur. It is not shown how far fluctuations in the assessment have resulted from the introduction of new settlements, and it is not clear that the practice of showing the new rates of assessment as the demand in the year in which they are introduced and the difference between them and the old rates as a remission is uniformly adopted. Revised settlements were introduced into the Hungund and Bágalkot Tálukás of the Bijápur District in the year under review, but the increase shown in the assessment of occupied land in that district cannot include the enhancements which resulted from these settlements.

Average assessment.

6. The following statement shows the average assessment per acre of the different kinds of land occupied in the several districts in the year under review :—

Collectorates.	Dry-crop.	Garden Land.	Rice Land.	Average Assessment on total occupied Government Land.
Northern Division.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Ahmedabad	1 5 7	5 6 8	4 10 4	1 10 4

Sholápur	0 7 3	1 1 5	1 6 0	0 7 8
Khándesh	1 0 1	3 13 4	.....	1 0 7
Násik	0 8 9	1 8 10	2 4 1	0 10 11
Southern Division.				
Belgaum	0 11 2	2 15 9	2 14 6	0 13 2
Dhárwár	1 1 6	5 9 4	3 0 2	1 3 7
Bijápur	0 8 7	1 5 2	1 9 11	0 8 4
Kánara	0 6 4	9 10 9	2 13 9	2 6 7
Ratnágiri	0 5 8	7 9 5	3 14 6	0 13 6
Kolába	0 3 5	5 6 4	3 13 10	1 9 4

The figures do not on the whole differ much from those of previous reports, which have been carefully considered, and call for little remark. Such material variations as there are appear to result from errors in the figures. The Commissioner, N. D., states that all tálukdári and bhágdári lands in Broach were formerly shown under the head of dry-crop lands, whereas they are now distributed under their proper heads, and that this accounts for the increase from Rs. 6-15-4 to Rs. 7-12-11 in the average assessment of garden land in that district. His Appendix No. XVII. however shows that bhágdári lands have been so distributed but not tálukdári lands, and the result which might be expected would be a decrease in the average assessment of dry-crop land, but not an increase in the average assessment of other land. The figures which are given in the foregoing table are moreover the average assessment of what is called Government garden land as distinct from bhág garden land. The average assessment of rice land in Broach is shown as Rs. 7-7-1 as compared with Rs. 4-10-4 in 1882-83, the reason being that while the total assessment of Government rice land is shown as being somewhat greater than in 1882-83, the area is shown as having fallen from 5,333 to

to 3,335 acres. For a precisely similar reason the deduced average assessment per acre of garden land in Ratnágiri was Rs. 7-9-5 in the year under review as compared with Rs. 5-5-2 in the previous year. The precise effect of the transfer of the Panvel Táluka from the Thána to the Kolába District cannot be ascertained without detailed figures for the several tálukás, but in view of the extensive cultivation of rice in the Konkan it can scarcely have been what a comparison of the figures for 1883-84 with those for 1882-83 indicates, *viz.*, a decrease from Rs. 4-6-4 to Rs. 3-13-10 in the average assessment per acre of rice land, and at the same time an increase from Rs. 1-7-8 to Rs. 1-9-4 in the average assessment per acre of all occupied land in the Kolába District. It is of importance that the incidence of the assessment in different districts should be correctly shown, and the Commissioners should be requested to take more care in future to furnish accurate figures.

Number and average size of occupancies.

7. The number and average size of occupancies in each district are shown below. The average amount of assessment paid by the population engaged in agriculture was much the same as in previous years, and it has not been considered necessary to repeat the information on this point :—

Districts.	Number of Occupancies.	Average size of Occupancies.
		A. g. a.
Northern Division.		
Ahmedabad	59,695	29 17 0
Kaira	110,629	6 25 0
Panch Maháls...	24,394	11 20 0
Broach	49,740	13 4 0
Surat	75,142	10 0 0
Thána	77,165	13 18 15
Total ...	396,765	13 5 8
Central Division.		
Poona	67,317	29 16 0
Ahmednagar	67,396	37 33 0
Sátára	78,671	26 32 0
Sholápur	43,122	51 14 0
Khándesh	131,815	25 0 0
Násik	66,457	32 0 0
Total ...	454,778	31 16 0
Southern Division.		
Belgaum	63,892	25 14 0
Dhárwár	78,550	27 21 0
Bijápur	67,579	35 31 0
Kánara	30,990	9 33 11
Ratnágiri	122,395	8 39 11
Kolába	70,393	8 20 13
Total ...	433,799	16 36 11
Grand Total ...	1,285,342	17 22 7

It is remarkable that although there was as above shown a decrease in the occupied area in the Surat District, which the Commissioner, N. D., has attributed partly to the return of cultivators to the State of Bánsda, there was an increase in the number of occupancies in that district. In the Ahmednagar, Sátára, Sholápur, Khándesh, Násik, Dhárwár and Bijápur districts the number of occupancies has risen with the area in occupation, doubtless owing to the fact

that persons who had abandoned their lands in previous unfavourable seasons have resumed cultivation. In Belgaum on the other hand there was notwithstanding an extension of cultivation a decrease in the number of occupancies and therefore a reduction of their average size. In Khándesh, Sholápur, and Ahmednagar holdings of the larger size have decreased, but in Ahmedabad, Panch Maháls, Dhárwár, and Bijápur the reverse has been the case. Panch Maháls is the only district in which there was a marked increase in the average size of occupancies, which is not explained but appears to be due to the inclusion of tálukdári lands in the calculation for the year under review.

Extent of cultivation of different kinds of crops.

8. The following statement shows the extent to which crops of different kinds were grown in 1883-84:—

Collectorates.	Jowári.	Bájri.	Wheat.	Rice.	Total of staple food-grains.	Cotton.	Other Crops.	Fallow.	Total.	Land twice Cropped.
Northern Division.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.	Acres.

In Government Resolution No. 397, dated 16th January 1884, it was directed that the forms drawn up by the Sub-Committee appointed under Government Resolution No. 1327, dated 17th February 1883, should be adopted in compiling agricultural statistics, but as these forms were not translated and supplied to the táluka officers in time for use in the year under review, the returns have been prepared according to the old forms. The area sown with different crops has accordingly been alone shown in the foregoing statement, it being impossible to place any reliance on the estimates of outturn. The figures for the Northern Division include the areas of lands cultivated in alienated villages except those of the Panch Maháls, while those for the Central and Southern Divisions* include those of alienated lands in Government villages. There was a satisfactory increase in the cultivation of wheat and cotton in the Central and Southern Divisions. In the Northern Division there was an increase in the area sown with cotton, but a decrease in that sown with wheat. The area devoted to the production of jowári increased in all Divisions, that devoted to the production of rice in the Northern and Southern Divisions and that devoted to the production of bájri in the Northern Division only.

*The Commissioners, Central and Southern Divisions, give figures regarding alienated villages for the year 1883-84, but not for 1882-83, and they have therefore been excluded from the statement, in order that the figures for the two years may be homogeneous.

9. The extent of assessed culturable land remaining unoccupied in the year under review is contrasted with that in the previous year in the following statement:—

Unoccupied culturable land.

	Extent of unoccupied assessed Land.		Increase.	Decrease.	Percentage of Increase or Decrease.
	1883-84.	1882-83.

The increases and decreases correspond with the increases and decreases in the occupied area, after making allowance for the variations in the assessed area shown in para 4. The cultivable area still available for cultivation in Broach, Surat, Thána, Sátára and Kolába is not large.

10. The Commissioner, N. D., states that in the year under review no advances were made in that Division under the Land Improvement Act, but one of the purposes for which Rs. 300 were advanced in the Kaira District is given as the sinking of a well, and it is not understood why that loan is not shown as being made under the Land Improvement Act. The sums borrowed from Government for land improvement in the Central and Southern Divisions were respectively Rs. 4,425 and Rs. 180. Of the former sum Rs. 3,575 were advanced in Ahmednagar for the purpose of sinking wells. Advances for other agricultural purposes are reported to have been made as follows:—

Takávi.

	Rs.
Northern Division	300
Central do.	25,302
Southern do.	107

The sums advanced were smaller than in the previous year. The rules which were framed under Section 4 of Act XV. of 1880, and are about to be re-issued with slight modifications under the Agriculturists' Loan Act, 1884, have not yet had an appreciable effect in increasing applications for advances. Draft rules under the Land Improvement Loans Act, 1883, are still under the consideration of the Government of India. Of the advances of both kinds made in previous years Rs. 5,108 were written off as irrecoverable, and the total amount remaining to be recovered at the close of the year was Rs. 70,482.

11. The land revenue demand in each district for the year under review is contrasted with that of the previous year in the following statement :—

The assessment on Government land in occupation, which constitutes by far the larger portion of the revenue, has been shown in the statement in paragraph 5. Other items, such as quit-rent on alienated lands, sale-proceeds of the right of occupancy, and of grazing lands annually sold by auction, &c., are included in the figures in the foregoing table. The total demand for the year under review was greater by Rs. 2,26,954 than in the previous year, and by Rs. 8,56,638 than the average demand for the 14 years ending 1882-83. The increase took place in all Divisions, that in the Southern Division being the largest. The variations in the demand on account of expansion or contraction of cultivation in each district and on account of the revision of assessment have been shown in paragraph 5. The large increase in Ratnágiri is attributed to the adoption of higher commutation rates and to the discontinuance of the practice of deducting attachment expenses from the realizations in attached villages. Panch Mahâls, Ahmednagar, Sátára and Sholápur are the only districts in the Northern and Central Divisions in which there was a decrease in the revenue demand. The decrease in Sholápur is attributed to smaller realizations on account of the sale of occupancy rights and to "refund of over-collections under the orders in Government Resolution No. 6487, dated 9th December 1880." In the orders quoted it was merely directed that returns showing the original and revised assessment of tálukás in which revision settlements have been introduced should be prepared, but what is presumably meant is that the returns were not prepared in time to allow of the remissions directed in the despatch of the Secretary of State, No. 45, dated 11th November 1880 being made in previous years and that deductions were accordingly made from the demand of the year under review. In other cases the deductions have been shown as remissions, and this is the preferable course. The decreases in other districts were not considerable.

12. The remissions granted in the year under review are compared with those in the previous year in the following statement :—

Rs. 83,285 are shown as remitted in the Central Division and Rs. 39,218 in the Southern Division on account of the introduction of survey rates, but the greater part of these sums was apparently remitted to bring the enhancement of assessment resulting from revision settlements within 20 per cent. of the original survey assessment in accordance with the instructions conveyed in the despatch of the Secretary of State, No. 45, dated 11th November 1880. The term for which such remissions were sanctioned in the first instance was 3 years, but they were in some cases continued in the year under review. The reason assigned by the Commissioner, S. D., for the remission of Rs. 14,902 in Kánara, "introduction of revision of survey," is incorrect, as no revised settlements have been introduced in that district, and the sum apparently includes remissions granted under the orders contained in Government Resolution No. 5573 dated 21st October 1874 regarding the gradual enhancement of the demand in certain cases. A large sum of Rs. 72,141 shown as remitted in the same district consists of reductions of the assessment of certain holdings, which are however entered in the accounts as remissions pending the application of survey rates to the holdings. Remissions on account of failure of crops from drought were insignificant, but Rs. 39,378 were remitted in Násik on account of damage by locusts. The other remissions do not call for remark.

Revenue collected and balances.

13. In the following statement are shown the land revenue due for collection after deducting remissions, the amount collected, and the outstanding balances :—

The balances of the revenue due for former years which remained on the accounts at the beginning of 1883-84 were less by Rs. 2,28,963 than those which were outstanding at the beginning of 1882-83, and of the amount in arrears Rs. 2,31,669 were recovered in the year under review, Rs. 2,62,263, of which Rs. 2,39,536 pertained to Násik alone, were written off, and Rs. 68,776 remained to be recovered at the end of the year. Ahmednagar and Ratnágiri are the only districts in which these balances continue to be large. Measures have been taken for their recovery or remission in both these districts.

14. There was a satisfactory increase in the revenue for collection and in the amount collected. The arrears of revenue due in the year under review outstanding in the Northern Division at the close of the year were considerably less than in the previous year. In some districts of the Central Division however, particularly in Ahmednagar and also in Ratnágiri, the amount outstanding were considerable.

15. Between the close of the year and the dates of the Collectors' reports further adjustments were made in the amounts of balances both of revenue due in the year under review and of that due in previous years. The following statement shows the balances remaining to be collected at the dates of the Collectors' reports :—

		Balances for 1883-84.	Balances for former years.	Total.

There was an increase in the number of notices issued, notice-fees levied and amount of penalties levied under Section 148 of the Land Revenue Code, but there was a decrease in all other forms of pressure. In the Central Division the number of notices issued and that of cases in which it was found necessary to levy penalties under Section 148 of the Land Revenue Code were respectively 37,011 and 1,409, and not 27,011 and 1,499 as stated by the Commissioner, C. D., in paragraphs 13 and 14 of his report. In the districts noted in the margin the amount levied as notice-fees was considerably larger than in the previous year. It is reported that in one case in Poona it was found necessary owing to the contumacy of the cultivator to resort to the extreme measure of imprisonment in the Civil Jail. The reasons for adopting this course should be more fully stated. Khándesh and Surat are the only districts in which pressure in the form of one-fourth penalty and distraint of moveable property was resorted to to a considerable extent. The area of land forfeited was less than half the area forfeited in the previous year. In Kaira, Kolába, Thána and Belgaum only was there an increase, but the area forfeited in the first two districts was insignificant.

Surat, Broach, Thána, Ahmednagar, Khándesh, Násik, Ratnágiri.

17. The Public Works revenue for irrigation has not been included in the statements given above. There was a decrease of Rs. 17,282 in the amount realized in the Central Division (Rs. 150,737), and of Rs. 493 in that realized in the Southern Division (4,307). The reasons for these decreases are not stated.

Public Works revenue for irrigation.

18. The amount of revenue alienated is shown below :—

Alienated revenue.

	1883-84.			1882-83.			Increase.			Decrease.		
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.
Northern Division	26,05,246	3	9	25,87,380	7	2	17,865	12	7	.....		
Central do.	21,15,271	7	8	21,21,261	8	0	.....			5,990	0	4
Southern do.	16,19,970	1	9	16,32,398	12	1	.....			12,428	10	4
Total ...	63,40,487	13	2	63,41,040	11	3	17,865	12	7	18,418	10	8

The increase in the Northern Division is chiefly due to the introduction of survey rates into some alienated villages in the Panch Maháls. The decreases in the Central and Southern Divisions are mainly due to lapses of ináms. That in Belgaum is attributed partly to the levy of increased quit-rent on account of the introduction of survey rates into some alienated villages. It was before pointed out that if increased quit-rent is due on account of the introduction of survey rates the revenue remaining with the inámdár cannot have been reduced, and it was explained that the increased quit-rent was levied for the first time in the year referred to, while the survey rates had been introduced some years previously. It is presumed that the explanation applies also in the present case, but it should have been given in the report. In Poona, Ahmednagar, Khándesh, Kolába and Ratnágiri the introduction of survey rates in alienated villages caused an increase in the amount of alienated revenue.

19. The general results of the administration of land revenue during the year under review are contrasted with those for the previous year in the following statement :—

General results.

		1883-84.	1882-83.
		Rs.	Rs.
Gross Revenue ...	Northern Division ...	1,21,17,469	1,20,54,002

	Total ...	2,71,795	14,60,618
Revenue for collection.	Northern Division ...	94,97,360	94,49,169
	Central do. ...	97,47,279	90,01,899
	Southern do. ...	76,61,691	70,39,485
	Total ...	2,69,06,330	2,54,90,553
Balances on account of current year.	Northern Division ...	7,669	9,018
	Central do. ...	55,116	4,20,008
	Southern do. ...	51,109	27,715
	Total ...	1,13,894	4,56,741
Balances on account of former years.	Northern Division ...	2,728	14,759
	Central do. ...	45,949	73,499
	Southern do. ...	20,099	17,878
	Total ...	68,776	1,06,136

The sum of alienated revenue, Public Works revenue from irrigation, and Government revenue in the Central Division does not tally with the gross revenue shown for that Division. There is apparently a mistake in the figures for Nasik.

The Government revenue for the year under review was larger than in the previous year and considerably in excess of the average revenue of 20 previous years. The amount actually collected was also greater than in previous years and comparatively little difficulty was experienced in the realization of it.

20. The forms of report which have come to be adopted in the several Divisions are not in all respects suitable to existing circumstances, and there appears to be, as has been pointed out above, some want of uniformity in the manner of preparing the statements even in districts of the same Division, while many of the explanations given are barely intelligible and some are inaccurate. His Excellency the Governor in Council will be glad if the Commissioners will endeavour to avoid these defects in future reports.

J. MONTEATH,

Under Secretary to Government.

To

The Commissioner, N. D.,
The Commissioner, C. D.,

No. 675 of 1886.

From

G. F. SHEPPARD, Esquire,
Commissioner, N. D.;

To

JOHN NUGENT, Esquire,
Secretary to Government,
Revenue Department,
Bombay.

Broach Districts, Camp Jambusar,
26th February 1886.

Sir,

I have the honour to submit the Annual Report on the Revenue Settlement of the Northern Division for the year 1884-85, with the following Appendices:—

Appendix No. I.—Huzúr Form No. 10A.—Contrasted Statement showing the gross and net Land Revenue together with remissions and the balances outstanding.

Appendix No. II.—Supplement to Huzúr Form No. 10A.—Statement exhibiting the minor items of Revenue entered in Column 22 of Huzúr Form No. 10A.

Appendix No. III.—Huzúr Form No. 12C.—Statement of outstanding balances of Land Revenue.

Appendix No. IV.—Statement showing processes issued for the realization of Land Revenue, and their results.

Appendix No. V.—Huzúr Form No. 13D.—Contrasted Statement of advances under the Land Improvement Act.

Appendix No. VI.—Huzúr Form No. 13D (1).—Contrasted Statement of ordinary Takávi advances.

Appendix No. VII.—Huzúr Form No. 14E.—Statement showing the objects for which advances under the Land Improvement Act were granted.

Appendix No. VIII.—Huzúr Form No. 14E (1).—Statement showing the objects for which ordinary Takávi advances were granted.

Appendix IX.—Huzúr Form No. 15F.—Statement of outstanding balances of advances under the Land Improvement Act.

Appendix No. X.—Huzúr Form No. 15F. (1).—Statement of outstanding balances of ordinary Takávi advances.

Appendix No. XI.—Huzúr Form No. 18.—Statement of Sáyar Revenue (other than Abkári), from Interest and Miscellaneous items (Financial Head XXIV).

Appendix No. XII.—Huzúr Form No. 20K.—Contrasted Statement of allowances of Village and District Hereditary Officers.

Appendix No. XIII.—Huzúr Form No. 21L.—Contrasted Statement of occupied lands thrown out of, and waste lands taken up for, cultivation.

Appendix No. XIV.—Supplement to Huzúr Form No. 21L.—Explanatory Statement of the causes of increase and decrease in the area of land thrown out of, and taken up for, cultivation.

Appendix No. XV.—Huzúr Form No. 25P.—Statement showing the details of lands set apart for special and public purposes.

Appendix No. XVI.—Huzúr Forms Nos. 26 A. and B.—The former showing the number and extent of holdings in Surveyed Government Rayatwári villages with details of each district and the latter giving other varieties of tenure than Rayatwári with the number of estates and the area and revenue paid to Government under each variety of tenure.

Appendix No. XVII.—Huzúr Form No. 9.—Statement exhibiting the average incidence of Land Revenue for each district per acre and per head of population in Surveyed khálsa Rayatwári villages.

2. It may here be mentioned, with reference to paragraph 20 of Government Resolution No. 8092, dated 5th October 1885, that the form of report engaged the attention of the Divisional Commissioners and a sub-committee consisting of our Assistants was appointed to compare the reports of the three Divisions and reconcile such differences as may be found. This having been done the form of the report has materially been altered and, it is trusted, it will meet with the approval of Government. It may also be added that some further alterations have been necessitated by the omission of Huzúr Form No. 16G. (showing each description of culturable land), 17H. (showing the average yield per acre of the principal products), and the Stock Return (showing the number of cattle, carts, ploughs, &c.); and the addition of columns showing the area and assessment of the culturable land in each district to Huzúr Form No. 21L., as directed in Government Resolution No. 9707, dated 9th December 1884.

Season.

3. The season was, on the whole, favorable though the monsoon set in rather late in June and there was rather a long break in July; but the rainfall was very heavy about the middle and latter end, causing damage to some extent to the kharíf crops generally and cotton in the Ahmedabad and Broach districts. The rice and rabi crops, however, benefited considerably from the later rain and the result was a good outturn. The flooding of the Narbada river in Broach and the Kím and Tápti rivers in Surat submerged the low-lying lands and caused much damage, especially in the latter district, where the Surat Relief Fund afforded help to the extent of Rs. 1,500 to villagers who had suffered damage not only to their crops but to their houses and stocks of grain which were lost in the floods. Towards the latter end of June 1885 a swarm of locusts was seen in the eastern part of the Thána District, but they disappeared almost immediately without doing any damage.

Villages and Hamlets.

4. The number of villages and hamlets (Government and alienated) is shown in columns 3 to 5 of the Huzúr Form No. 10A. The following comparative table exhibits the number of villages in the current and preceding years:—

Appendix No. I.

No.	Districts.	1884-85.			1883-84.			Increase.			Decrease.		
		Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.
1	Ahmedabad	832	52	884	832	52	884	...	...	...	...	...	...
2	Kaira	563	28	591	563	28	591	...	...	...	...	...	...
3	Panch Mahals ...	607	143	750	607	143	750	...	...	...	...	...	...
4	Broach	408	15	423	408	15	423	...	...	...	...	...	...
5	Surat	814½	38½	853	813½	39½	853	1	...	1	...	1	1
6	Thána	1,876	108	1,984	1,876	108	1,984	...	...	...	...	...	...
	Total ...	5,100½	384½	5,485	5,099½	385½	5,485	1	...	1	...	1	1
	Net ...	...	...	...	...	...	...	1	...	1	...	1	1

5. It will be observed from the foregoing statement that there was no change in the number of Government and alienated villages in any of the districts except Surat in which the increase of one Government village is due to the alienated village of Amalchuni in Táluka Mándvi having lapsed to Government on the death of the alienee who was a life-holder. This also accounts for the corresponding decrease in alienated villages in the same district.

6. The following is a comparative table of Government and alienated hamlets :—

No.	Districts.	1884-85.			1883-84.			Increase.			Decrease.		
		Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.
1	Ahmedabad	257	10	267	256	10	266	1	...	1	...	...	...
2	Kaira	519	17	536	517	17	534	2	...	2	...	...	...
3	Panch Mahâls ...	586	96	682	583	96	679	3	...	3	...	...	...
4	Broach	14	...	14	14	...	14	...	...	...	...	...	...
5	Surat	858½	25½	884	857½	26½	884	1	...	1	...	1	1
6	Thâna	2,230	103	2,333	2,230	103	2,333	...	...	...	...	...	...
	Total ...	4,464½	251½	4,716	4,457½	252½	4,710	7	...	7	...	1	1
	Net ...	...	...	...	...	...	...	7	...	7	...	1	1

7. There are slight fluctuations in all districts except Broach and Thâna, where there have been no changes. The increase of one Government hamlet in Ahmedabad and two in Kaira is due to the establishment of a hamlet in the former and to the population of two in the latter. The increase of 3 hamlets in the Panch Mahâls is owing to their having been brought to account for the first time as separate hamlets. The fluctuation in Surat is due to the same cause mentioned above as regards villages.

Land Revenue.

8. The following is a brief comparative abstract of Huzúr Form No. 10A showing the gross and net land revenue, the realizations, remissions, and balances outstanding for the previous year and 1884-85 in each district of the Northern Division :—

No.	Districts.	Gross Revenue.		Alienations.		Government

9. It will be seen from the above that the results this year are satisfactory, inasmuch as the Government revenue and the amount of collections show considerable increase over the previous year's figures. The fluctuations under each head will be readily perceived from the following table :—

Heads.	1884-85.	1883-84.	Increase.	Decrease.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	
Gross revenue	1,21,65,122 3 4	1,21,17,469 13 0	47,652 6 4	.....
Alienations	26,13,854 7 7	26,05,246 3 9	8,608 3 10	.....
Public Works revenue from irrigation.	.....	.....	.....	.....
Government revenue	95,51,267 11 9	95,12,223 9 3	39,044 2 6	.....
Remissions	16,890 3 4	14,863 7 4	2,026 12 0	.....

Balances on account of current year...	16,388 14 0	7,669 8 6	8,719 5 6	.....
Balances on account of former years...	4,319 14 7	2,728 2 2	1,591 12 5	.....

Gross Revenue.

10. The variations under this head will be explained under Government Revenue.

Alienations.

11. The fluctuations under this head in each Collectorate are as follows:—

Districts.	Increase.	Decrease.
	Rs. a. p.	Rs. a. p.
Ahmedabad	4,961 13 11	.....
Kaira	.....	11 8 0
Panch Mahâls	1,352 9 8	.....
Broach	129 10 1	.....
Surat	.....	34 10 7
Thâna	2,210 4 9	.....
Total ...	8,654 6 5	46 2 7
Net ...	8,608 3 10	.....

12. The fluctuations in Kaira, Broach, and Surat are trifling, while on the other hand the districts of Ahmedabad, Thâna, and Panch Mahâls show considerable increase. The increase in the first-named district is principally due to the amount of assessment according to the survey settlement of the Inâm village of Wastral in the Daskroi Táluka having been brought on the accounts of that Táluka; that in the Panch Mahâls is ascribed partly to the change made under Government Resolution No. 7076, dated the 22nd September 1883, in the mode of levying quit-rent on certain Patelki Inâmi lands in the Dohad Táluka and partly to the non-levy of Salami settlement in Godhra pending the completion of the Forest Settlement enquiry; while that in Thâna is mostly due to the survey rates having been introduced into the villages of Walnai and Wadwan, Táluka Sálsette, as also to the transfer of the village of Anjur in Táluka Bhiwndi from Watan to personal Inâm, under Government Resolution No. 8049 of the 11th October 1884,

Government Revenue.

13. The subjoined tabular statement shows the Government revenue in each Collectorate as contrasted with that of the preceding year:—

Districts.	1884-85.	1883-84.	Increase.	Decrease.
	Rs. a.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Ahmedabad	14,57,966 4 5	14,58,614 9 8	.....	648 5 3
Kaira	19,99,086 11 6	19,76,974 1 8½	22,112 9 9½	.....
Panch Mahâls	2,82,413 8 4	2,74,384 10 9	8,028 13 7	.....
Broach	22,39,546 6 5	22,51,430 11 7	.....	11,884 5 2
Surat	23,53,005 12 5	23,40,132 10 6	12,873 1 11	.....
Thâna	12,19,249 0 8	12,10,686 13 0½	8,562 3 7½	.....
Total ...	95,51,267 11 9	95,12,223 9 3	51,576 12 11	12,532 10 5
Net ...	.....	.....	39,044 2 6	.....

14. The districts of Kaira, Panch Maháls, Surat, and Thána exhibit an aggregate increase of Rs. 51,576-12-11 against an aggregate decrease of Rs. 12,532-10-5 in Ahmedabad and Broach, giving a net increase of Rs. 39,044-2-6 for the Division. The fluctuations are explained as follows by the several Collectors:—

I.—COLLECTORATES SHOWING INCREASE.

Increase—	KAIRA.	Rs.
	By unoccupied land taken up for cultivation	16,281
	„ sale proceeds of occupancy right	9,631
	„ ditto dry wood	1,656
	„ Government right in trees	322
	„ grass on waste lands...	535
	„ arrears of revenue of past year recovered	1,222
	„ sale-proceeds of Bhátha lands	1,971
Decrease—		
	By relinquishment of lands	5,810
	„ levy of certain miscellaneous items of revenue from the Cambay State having been foregone under the new Treaty.	780
	„ sale-proceeds of fruit	721
	„ water cess on kacha wells and water-lifts	1,662
	„ assessment on land occupied without permission	389
	„ penalty for unauthorized occupation of land	382
Increase—	PANCH MAHÁLS.	Rs.
	By unoccupied land taken up for cultivation	10,238
	„ increased number of ploughs in the villages in which the 'plough assessment system' obtains	479
	„ increase on account of Istawa (lease) in Tálukdári villages.	1,358
	„ enhancement of assessment consequent on the revision of survey in Dohad	2,875
	„ increased realization from sale of occupancy right	1,564
	„ ditto ditto dry wood	435
Decrease—		
	By relinquishment of lands	3,428
	„ forfeitures on account of arrears of revenue	378
	„ less assessment realized owing to the revision of survey in Dohad	1,351
	„ assessment on land unauthorizedly cultivated	413
	„ ground rent	235
	„ increase in Kharába land	520
	„ less realization on account of water-rates	169
	„ less realization from proceeds of fruits on trees	903
	„ ditto ditto of trees	533
	„ penalties for unauthorized cultivation of land	235
	„ Salámi Settlement until the final settlement of the Forest Settlement work	535
	„ land given up in lieu of Settlement	314
Increase—	SURAT.	Rs.
	By unoccupied land taken up for cultivation	9,822
	„ increased revenue on account of quit-rent on alienated lands	793
	„ sale proceeds of occupancy right	7,534
	„ ditto ditto of grass	1,143
	„ ditto ditto of waste lands	3,380
	„ ditto ditto of dry wood, &c. ...	6,125
Decrease—		
	By land relinquished and lying waste	10,236
	„ less realization from sale of Bhátha lands	1,509
	„ do. from notice and process fees	1,156
	„ sale-proceeds of Survey maps	3,148

Increase—	THÁNA.	S.
By lands taken up for cultivation		713
„ sale-proceeds of occupancy right		384
„ ditto of grass lands		609
„ ditto dry wood		784
„ increased realization from ground-rent		661
„ penalty for unauthorized occupation of land		364
„ assessment charged on land unauthorizedly cultivated ...		765
„ increased realization from tax on trees		7,191
Decrease—		
By less collection of outstanding balances		766
„ sale-proceeds of right in Government trees		317
„ less revenue realized from lands used for salt pans ...		974
„ the amount of Judi levied on the village of Anjur, Táluka Bhiwndi (owing to its transfer from Watan Inám to personal Inám—*vide* Government Resolution No. 8049 of the 11th October 1884)...		937

II.—COLLECTORATES SHEWING DECREASE.

Decrease—	AHMEDABAD.	Rs.
By relinquishment of lands		10,313
„ half the amount of the Jama leviable on the village of Akru, Táluka Dhandhuka, having been remitted as per Government Resolution No. 2702 of the 31st March 1885,		1,500
„ less realization in the proceeds of fruits of trees... ...		1,156
„ ditto dry wood		7,056
„ ditto water-rate		2,924
„ ditto penalties for building upon assessed lands.		2,753
„ ditto from the Railway suburb		6,297
Increase—		
By unoccupied lands taken up for cultivation...		19,755
„ increased realization owing to the fluctuating terms of leases of Mehwási and Tálukdári villages		1,116
„ sale-proceeds of occupancy right		2,538
„ ditto of grass on waste lands		2,396
„ ditto ditto on alluvial lands		4,008
„ sale proceeds of building sites		1,204
„ penalty for unauthorized occupation of land		328

Decrease—	BROACH.	Rs.
By relinquishment of lands		3,109
„ sale-proceeds of grass on waste land		780
„ ditto building sites		323
„ ditto permanent occupancy rights		2,100
„ ditto occupancy of Bhátha land		1,999
„ arrears of revenue less recovered		261
„ sale-proceeds of dry wood, &c.		8,759
„ ditto of waste land		3,241
„ less refunds by the Municipality of the excess amount credited to it on account of the sale-proceeds of City Survey lands		1,008
„ less recoveries of costs of appeals in civil suits made to the Secretary of State for India		572
„ less income derived from service land for the period when service was not performed		473
Increase—		
By unoccupied land taken up for cultivation		9,984
„ notice and process fees		852

Remissions.

15. The remissions granted during the year under report aggregated Rs. 16,890-3-4 against Rs. 14,863-7-4 in 1883-84, giving an increase of Rs. 2,026-12-0

which is mainly attributable to the large amount remitted in the Panch Mahâls in consequence of the revision of the Survey rates as explained in the following paragraph. The subjoined statement shows the amount remitted in each district as compared with the preceding year:—

Districts.	1884-85.	1883-84.	Increase.	Decrease.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Ahmedabad	1,640 14 0	1,719 12 11	.....	78 14 11
Kaira	1,451 7 6	1,204 11 0	246 12 6	.....
Panch Mahâls	4,067 15 1	872 8 2	3,195 6 11	.....
Broach	7,627 5 9	6,891 10 11	735 10 10	.....
Surat	1,844 1 3	3,898 7 8	.....	2,054 6 5
Thâna	258 7 9	276 4 8	.....	17 12 11
Total ...	16,890 3 4	14,863 7 4	4,177 14 3	2,151 2 3
Net ...	.....	.....	2,026 12 0	.....

16. The largest remissions were granted in the Broach and Panch Mahâls districts. In the former Rs. 7,217 were absolutely necessary, owing principally to the floods in the Narbada river, and in the latter Rs. 2,621 were remitted owing to the introduction of revised survey rates in the Dohad Táluka.

17. From the details given in columns 25 to 33 of Appendix I. it will be seen that almost half the total amount of remissions is attributable to injury from floods, Rs. 2,770 to the introduction of the Survey Settlement, Rs. 626 to poverty, death, and desertion, and Rs. 4,750 to other causes.

Revenue for Collection and Outstanding Balances.

18. The amount for collection during the year under report was Rs. 95,34,377-8-5 against Rs. 94,97,360-1-11 in the previous year, showing a net increase of Rs. 37,017-6-6. Of the first-mentioned sum, Rs. 16,388-14 remained uncollected at the close of the year. The total outstanding balance (inclusive of Rs. 4,319-14-7 on account of former years) amounts to Rs. 20,708-12-7 against Rs. 10,397-10-8 at the close of the preceding year. Of the former however Rs. 3,439-12-1, Rs. 1,802-5-4, and Rs. 2-4-10 were recovered in Broach, Thâna, and Surat respectively after the close of the year.

Appendix No. III.

19. Huzúr Form No. 12C. shows how the outstanding balances are distributed over the several Collectorates of this Division. It will be seen that the largest balances are in Broach, Surat, and Ahmedabad, and that in the remaining districts the amount is very small. The total amount may be classified as under :—

Balances.	On account of current year.	On account of former years.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
Recoverable	8,365 3 5	1,063 9 0	9,428 12 5
Irrecoverable	5,743 9 11	614 12 6	6,358 6 5
Doubtful and disputed	2,280 0 8	2,641 9 1	4,921 9 9

Recoverable balances.

20. Of the recoverable balance, a large sum of Rs. 5,358-0-9 was collected after the close of the year, and of that amount Rs. 33 were on account of former years. Of the remainder, Rs. 4-13-6 appertain to Ahmedabad, Rs. 1,108 to Kaira, Rs. 1,642-8-11 (of which Rs. 971-5-1 are on account of former years) to the Panch Mahâls, Rs. 920-12-2 to Broach, and Rs. 394-9-1 to Thâna.

21. The balance in Kaira is on account of the village of Chandna, Táluka Mátar, and it has been decided to recover the amount from the savings of the

annual revenue of that village which is managed by the Tálukdári Settlement Officer; and that in the Panch Maháls is on account of the settlement on the Watan lands of the Dohad Desáis, who agreed to give up an equivalent of land in exchange, but owing to internal dissensions the recovery has been ordered to be made in cash. Of the balance in Broach a large sum, as already noted above, has been recovered, so also in Thána, and measures are in progress for the recovery of the remaining small balances. In Surat the small amount outstanding has been recovered.

Irrecoverable Balances.

22. Of the irrecoverable balances the largest amounts are in Broach and Surat, and for the reasons given below it is proposed to write off these sums:—

Broach.—Rs. 1,850-15-11 due by land-holders whose lands were submerged by the flooding of the Narbada river and who are reported to be insolvent.

Surat.—Rs. 17-6-8 due by certain Dublás, who are very poor, and the amount is entirely irrecoverable.

Rs. 3,512-4-0 owing to certain lands in the villages of Bet and Bhatta having been washed away by floods.

Rs. 39 owing to the occupant having absconded and no fair bid having been received at the auction sale of his "Kháta" land.

Rs. 18 owing to a minor having given notice of relinquishment, it could not legally be accepted.

Rs. 905-7-0 on account of the settlement of the Peta (sub) Inám lands in the villages of Jamalpur and Virwadi of the Jalálpor Táluka which have been declared to be of the Bándhi (fixed) Jama tenure.

23. The small items—Rs. 1-1-10 in Ahmedabad and Rs. 14-3-0 in the Panch Maháls—will be written off. It may be mentioned that there are no irrecoverable balances in Kaira and Thána as will be seen from the Appendix under notice.

Doubtful and Disputed Balances.

24. In Ahmedabad the collection of the sum of Rs. 4,000 on account of current and former years, being the Jama of the village of Hirapur, has been held in abeyance under Government Resolution No. 5708 dated 14th July 1884; another sum of Rs. 164-6-6 on account of the rent of lands in the limits of the city is pending the result of suits filed against Government, and a further sum of Rs. 639-14-0 is held over pending the final disposal of an appeal regarding the levy of a Bágáyat cess on certain lands in the Daskroi Táluka. The sum of Rs. 112-4-0 in Surat is due by an occupant who having applied for remission consequent on the loss sustained by him from the fire which occurred in his village, the matter is under enquiry. The small item of Rs. 5-1-3 in the Panch Maháls is due from the alienated village of Handi belonging to the Kázi of Dohad, who disputes the claim, and the matter is under enquiry.

There are no balances under this head in Kaira and Thána.

Appendix No. IV.

25. Appendix No. IV. shows the details of the various processes employed during the year for the realization of the Government revenue. As compared with the preceding year, it appears that there was an increase in the number of notices in Ahmedabad, Panch Maháls, Broach, and Thána, and in the amount of notice fees levied in these districts. The number of cases in which the one-fourth penalty was levied has also increased in all districts except Thána, but in respect of the more severe forms of coercion, Ahmedabad, Broach, and Thána show an increase under distraints, and all districts, except Kaira, in sales of immoveable property other than land. Forfeitures of land were necessary in a larger number of instances only in Kaira and Broach, but on the whole the fluctuations are only slight. It will be observed that the number of cases in which the occupancy land was declared forfeited was 149 against 203 in the preceding year, and the occupancy land thus forfeited amounted to 948 acres assessed at Rs. 2,346 against 1,379 acres assessed at Rs. 3,386 in the last year. There is also an appreciable decrease this year in the occupancy land remaining with Government, the latter being 529 acres assessed at Rs. 1,131 against 926 acres assessed at Rs. 2,088 in 1883-84.

26. There was no change in the dates of the levy of revenue instalments in this Division except in Surat where in the Chorási, Bárdoli, Olpád, and Mándvi

Tálukas the collection had to be deferred for about a month owing mainly to the crops being late in these tálukas.

Advances under the Land Improvement Act.

27. From the appendices named in the margin, it will be perceived that an advance of Rs. 500 for the construction of a well for irrigational purposes was made in Surat during the year under report. Of this sum, Rs. 37-8-0 were collected this year and the balance will be recovered in future years. There was no outstanding balance of the previous year.

Appendices Nos. V, VII, and IX.

Ordinary Takávi Advances.

28. Under the old rules, Rs. 175 were advanced in Thána for the purchase of cattle, of which Rs. 73-8-0 were collected this year, a balance of Rs. 101-8-0 being thus left to be recovered in future years, and Rs. 128 advanced in the same Collectorate for the purchase of seed have been repaid to Government. The outstanding balance under this head against Kaira was Rs. 100, of which an instalment of Rs. 25 due in the current year has been recovered leaving a balance of Rs. 75. Thus the total outstanding balance is Rs. 176-8-0.

Appendices Nos. VI, VIII, and X.

Huzúr Form No. 18.

29. In accordance with a suggestion made by Mr. Symonds, who is engaged upon the revision of revenue forms of accounts as directed in Government Resolution No. 5659 of the 14th July 1885, the form of this statement has been modified and it now embodies details concerning the realizations from (1) interest, and (2) miscellaneous items (Financial Head XXIV.) The revenue realized under these heads amounts to Rs. 38,665 against Rs. 35,465 in the preceding year, giving a net increase of Rs. 3,200.

Village and District Hereditary Allowances.

30. Huzúr Form No. 20K. is a comparative statement of the allowances of village and district hereditary officers and of the allowances of a miscellaneous nature. The comparative results exhibit a net increase of Rs. 4,221-11-9 and the various fluctuations may be briefly explained as follows.

Appendix No. XI.

Items appearing in Táluka Form No. 20.

31. The large increase in the allowances of village servants useful to Government has been caused by disbursements in Kaira having been shown for 12 months instead of 11 as in the previous year, and also to an additional village servant having been sanctioned in Government Resolution No. 3322 dated 9th October 1884. The next largest item is one of Rs. 380 against village servants useful to rayats and is due to the transfer to this head of the Kázi's allowances in Thána.

Items appearing in Táluka Form No. 21.

32. The decrease is nominal as it is the result of the transfer above adverted to.

Items appearing in Táluka Form No. 22.

33. The decrease under the heads noted in the margin is due to allowances having lapsed to Government on the death of life-holders.

(1) Girás, (2) Subhasambandhi Dewasthán, (3) Political Pension, and (4) Special rewards.

34. The revenue of the villages from which the hak noted in the margin is paid having decreased the allowance in Ahmedabad has diminished in proportion.

Amals.

35. The increase of Rs. 2,112-11-5 under this head is in consequence of the increased revenues of the Máleki villages in Kaira.

Malek Vaje.

36. *Huzúr Form 21L.* shows the area and assessment of all occupied lands, also of lands thrown out of, and taken up for, cultivation during the years 1884-85 and 1883-84 in each Collectorate, and the supplemental statement exhibits the causes in detail of the fluctuations in the area of lands relinquished and taken up for cultivation. The following is a brief abstract of the former giving the total occupied lands, the lands resigned and taken up, and lands of revenue defaulters bought by Government, as also the increase and decrease under each head :—

Appendices Nos. XIII and XIV.

Year.	Occupied Lands.		Lands taken up.		Lands bought in by Government of Revenue Defaulters.		Lands thrown up.	
	Area.	Assessment.	Area.	Assessment.	Area.	Assessment.	Area	Assessment
	A. g. a.	Rs. a. p.	A. g. a.	Rs. a. p.	A. g. a.	Rs. a. p.	A g. a.	Rs. a. p.
1884-85	4,279,214 21 14½	79,77,907 2 11	165,751 12 7½	73,893 15 9	847 24 4	821 9 0	63,066 32 8½	37,346 12 5
1883-84	4,177,377 26 3¾	79,42,181 8 7	43,502 1 8	60,188 12 11	1,012 19 8	2,265 8 3	40,511 33 4	62,524 3 2
Increase	101,836 35 11	35,725 10 4	122,249 10 15½	13,705 2 10	....	....	22,554 39 4½	....
Decrease	....	....	....	....	164 35 4	1,443 15 3	....	25,177 6 9

37. The net result as exhibited by the above table would appear at first sight to be very satisfactory, as the increase in the area of land taken up amounts to the considerable sum of 122,249 acres, while the area of land thrown up as compared with the preceding year shows an increase of only 22,554 acres. But an area, 96,382 acres, has been added in Ahmedabad on account of certain Mewási and Tálukdári lands not hitherto taken into account and in Panch Maháls an area of 17,778 acres has similarly been added owing to the correct area of certain Tálukdári lands having been communicated by the Survey Department; while on the other hand deductions have been made in Kaira on account of 7,267 acres having been transferred from the head Cultivated to Kharábo, and in the Panch Maháls of 30,489 acres owing to the Survey Department having communicated the correct area of certain Tálukdári lands in that district. The net result being an addition of 76,404 acres the actual increase under occupied lands, as compared with the previous year, amounts to 25,433 acres. The disproportion between area and assessment which is noticeable is thus accounted for, as the former only and not the latter is affected by the above additions and deductions.

38. Omitting then the nominal adjustments above adverted to, the result is an increase of 8,089 acres in lands taken up and a decrease of 15,201 acres in the area resigned, which may be regarded as entirely satisfactory. Taking each district separately the results are equally satisfactory in all districts though the area taken up as compared with the previous year has somewhat decreased in the Panch Maháls, Broach, and Thána, but there is considerable decrease in the area of land thrown up in all districts.

39. The area and assessment of lands assigned for special and public purposes are set forth in detail in the Huzúr Form No. 25P. and its abstract is appended thereto. The aggregate quantity of land thus set apart amounts to 77,436 acres of assessed and 1,120,658 acres of unassessed area, making a total of 1,198,094 acres. The largest portion of this was taken up for forest.

Appendix No. XV.

Huzúr Form No. 26.

40. The number and extent of occupancies in each district are shown in this form, which has been modified under Government Resolution No. 9706 dated 9th December 1884.

Appendix No. XVI.

41. The first of the two statements into which the form has been divided furnishes particulars of surveyed Government and alienated villages in which the rayatwári tenure exists, and the second statement furnishes particulars as regards lands held on other tenures. This arrangement renders comparison with the previous year's record impossible.

Form A.

Form B.

42. These statements exhibit interesting facts, and comparing one district with another there are some striking differences in the average size of occupancies and in the revenue demand per holding, which require explanation.

43. There is little difference between the average area of holdings in Government and alienated villages in the Division, but the demand per holding shows a very striking difference, the average area being 10 acres 24 gunthás and 9 acres and the average demand Rs. 26-11-0 and Rs. 10-0-6 respectively; but this is owing to the quit-rent only of the alienated lands having been shown.

44. Taking each district separately, it will be seen that the average size of holdings in Inám compared with Khálsa villages is slightly larger in Ahmedabad, Kaira, and the Panch Maháls, and nearly three times as large in Thána, while in Broach and Surat it is only about half the size of that in Government villages. These fluctuations are due to the proportionately smaller area of Inám lands in Surat and Broach, while the number of holdings is proportionately the same as in other districts. In Thána however both the area and number of holdings is disproportionately smaller. The average size of holdings has somewhat decreased in Gujárat during the last few years and has increased in Thána.

45. The average area of holdings and the demand per acre of Government lands in the several districts also exhibit striking differences; but it is only necessary to notice the large average demand per holding in Surat and Broach as compared with other districts, and it may be mentioned that in the former district the high Bágáyet rates and in the latter the high rates of assessment on the rich black soils and the large revenue from the alluvial Bhátha lands explain the large average demand per holding in these districts.

46. With regard to Form B. relating to other tenures, it may be observed that of the 6 kinds of tenures other than Rayatwári shown therein the 4 principal are Tálukdári, Udhad Jamábandi, Mehwási, and Inámi.

47. Of the first, there are 526 estates with an area of 1,396,159 acres in Ahmedabad, Kaira, and the Panch Maháls, the average size of each estate being 2,654 acres and paying Rs. 755 or Re. 0-4-7 per acre.

48. The Udhad Jamábandi tenure exists only in Kaira and Broach; in the former there are 35 estates and in the latter one. The area under this tenure is 56,848 acres paying Rs. 1,240-15-10 per estate or on an average Re. 0-12-7 per acre.

49. Of Mehwási estates there are 41 in Ahmedábad and none in the remaining districts of this Division. The area of these estates is 79,334 acres and each pays on an average Rs. 274-6-3 or Re. 0-2-3 per acre.

50. The Inámi tenure is found in all districts, the total number of estates being 318 with an area of 403,475 acres, yielding on an average Rs. 243-7-4 per estate or Rs. 0-3-1 per acre.

51. Form No. 9 shows the incidence of the Government demand per acre of total area and per acre of cultivated area only, as also per head of population. The following abstract gives the required information on this head :— Appendix No. XVII.

Collectorate.	For total Area.	For cultivated area only.	Per head of Population.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
Ahmedabad	1 0 3	1 6 3	2 9 5
Kaira	2 0 11	2 10 0	2 9 0
Panch Maháls	0 5 6	0 14 10	1 4 0
Broach	2 7 0	3 8 0	7 3 4
Surat	2 3 11	3 3 4	4 7 11
Thána	0 8 1	1 3 6	1 11 5

52. It will be observed that the incidence of the Government demand under all the heads is highest in Broach and lowest in the Panch Maháls.

I have the honour to be,
Sir,
Your most obedient Servant,
G. F. SHEPPARD,
Commissioner, Northern Division.

B 1245—5

G. F. SHEPPARD,
Commissioner, N. D.

JAMÁBANDI REPORT

FOR THE

SOUTHERN DIVISION,

1884-85.

[Price—Six Annas.]

No. $\frac{S.R.}{221}$ OF 1886.

FROM

ARTHUR CRAWFORD, ESQUIRE,
Commissioner, S. D.;

To

JOHN NUGENT, ESQUIRE,
Secretary to Government,
Revenue Department.

Camp Ratnágiri, 7th February 1886.

SIR,

I have the honour to submit the annual report on the revenue settlement of the districts comprised in the Southern Division for the year 1884-85, together with the appendices as per index appended.

2. The statistics of cultivation (Huzúr Forms Nos. 16 G. and 17 H.) and of agricultural stock, which hitherto were incorporated in this report, have this year been excluded therefrom, their preparation and submission having been undertaken by the Director of Agriculture, in accordance with the suggestions approved by Government in Resolution No. 9706 of 9th December 1884. Huzúr Forms Nos. 9 and 26Q., relating respectively to the average incidence of land revenue per acre and per head of population and to the number and extent of holdings in surveyed Government rayatwari villages, are submitted in the new forms adopted by the same Committee.

3. As desired in the concluding paragraph of Government Resolution No. 8092 dated 5th October last, with a view to secure uniformity in the manner of preparing the various statements accompanying the Jamábandi Report, Appendices Nos. 9* and 10* and 11† have been added this year, and a slight alteration has been made in Huzúr Form No. 21 L., to show the area available for cultivation.

* Outstanding Balances of Takávi Advances.
† Realizations from Interest and Miscellaneous Items under Financial Head XXIV.

4. With the exceptions noted above, no important additions to, or alterations in, the existing forms have been made.

SEASON.

Nature of the season.

5. The character of the season in each district of the Division was as follows:—

Belgaum.

The rainfall was insufficient at the outset of the season in many parts—especially the eastern—of the district bordering on what we now know as the "arid zone." Sowing operations were there seriously retarded, but happily a late fall of rain occurred. The average outturn of kharif and rabi crops was estimated from 4 to 12 and 1 to 12 annas respectively.

Cholera was prevalent at the beginning of the season in a few villages of the Chikodi and Parasgad tálukás; but it gradually spread over the whole district, and disappeared only in November from the Belgaum, Chikodi and Athni tálukás.

Dhárwár.

The rainfall in each táluka was notably less than in the previous year, especially in the eastern or arid-zone tálukás. Throughout the district it was not sufficient and seasonable for the early sowings. The rain, which fell in October, was, however, most beneficial to the crops. The average estimated yield of the rice crop was 6 annas, and of jowári and lesser millets 7 annas. The rabi crops, both wheat and jowári, are estimated at 6, and cotton at 7 annas.

The public health was not good throughout the year, cholera and small-pox being generally prevalent.

On the whole, the season was decidedly a bad one, most especially along the arid zone, in the Indi, Bijápur and western portions of the Sindgi tálukás, where a *fodder famine* seemed at one time inevitable. The rainfall was insufficient and scanty for kharif sowings, except in the Bádámi, Hungund and part of Sindgi tálukás, where, however, the crops subsequently withered from want of later rain. The heavy downpour, which, however, fell in the latter week of October and in December, saved all the harvest from entire failure.

Bijápur.

The kharif crops in the tálukás south of the Krishna and in western portions of the Sindgi Táluka, as well as in a few villages in the Muddebihál and Bágevádi tálukás, was a four-anna one. In other places much kharif land remained unsown.

The rabi crops were fair only near the banks of the rivers and in places where the fields were near nálás or other favoured tracts.

With the exception of an outbreak of cholera, the public health was good.

The rainfall was much below the average, though continuous for the first two months. The fall in the latter part of August and in September greatly improved the prospects of cultivation. The general outturn of the rice crop was estimated at 14 annas. The garden crops also thrived well, and were abundant.

Kánara.

Fever and small-pox were prevalent to a more or less extent throughout the district, but the general public health was better than usual.

The rain was above the average in all tálukás, and was seasonable. The crops were in good condition, and yielded an abundant harvest.

Kolába.

Cholera and small-pox were prevalent to some extent in all the tálukás except Mahád.

Ratnágiri.

The rainfall was generally plentiful and fairly well distributed. The outturn of the harvest was estimated at—

	Early.	Late.
Rice ...	11 annas.	12 annas.
Warkas ...	10 „	11 „

Fever of a mild type prevailed, more or less, in Málvan and Rájápur tálukás, but the mortality was not considerable. Small-pox existed almost in every táluka, but measures were promptly taken to arrest its progress.

Locusts appeared in June in a few villages of the Khed, Chiplún and Sangameshvar tálukás. Steps were immediately taken for their destruction. They finally disappeared in September without causing any appreciable damage to the crops.

Villages.

Territorial changes. Appendix No. I.

6. The number of Government and alienated villages is entered in columns 3 and 4 of Huzúr Form No. 10 A. The changes effected during the year under report are shown in the following contrasted table:—

Districts.	Villages.						1884-85.					
	1884-85.			1883-84.			Increase.			Decrease.		
	Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.
Belgaum	894	239	1,133	894	239	1,133	...	...	...	...	...	...
Bijápur	1,010	193	1,203	1,010	193	1,203	...	...	...	...	...	...
Dhárwár	1,280	157	1,437	1,280	157	1,437	...	...	...	...	...	...
Kánara	1,287	...	1,287	1,274	...	1,274	13	...	...	...	...	...
Kolába	1,223	119	1,342	1,223	119	1,342	...	...	...	...	...	...
Ratnágiri	1,271½	64	1,335½	1,273½	64	1,337½	...	...	...	2	...	...
Total ...	6,965½	772	7,737½	6,954½	772	7,726½	13	...	...	2	...	...

The increase of 13 in the number of Government villages in Kánara is due to the introduction of the settlement in the Honávar Táluka, at which 13 hamlets, which were before included in larger villages, have been classed as separate villages. The inclusion of the lands belonging to two deserted villages, hitherto shown separately in the accounts, into those of the adjacent inhabited villages at the settlement of the Sangameshvar Táluka accounts for the decrease in Ratnágiri.

Hamlets.

7. There has been no variation in the number of Government and alienated hamlets except in Kánara, where the decrease is due to the reason given in the preceding paragraph, as will be observed from the subjoined statement:—

Districts.	Hamlets.						In 1884-85.					
	1884-85.			1883-84.			Increase.			Decrease.		
	Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.
Belgaum	369	128	497	369	128	497	...	...	...	...	...	...
Bijápur	113	17	130	113	17	130	...	...	...	...	...	...

The revenue for the Division under every head exhibits an increase, except the Public Works Revenue from Irrigation, which has slightly fallen off, as will be seen at a glance from the following totals under the principal heads. The causes of the fluctuations have been explained further on:—

Heads.	1884-85.			1883-84.			Increase.			Decrease.		
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.
Gross Land Revenue	95,51,119	6	4	94,11,051	4	2	1,40,068	2	2	.....		
Alienations	16,35,635	10	2	16,19,970	1	9	15,665	8	5	.....

Collections	76,54,529	8	9	76,10,581	12	9	43,947	12	0	.....		
Balances on account of current year ...	1,20,152	10	10	51,109	13	11	69,042	12	11	.....		
Balances on account of former years ...	26,803	15	7	20,099	0	8	6,704	14	11	.....		

Gross Land Revenue.

9. This amounted to Rs. 95,51,119-6-4 against Rs. 94,11,051-4-2, thus showing an increase of Rs. 1,40,068-2-2. This increase occurs in all the districts, as shown below:—

	Rs.	a.	p.
Belgaum	34,877	8	3
Bijápur...	65,648	3	10
Dhárwár	10,963	3	3
Kánara...	9,254	2	1
Kolába...	4,581	14	4
Ratnágiri	14,743	2	5
Total ...	1,40,068	2	2

The causes which have led to the increase will be noticed under the head Government Revenue.

Alienations.

10. The fluctuations under this head are as under:—

Districts.	Increase.			Decrease.		
	Rs.	a.	p.	Rs.	a.	p.
Belgaum	9,781	13	10	.....		
Bijápur	23,402	1	2	.....		
Dhárwár	.....			17,294	7	7
Kánara	.....			.....		
Kolába...	136	15	5	.....		
Ratnágiri	.....			360	14	5
Total ...	33,320	14	5	17,655	8	5
Deduct Decrease ...	17,655	8	5	.....		
Net Increase ...	15,665	6	0	.....		

The increase is mainly due to the introduction of survey rates into inám villages. The decrease in Dhárwár is owing to increase in the scale judi leviable from Pátels and Kulkarnis, to lapse of an inám land held on a life tenure on the death of the holder, and to the resignation of land by a shetsandi; and that in Ratnágiri, to the application of survey rates to an inám village in the Vengúrla Táluka, and to the assignment of a cash allowance to an inámdár in lieu of land.

Government Revenue.

11. The Government realizable revenue, after deducting alienations and the Public Works Revenue from Irrigation, amounted to Rs. 79,11,192-5-10, which com-

pared with the demand for the previous year, shows an increase of Rs. 1,24,418-5-5 This increase is contributed in various proportions by all the several districts, a under :—

	Rs.	a.	p.
Belgaum	25,175	8	5
Bijápur	42,246	2	8
Dhárwár	28,193	8	6
Kánara	9,254	2	1
Kolába	4,444	14	11
Ratnágiri	15,104	0	10
Total ...	1,24,418	5	5

The causes of the increase have been reported by the Collectors to be as follows :—

„ decrease in miscellaneous items of revenue	143 2 6	
		12,517 10 11
	Net Increase ...	15,104 0 10

From the foregoing explanations it will be seen that the increases in all the districts are mainly due to the operations of the survey; to the extension of cultivation, and to higher receipts from the sale of occupancy rights, and from miscellaneous items of revenue.

Public Works Revenue from Irrigation.

12. The revenue under this head amounted to Rs. 4,291-6-4 against Rs. 4,307-2-0 in the preceding year, showing a slight decrease of Rs. 15-11-8, which needs no explanation.

Remissions.

13. The remissions in the year under report aggregated Rs. 1,36,510-2-3, and exceeded those in the preceding year by Rs. 11,427-12-6. The purposes for which they were given are specified in columns 25 to 33 of Huzúr Form No. 10 A., and are transcribed here to show readily at a glance the sums remitted in each district under each head:—

Appendix No. I.

Items.	Belgaum.	Bijápur.	Dhárwár.	Kánara.	Kolába.	Ratnágiri.	Total Remissions.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

8. Other causes	410 6 5	23,248 8 8	72 4 0	66,200 11 9	....	124 9 8	90,056 8 6
Total ..	13,369 5 5	23,477 6 8	1,306 15 6	92,124 0 4	522 3 6	5,709 2 10	1,36,510 2 3

14. The sums shown against Belgaum and Dhárwár under item No. 1 represent the reductions in the revised rates of assessment in the Parasgad Táluka and in the village of Háro Belwádi, in the Dhárwár Táluka, effected in accordance with Government Resolution No. 10237 dated 30th December 1884. Except Rs. 5,243-5-9, which were remitted in Kánara under the orders contained in Government Resolution No. 5573 dated 21st October 1874, regarding the gradual assessment of the demand in certain cases, the balance in that district and the whole amount under this head in Ratnágiri were on account of the difference between the old and new assessment which is foregone under the Land Revenue Code during the currency of the first year of introduction of survey rates.

Items 2 to 7 call for no special observations.

Rs. 23,106-5-0 out of Rs. 23,248-8-8 appearing against Bijápur under "Other causes" represent the temporary reduction of $1\frac{3}{4}$ annas in the rupee of the revised assessment in the Bágalkot and Hungund tálukás sanctioned by Government in paragraph 11 of their Resolution No. 290 dated 11th January 1884, and Rs. 142-3-8 represent the remission on account of the transfer of certain land to the Irrigation Department for the Muchkandi Tank in the Bágalkot Táluka, the abatement of assessment on which not having yet been entered in Government records.

The large sum of Rs. 66,200-11-9, shown against Kánara, represents the residue of the old nominal remissions retained in the accounts pending the completion of the survey settlement in the district.

Collections and Current Year's Balances.

15. The net demand for collection less the Public Works Revenue from Irrigation and Remissions, amounted to Rs. 77,74,682-3-7, which is in excess of that of the preceding year by Rs. 1,12,990-8-11. Of this the amount collected before the close of the year was Rs. 76,54,529-8-9, or 98·4 per cent.—a result which is very satisfactory, considering that in the early part of the season serious apprehensions were entertained of an extensive failure of crops in the above-ghát districts and consequent diminution in the realization of the revenue. The sum that remained uncollected on 1st August was Rs. 1,20,152-10-10, being Rs. 69,042-12-11 more than the outstandings on the corresponding date of the year preceding. In Kánara and Kolába districts the balances compare favourably with the previous year's figures, but in the other districts they show an excess.

Former Years' Collections and Balances.

16. The following table exhibits the state of the outstandings from former years, the collections made and the amounts written off during the year, and the balances on 1st August 1885 :—

Districts.	Balance on 1st August 1884.	Amount collected.	Amount written off.	Balance on 1st August 1885.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Belgaum	2,791 6 4	4 11 3	33 6 9	2,753 4 4

Dhárwár	2,524 4 5	161 12 0	43 0 0	2,319 8 5
Kánara	857 13 11	618 7 1	233 5 6	6 1 4
Kolába	1,135 15 9	955 10 3	180 5 6	.....
Ratnágiri	58,912 1 3	16,736 2 10	22,444 5 6	19,731 8 11
Total ...	71,206 11 7	21,382 2 3	23,020 9 9	26,803 15 7

17. Huzúr Form No. 12 (*c*) shows how the entire balances, both for the current and former years, stood on 1st August 1885. The amount in each district was :—

Appendix No. III.

Districts.	Current year.	Former years.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
Belgaum	1,783 2 4	2,753 4 4	4,536 6 8
Bijápur	66,508 6 1	1,993 8 7	68,501 14 8
Dhárwár	3,056 3 10	2,319 8 5	5,375 12 3
Kánara	141 14 5	6 1 4	147 15 9
Kolába	49 8 1	.....	49 8 1
Ratnágiri	48,613 8 1	19,731 8 11	68,345 1 0
Total ...	1,20,152 10 10	26,803 15 7	1,46,956 10 5

Classification of the balances—

	Current year.	Former years.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
Recoverable	84,793 6 7	10,812 11 10	95,606 2 5
Irrecoverable	33,545 7 1	5,793 5 3	39,338 12 4
Doubtful or disputed	1,813 13 2	10,197 14 6	12,011 11 8

The largest balance stands against Bijápur, which is attributed chiefly to the suspension of the collection of revenue in the tálukás most affected by the draught of last season, *viz.*, Bijápur, Indi and Sindgi, most of which is reported to be recoverable. I have requested the Collector to submit his final proposals for postponements and remissions after personal inquiry into the matter, and shall report the result to Government in due course. To aid him, I have posted a specially elected officer as Mámledár to the Indi Táluka, where the largest outstandings existed,—the former officer appearing to me to have proposed both remissions and postponements in very haphazard fashion. My latest demi-official information from the Collector as to both the Indi and Sindgi tálukás, (which I am about to visit), is highly encouraging, and long before this report is considered by Government I hope to report that the bulk of the outstandings has been realized.

The next large sum appears against Ratnágiri, due to the following causes:—

	Rs.	a.	p.
Pending the settlement of kauli lands	5,913	1	7
Recovery of excess of mamul over the survey rates introduced into certain villages of the Sangameshvar and Ratnágiri tálukás in 1884-85	25,620	13	7
Loss on direct management of attached khoti villages to be recovered from the khots on their taking up the villages	8,375	2	9
Expenses of management of attached dhara villages ...	14,522	13	6

Items Nos. 1, 2 and 3 explain themselves.

The adjustment of the last item will shortly be effected. The other balances, amounting to Rs. 13,913-1-7, are due to minor causes, and will soon be settled.

Of the sum of Rs. 2,753-4-4 outstanding in Belgaum from former years, Rs. 1,361-12-0 are on account of judi payable by the inámdárs of Bedkihal, the collection of which is held in abeyance pending the final settlement of their accounts (*vide* Government Resolution No. 2076 of 11th March 1885, Revenue Department).

The balances in other districts are comparatively small, and call for no special remarks. The sums entered as irrecoverable in the table below will not be written off without thorough inquiry into each case.

Since the close of the year, collections and adjustments made up to the 1st December last were as follows:—

		Arrears at the end of July 1885.	Since collected up to 30th November 1885.	Since remitted or written off up to 30th November 1885.	Balance on 1st December 1885.

No change was made in any district of the Division in the dates of payment of the revenue instalments during the year under report. It was not found necessary to take any action under Rule 85 of the Rules under the Land Revenue Code.

Compulsory Processes.

18. This appendix shows the various processes employed in the realization of the revenue during the year under report. The particulars are contrasted with those of the previous year in the subjoined statement:—

Decrease ..		4,394	....	....	270	35 7 5	328	17,871 11 9	....	....	1	1,906 15 3	595 22 0	609 11 2	205 36 0	1,510 0 4	54 31 0	334 35 0

The foregoing statement exhibits a decrease as compared with the preceding year in the aggregate number of notices issued and in the amount of penalties levied under Section 148 of the Land Revenue Code, but a rise of Rs. 1,304-14-6 in the amount of notice fees recovered.

The pressure exercised in the collection of revenue in Belgaum and Kánara was moderate. In Bijápur and Dhárwár it was greater, owing to the obstinacy of some of the occupants in easy circumstances—rich merchants and the like—in withholding payment of the instalments on the prescribed dates, in hopes of my consenting to a general remission or postponement of revenue in consequence of the bad season. It was my duty to pass much of my time in the district, and I daily became more and more confident of the ability of most of the defaulters to pay the Government dues, always provided that a fair harvest followed. Suspension and not remission was, of course, the right policy to pursue; and the result was that, although notices were issued for upwards of $1\frac{1}{2}$ lákhs of outstandings, it was ultimately found necessary to distrain moveable property in only 43 cases to recover Rs. 2,330-6-6.

Vide my telegram dated 2nd February 1885 on Government Resolution No. 638 of 22nd January 1885.

In Kolába and Ratnágiri the number of notices issued, though less than in the previous year, was large, but this is consequent on the peculiar tenures of those districts, their superabundant population, and the preponderance of small holdings.

In no district was immoveable property other than land sold. No occupancies were forfeited and sold in the Ratnágiri District, as Section 153 of the Land Revenue Code is not applicable to the greater portion of it. In Bijápur, owing to the badness of the season, no action was permitted under this section,—ample time, as explained above, being given to defaulters. In the whole Division the occupancy right of land bearing an assessment of only Rs. 183-12-4 was sold to the public for Rs. 497-13-1. In Kánara a portion of the forfeited land was subsequently restored to the defaulter. The area that finally remained with Government was acres 245-22 assessed at Rs. 297-8-7.

Government will, I trust, concur with me in thinking that the district officers generally have shown commendable discretion, and I would particularly specify Mr. Middleton and the district officers of the Dhárwár District.

Takávi Advances.

19. Appendices Nos. V. and VI. show the advances under the Land Improvement Act and the rules prescribed under Section IV. of Act XV. of 1880 for ordinary agricultural purposes made during the year of report, and the balances outstanding from previous years. Appendices Nos. VII. and VIII. give information as to the objects for which the advances were granted, the instalments by which they were repayable, and how far they were realized or adjusted within the prescribed period. Nos. IX. and X. show to what extent the balances at the end of the year were recoverable.

Appendices Nos. V. to X.

It will be observed that fresh advances amounting to Rs. 17,365 were made in 23 villages of the Belgaum District for the purpose of sinking wells. Out of this amount Rs. 337-8-0 were due during the year, but Rs. 137-8-0 only were collected. I have called the Collector's attention to the fact that the greater portion of the amount due remains uncollected. Rs. 300 in Dhárwár and Rs. 80-2-0 in Ratnágiri on account of former years' advances were collected during the year; thus leaving Rs. 17,392-14-0 uncollected on the 1st August last, of which Rs. 17,192-14-0 will become due in future years. The whole of this amount is reported to be recoverable.

Under the Act.

In 8 villages of the Belgaum and 4 of the Dhárwár District Rs. 1,270 and 1,113 were respectively advanced for the purchase of cattle and seed, and in Bijápur Rs. 3,837 were given for the purchase of fodder for cattle under the authority

Ordinary agricultural purposes.

of paragraph 11 of Government Resolution No. 1491 dated 19th February 1885. Rs. 25 in Belgaum and Rs. 39-4-0 in Ratnágiri were recovered, and Rs. 25 written off in Bijápur on account of former years' advances, leaving outstanding on 1st August 1885—

On account of current year's advances	Rs.	6,220	0 0
On account of former years' advances	„	142	12 0
Total ...	Rs.	6,362	12 0

of which there

Fall due in future years	Rs.	6,337	12 0
Do. in the current year	„	25	0 0

This sum is also reported to be recoverable.

Sayar Revenue.

20. The form recommended by Mr. Symonds in consultation with the Committee appointed by Government Resolution No. 5659, dated 14th July 1885, for the revision of Hope's Manual of Revenue Accounts has been adopted in the preparation of this appendix. It shows the revenue derived from interest and from miscellaneous items coming under the financial head XXIV, which amounted during the year to Rs. 10,732-9-3. This, added to the land revenue, makes up the entire revenues of the Division for 1884-85 to Rs. 7,785,414-12-10.

Appendix No. XI.

Village and District Hereditary Allowances.

21. Huzúr Form No. 20 K. is a contrasted statement of allowances to the Village and District Hereditary Officers and of allowances of a miscellaneous nature. Compared with the preceding year there is a net decrease, amounting to Rs. 8,322-12-0, in items appearing in the Táluka Forms 20, 21 and 22. The fluctuations are thus explained:—

Appendix No. XII.

The decrease as well as the increase in the items pertaining to Táluka Form No. 20 has resulted chiefly from the settlement of the remuneration of the village officers (superior and inferior) in consequence of the introduction of the revised survey rates in Belgaum, Bijápur and Dhárwár.

Form No. 20.

Correction of errors in Kolába chiefly accounts for the decrease in the amount due to the District Hereditary Officers who have accepted the watan settlement, while the increase in the allowances payable to the officers who have not accepted the settlement is attributable to higher commutation rates and to increased collections in the Ratnágiri District due to a smaller number of villages being under attachment.

Form No. 21.

The falling off in dharmádaya and in political pensions is ascribed to lapses owing to death of recipients.

Form No. 22.

22. This statement shows the total area available for cultivation, the total of occupied land, of lands relinquished and taken up, and of lands of revenue-defaulters resumed by Government in consequence of default. The increases and decreases under each head are explained in the supplement to this.*

Appendix No. XIII.

*Appendix No. XIV.

23. The subjoined abstract exhibits the principal items in comparison with those for the last year. The figures relating to the unsurveyed portions of the Kánara and Ratnágiri districts for 1883-84 not being available, particulars regarding those districts have been altogether omitted from the table for both the years:—

Years.	Total Area of Land available for Cultivation.	Total Occupied Land.		Land thrown up.		Land forfeited to Government.		Fresh Land taken up.	
		Area.	Assessment.	Area.	Assessment.	Area.	Assessment.	Area.	Assessment.
	A. g. a.	A. g. a.	Rs. a. p.	A. g. a.	Rs. a. p.	A. g. a.	Rs. a. p.	A. g. a.	Rs. a. p.
1884-85	5,551,175 8 ¼	4,999,795 38 3¼	46,01,439 9 6	9,850 14 5	6,865 0 9	178 6 8	70 5 6	55,064 31 12	82,854. 3 0
1883-84	5,540,098 35 6	4,958,297 17 8¼	45,73,781 12 10	7,049 18 1	3,675 9 0	1,227 1 4	673 7 6	49,775 0 0	32,006 13 2
1884-85.. Increase	11,076 12 10¼	41,498 20 11	27,657 12 8	2,800 36 4	3,189 7 9	....	..	5,289 31 12	50,847 5 10
1884-85.. Decrease ..	....	..	..	....	....	1,048 34 12	603 2 0	....	....

There is thus an increase, both in the area of culturable and occupied land, of acres 11,076-12-10¼ and 41,498-20-11 respectively. It occurs in all the four districts treated of in this table. There is also an increase of acres 2,800-36-4 in the area of land relinquished bearing an assessment of Rs. 3,189-7-9, but this is more than counterbalanced by the bringing under cultivation of 45,472 acres of more valuable land. It is a very remarkable fact that more than half of this large area taken up is in the Bijápur District, and during one of the most critical seasons (short of the famine years) it has ever experienced.

Nothing could prove more conclusively (*a*) that the land-revenue assessment of that district, (which is sparsely, not densely, populated), must be moderate; and (*b*) that the cultivators, who suffered probably more than those of any other district in the famine of 1876-77, have rallied from the effects of it.

24. The subjoined abstract of this appendix, which treats of lands set apart for special and public purposes, will serve to show the differences between the areas so set apart in 1883-84 and 1884-85 :—

Appendix No. XV.

	1884-85... ...	358	18	4	3	15	6	33,056	12	0
Total ...	1883-84... ...	144,509	26	1	61,728	8	0	1,504,919	6	6¼
	1884-85... ..	152,111	35	4	65,450	0	3	2,168,989	28	4¼
Increase ..		7,602	9	3	3,721	8	3	664,070	21	14
Decrease ...		.....			.....			.....		

The increase, which is common to all the districts except Kolába, is due chiefly to more land having been appropriated for forest reserves, to cattle pastures, cattle-standing places, and burying and burning grounds. The decrease in Kolába under "assessed land" is due to the absence, from this year's statement, of the entry "rent-paying land in Hog Island." No reason has been assigned for the omission, but I have not thought it necessary to delay this report by a reference to the Collector. His explanation has, however, been called for, and will in due course be submitted for the information of Government.

25. Huzúr Form No. 26 is now rendered in two parts: one (A.) dealing with the number and extent of holdings in surveyed Government rayatwari villages, and the other (B.) with the area held on tenures other than rayatwari. The following table shows in a concise form the particulars embodied in Form A. :—

Appendix No. XVI.

District.	Total Number of Holdings.		Total Area.		Total Land Revenue.		Average Area of Holding.		Average Revenue Demand per Holding.	
	Khálsa.	Inám.	Khálsa.	Inám.	Khálsa.	Inám.	Khálsa.	Inám.	Khálsa.	Inám.

Total ..	339,751	51,432	6,224,727 18 9½	1,843,445 3 9	5,915,225 7 4	971,433 8 1	18 12 13	35 33 11	17 6 7	18 14 2

Compared with the preceding year, the total number of holdings and the total area under occupation show a falling off of 42,616 and 138,550-16-3 respectively. This result would, at first sight, appear to be unsatisfactory; but the contrary is the case. The explanation of the difference is to be found in the fact that the holdings and area of the unsurveyed portions of the Ratnágiri and Kánara Districts, which were included in the last year's statement, have been excluded from the present amended statement, which treats of surveyed tracts only. Bearing this fact in mind, and taking the figures for each district separately, an increase rather than a decrease appears in almost all the districts, especially in Bijápur, the causes of which have already been explained in paragraph 23 *supra*.

Turning to the above table, I notice that the average area of a holding, both in Government and alienated villages, is the largest in Bijápur and smallest in Kolába, which is accounted for by the difference in tenure, soil, climate, and the nature of the crops grown.

From Form No. XXVI. B. it will be seen that, speaking broadly, and ináms excluded, the rayatwari is the prevailing tenure in the above-ghát districts, and khoti or dhárekari in the below-ghát or Konkan districts. In the Konkan the number of estates held under the khoti and isaphat and the number of holders or share-holders therein are respectively 1,107 and 38,751. The gross area amounts to acres 1,193,202-8-12 paying Government Rs. 6,37,267-11-4, the average payment on each estate being Rs. 575-10-9. The incidence of the Government demand per acre is 8 annas and 6 pies.

26. The average incidence of land revenue per acre and per head of population in surveyed Government rayatwari villages, as shown in this appendix, is respectively Re. 0-8-11 and Rs. 1-15-8 for the Division; the incidence on the cultivated area only being Re. 0-13-9. The assessment per acre of cultivated area is the highest in Kánara and Kolába, owing to the large area therein of rich rice and garden lands. The incidence is lowest in Bijápur, because the soil is generally inferior and the rainfall precarious.

Appendix No. XVII.

I have the honour to be,
Sir,
Your most obedient Servant,
ARTHUR CRAWFORD,
Commissioner, S. D.

INDEX OF APPENDICES TO THE JAMA'BANDI REPORT OF THE SOUTHERN DIVISION FOR 1884-85.

Appendix No. I.—Huzúr Form No. 10 (A.)—Contrasted Statement of the Gross and Net Land Revenue.

Appendix No. II.—Supplement to Huzúr Form No. 10 (A.)—Statement showing the Minor Items of Revenue entered in Column 22 of the above-named form.

Appendix No. III.—Huzúr Form No. 12 (C.)—Statement of Outstanding Balances of Land Revenue.

Appendix No. IV.—Statement showing the Processes adopted for the Realization of Land Revenue, and the result thereof, during the year.

Appendix No. V.—Huzúr Form No. 13 (D.)—Contrasted Statement of Advances made under the Land Improvement Act.

Appendix No. VI.—Huzúr Form No. 13 (D.) I—Contrasted Statement of Takávi Advances made under the Rules prescribed under Section 4 of Act XV. of 1880.

Appendix No. VII.—Huzúr Form No. 14 (E.)—Statement showing the Objects for which Advances under the Land Improvement Act were given.

Appendix No. VIII.—Huzúr Form No. 14 (E.) I—Statement showing the Objects for which Takávi Advances under the Rules prescribed in Section 4 of Act XV. of 1880 were given.

Appendix No. IX.—Huzúr Form No. 15 (F.)—Statement of Outstanding Balances of Advances under the Land Improvement Act.

Appendix No. X.—Huzúr Form No. 15 (F.) I—Statement of Outstanding Balances of ordinary Takávi Advances.

Appendix No. XI.—Huzúr Form No. 18 (I)—Statement showing Realizations from Interest and Miscellaneous Items under Financial Head XXIV.

Appendix No. XII.—Huzúr Form No. 20 (K.)—Contrasted Statement of Allowances of Village and District Hereditary Officers.

Appendix No. XIII.—Huzúr Form No. 21 (L.)—Contrasted Statement of Occupied Land thrown up and Waste Land taken up.

Appendix No. XIV.—Supplement to Huzúr Form No. 21 (L.)—Explanatory of the reasons of Increase and Decrease in the Area of Land thrown up and Waste Land taken up for Cultivation.

Appendix No. XV.—Huzúr Form No. 25 (P.)—Statement showing Details of Land set apart for special and public purposes.

Appendix No. XVI.—Huzúr Form No. 26 (A.)—Statement A. showing the Number and Extent of Holdings in Surveyed Government Rayatwari Villages; and (B.) showing the other Varieties of Tenure than Rayatwari, with the Number of Estates under each variety of Tenure and the Area and Revenue paid to Government under each such variety.

Appendix No. XVII.—Huzúr Form No. 9—Statement showing the Average Incidence of Land Revenue for each Táluka of the District per Acre and per Head of Population in Surveyed Khálsa Rayatwari Villages.

ARTHUR CRAWFORD,
Commissioner, S. D.

ARTHUR CRAWFORD,
Commissioner, S.D.

BOMBAY: PRINTED AT THE GOVERNMENT CENTRAL PRESS.

JAMÁBANDI REPORT

FOR THE

CENTRAL DIVISION,

1884-85.

[*Price*—3½ *Annas.*]

No. $\frac{R}{1487}$ OF 1886.

FROM

ARTHUR CRAWFORD, ESQUIRE,

Commissioner, C. D.;

TO

THE SECRETARY TO GOVERNMENT,

Revenue Department.

Poona, 1st April 1886.

SIR,

I have the honour to submit the Annual Report on the Revenue Settlement of the Collectorates of the Central Division, as per margin, for the year 1884-85, together with the appendices specified below :—

Poona. | Sholápur. | Ahmednagar. | Khándesh. | Sátára. | Násik.

Huzúr Form No. 10 A. — Appendix No. I.—Contrasted statement showing the gross and net land revenue, together with remissions and the balances outstanding.

Supplement to Huzúr Form No. 10 A. — Appendix No. II.—Statement showing the minor items of revenue entered in column 22 of the abovenamed statement.

Huzúr Form No. 12 C. — Appendix No. III.—Analytical statement of outstanding balances of land revenue.

Process Statement. — Appendix No. IV.—Statement showing the processes employed in realization of Government dues.

Huzúr Form No. 13 D. — Appendix No. V.—Contrasted statement of advances made under the Land Improvement Act.

Huzúr Form No. 13 D (1). — Appendix No. VI.—Contrasted statement of Takávi advances made under the rules prescribed under Section 4 of Act XV. of 1880.

Huzúr Form No. 14 E. — Appendix No. VII.—Statement showing the objects for which advances under the Land Improvement Act were given.

Huzúr Form No. 14 E (1). — Appendix No. VIII.—Statement showing the objects for which advances under the rules prescribed under Section 4 of Act XV. of 1880 were given.

Huzúr Form No. 15 F. — Appendix No. IX.—Analytical statement of balances outstanding on account of advances made under the Land Improvement Act.

Huzúr Form No. 15 F (1). — Appendix No. X.—Analytical statement of balances outstanding on account of advances made under the rules prescribed under Section 4 of Act XV. of 1880.

Huzúr Form No. 18 I. — Appendix No. XI.—statement of realizations from (1) Interest, (2) Miscellaneous items (Financial Head XXIV.)

Huzúr Form No. 20 K. — Appendix No. XII.—Contrasted statement of allowances of Village and District Hereditary Officers, including miscellaneous allowances.

Huzúr Form No. 21 L. — Appendix No. XIII.—Contrasted statement showing the area of occupied land thrown out of, and waste land taken up for, cultivation.

Supplement to Huzúr Form No. 21 L. — Appendix No. XIV.—Explanatory statement of the reasons of increase and decrease in the area of land thrown out of, and taken up for, cultivation.

Huzúr Form No. 25 P. — Appendix No. XV.—Statement showing the details of land set apart for special and public purposes.

Appendix No. XVI. A—Showing the number and extent of holdings in surveyed Government Rayatwári villages.

Huzúr Form No. 26 A & B. Appendix No. XVI. B.—Showing other varieties of tenure than Rayatwári with the number of estates under each variety of tenure and the area and revenue paid to Government under each such variety.

Huzúr Form No. 9. Appendix No. XVII.—Statement showing the average incidence of land revenue per acre and per head of population in surveyed Khálsa Rayatwári villages.

The Season.

2. The rainfall was not generally favourable for the kharíf crops. The monsoon commenced late, and early sowings did not in many cases yield good crops. The late or rabi crops, which were also backward at first, gained considerably by the heavy showers which fell towards the close of the year, and the yield from them went far to avert losses from the somewhat extensive failure, especially in Sholápur, of the early crops. Cotton, however, proved almost a failure in Khándesh where it is one of the staple monsoon crops. Altogether the season cannot be considered as unfavourable, and there was no marked distress among the agricultural classes, or others, in any of the districts of the Division. Public health was generally good and cattle were comparatively free from disease, though they were much pinched for fodder in a somewhat large area in the eastern tálukás of Sátára, Poona and Sholápur, and also to some extent in Ahmednagar.

Villages.

3. The subjoined table exhibits the total number of Government and alienated villages in the Division in the present and preceding year. There is an increase of one Government village in the total, which is due to a hamlet in the Ahmednagar Collectorate having been this year brought on the register as a village under the authority of Government Resolution No. 5407, dated 11th August 1882. The cause of delay in giving effect to the Government Resolution is said to be due to an oversight, which I do not consider a satisfactory reason for the long delay. There is, besides, an increase of one Government village in Sátára and a corresponding decrease in the number of alienated villages in that district. These fluctuations are due to the lapse, on the death of Dhanájiráo Thorat, of the alienated village of Yelavi in Táluka Tásgaon which was a life-holding:—

Districts.	Villages.						1884-85.					
	1884-85.			1883-84.			Increase.			Decrease.		
	Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.
Poona	997¾	203¼	1,201	997¾	203¼	1,201	..	..	..	..	..	..
Ahmednagar	1,223	151	1,374	1,222	151	1,373	1	..	1	..	..	..
Sátára	960	396	1,356	959	397	1,356	1	..	1	..	1	1
Sholápur	663	54	717	663	54	717	..	..	..	..	..	..
Khándesh	3,223	111½	3,334½	3,223	111½	3,334½	..	..	..	..	..	..
Násik	1,512	184	1,696	1,512	184	1,696	..	..	..	..	..	..
Total	8,578¾	1,099¼	9,678½	8,576¾	1,100¼	9,677½	2	..	2	..	1	1

Hamlets.

4. For the reason given in the preceding paragraph there is a decrease of one in the total number of hamlets for the Division under Ahmednagar. Two alienated hamlets subordinate to the village of Yelavi lapsed with that village, and this accounts for the decrease in the alienated and increase in Government hamlets in Sátára:—

Districts.	Hamlets.						1884-85.					
	1884-85.			1883-84.			Increase.			Decrease.		
	Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.

Land Revenue—Financial Results.

5. The subjoined table, being an abstract of Appendix No. I.—Huzúr Form No. 10A., contrasts the financial results of the year's settlements with those of the preceding year for each district and for the Division. It shows that the gross revenue for the Division has increased by Rs. 89,674-15-1; that alienations have increased by Rs. 9,022-13-11; that the Government revenue has increased by Rs. 80,117-15-0; that the Public Works revenue from irrigation has fallen by Rs. 5,738-4-2; that the remissions of the year were less by Rs. 83,089-8-11; that the revenue for collection has risen by Rs. 1,63,207-7-11; that the collections have increased by Rs. 1,56,016-10-9, and that the balances outstanding, though more by Rs. 7,190-13-2 for the current year, are less by Rs. 4,712-9-1 for former years—results which are on the whole satisfactory. The causes of increase and decrease are given further on under each head:—

	Decrease	.....	.....	4,712 9 1	.....	.....	.....	

Gross Land Revenue.

6. As shown above there is an increase in the gross land revenue for the Division which in the year of report amounts to Rs. 1,22,29,239-12-11 against Rs. 1,21,39,564-13-10 in the preceding year. The increase is made up as follows:—

	Increase. Rs. a. p.	Decrease. Rs. a.
Poona	43,423 9 5	.....
Ahmednagar... ...	61,307 0 7	.....
Sátára	5,591 14 8	.....
Sholápur	3,410 14 8	.....
Khándesh	.....	22,008 13 1
Násik	.....	2,049 11 2
Total ...	1,13,733 7 4	24,058 8 3
Deduct—		
Decrease ...	24,058 8 3	
Net Increase ...	89,674 15 1	

Alienations.

7. These also have increased in the year of report by Rs. 9,022-13-11. In 1883-84 they stood at Rs. 21,15,271-7-8, while in 1884-85 they amount to Rs. 21,24,294-5-7. The increase is made up as follows:—

	Increase. Rs. a. p.	Decrease. Rs. a. p.
Poona	3,554 2 0	.....
Ahmednagar... ...	7,551 10 0	.....
Sátára	.....	2,221 13 6
Sholapur	849 7 6	.....
Khándesh	.....	92 13 6
Nasik	.....	617 10 7
Total ...	11,955 3 6	2,932 5 7
Deduct—		
Decrease ...	2,932 5 7	
Net Increase ...	9,022 13 11	

8. It will be observed that there is an increase under this head in the Poona, Ahmednagar and Sholápur Collectorates, while Sátára, Khándesh and Násik show a decrease. In Poona and Ahmednagar the chief cause of increase is the revision survey which has enhanced the assessment of alienated holdings, while in Sholápur it is due mainly to the extension of cultivation in such holdings. The decrease in Sátára is principally due to the lapse of the alienated village Yelavi already mentioned; that in Khándesh, which is of small amount, to miscellaneous items of land revenue having been less; and that in Násik to the application of the scale remuneration to village officers in alienated villages.

Government Revenue.

9. Deducting remissions the Government revenue of the year for the Division is Rs. 99,59,246-2-11, or Rs. 80,117-15-0 more than that of the preceding year. There is an increase in the Poona, Ahmednagar and Sátára Collectorates aggregating Rs. 1,10,776-15-6 and a decrease in the Sholápur, Khándesh and Násik Districts aggregating Rs. 30,659-0-6, the causes of which are thus explained:—

Poona.—Increase Rs. 48,444-3-2 owing chiefly to enhancements due to the revision survey, and to the extension of cultivation.

Ahmednagar.—Increase Rs. 53,741-0-8 also due mainly to enhancements by the revision survey and to extended cultivation.

Sátára.—Increase Rs. 8,591-14-8 caused principally by the lapse of the life-holding of Dhanájiráo Thorat and by the extension of cultivation.

Sholápur.—Decrease Rs. 1,129-1-1 owing chiefly to land submerged by the Ekruk Tank having been deducted from the village books this year.

Khándesh.—Decrease Rs. 22,587-15-7 due principally to lands in cultivation having been thrown up, and to smaller realizations this year from sales of occupancies.

Násik.—Decrease Rs. 6,941-15-10 caused chiefly by lands under cultivation being thrown up.

Public Works Revenue from Irrigation.

10. Under this head there is a decrease in the year of report aggregating Rs. 5,738-4-2 as compared with the preceding year, the Poona, Sátára and Násik Districts showing less, and Ahmednagar, Sholápur and Khándesh showing more, as the revenue of the year from this source. The decreases in Poona, Sátára and Násik—the largest being in Poona, are due to less water being taken for purposes of irrigation, while the increases in Ahmednagar, Sholápur and Khándesh —the greatest occurring in Sholápur, are due to the demand for water for irrigation being greater in the year of report.

Remissions.

11. The year's remissions were less by Rs. 83,089-8-11 than in the preceding year. The aggregate for the year is Rs. 48,760-10-7. In the preceding year it was Rs. 1,31,850-3-6. In Ahmednagar alone were remissions given to any considerable extent, and here they chiefly represent remissions given to bring the enhancements resulting from revision settlements within 20 per cent. of the original survey assessment in conformity with the orders of the Secretary of State for India. The other remissions are explained in columns 25 to 33 of Appendix No. I. and do not call for any particular remark.

Collections and Current Year's Balances.

12. Deducting the public works revenue from irrigation and the remissions of the year, the land revenue for collection is Rs. 99,10,485-8-4 or Rs. 1,63,207-7-11 in excess of that of the preceding year. Of this sum Rs. 98,48,178-10-1 were collected within the year, leaving Rs. 62,306-14-3 as an outstanding balance at the close of the year. Ahmednagar shows the largest balance and Sholápur the next largest. From the marginal table, however, it will be seen that of the sum of Rs. 62,306-14-3, Rs. 10,330-5-8 have since been collected or written off the books, thus reducing the balances at date of the Collectors' reports to Rs. 51,976-8-7, the greater portion of which is recoverable.

	Collected.	Written off.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
Poona	345 10 2	....	345 10 2
Ahmednagar	6,454 0 7	739 12 2	7,193 12 9
Sátára	372 1 8	....	372 0 8
Sholápur	374 6 6	....	374 6 6
Khándesh	156 0 10	....	156 0 10
Násik	1,571 15 11	316 5 10	1,888 5 9
Total ..	9,274 3 8	1,056 2 0	10,330 5 8

13. In the year under report the dates for collecting the revenue instalments were altered from kharíf to rabi in two villages of Ahmednagar and 38 villages of Khándesh, for the convenience of the cultivators, it being found that rabi crops predominated in them.

Former Years' Balances.

14. These amounted at the beginning of the year to Rs. 1,01,065-13-10, but by collections and adjustments, as shown in the margin, they were by the end of the year reduced

Collectorates.	Balance on 1st August 1884.	Collected.	Written off.	Balance on 1st August 1885.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Poona	8,630 0 6	1,663 0 4	5,295 4 5	1,671 11 9
Ahmednagar	58,603 6 0	25,960 11 9	1,591 12 0	31,050 14 3
Sátára	6,427 2 9	5,679 15 6	34 4 0	712 15 3
Sholápur	6,184 8 5	264 13 6	2,051 13 6	3,867 8 5
Khándesh	1,418 11 3	688 4 6	182 11 0	547 11 9
Násik	19,802 5 11	10,825 8 0	5,590 7 8	3,386 6 3
Total ..	1,01,065 13 10	45,082 5 7	14,746 4 7	41,237 3 3

Collectorates.	Collected.	Written off.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
Poona	70 12 4	.....	70 12 4
Ahmednagar	7,911 14 10	.....	7,911 14 10
Sátára	21 0 0	.....	21 0 0
Sholápur	.....	.....	.....
Khándesh	1 4 0	.....	1 4 0
Nasik	146 0 10	.....	146 0 10
Total ...	8,151 0 0	.....	8,151 0 0

to Rs. 41,237-3-8; and of this sum there were further collected and written off Rs. 8,151-0-0 as shown in the margin, thus reducing the balances outstanding at the date of the Collectors' reports to Rs. 33,086-3-8.

15. Appendix No. III.—Huzúr Form No. 12 C. shows the disposition of the balances at close of the year under report under the three heads "Recoverable", "Irrecoverable" and "Doubtful and Disputed". It should be noted that the current year's balances have by subsequent collections, &c., been reduced to Rs. 51,976-8-7 and the balances for former years to Rs. 33,086-3-8, as above explained.

16. Appendix No. IV. shows the processes employed in the realizations of Government dues during the year. Though a much larger number of notices were issued during the year, as compared with the preceding year, the amount of notice fees recovered was very little in excess of the realizations of the previous year. Cases of one-fourth penalty were fewer, and generally the powers seem to have been exercised with moderation.

Tagai.

17. The transactions under this head are given in Appendices Nos. V. and VI. which are in Huzúr Form 13D. The former of these relates to advances under the Land Improvement Act, and the latter to advances for ordinary agricultural purposes.

18. It will be seen that advances under the Land Improvement Act were given in all except the Poona Collectorate, and that the sum so advanced amounted to Rs. 9,853 in the current year. Adding to this the sum of Rs. 17,519-4-0 outstanding on account of advances in former years, the total to be accounted for is Rs. 27,372-4-0. Of this total there were collected—

	Rs. a. p.
On account of current year	297 0 0
On account of former years	6,786 12 9
Or a total of ...	7,083 12 9

leaving for further recovery—

On account of current year	9,556 0 0
On account of former years	10,732 7 3
Making a total of ...	20,288 7 3

19. Advances for ordinary agricultural purposes were not given in Poona in the current year. The advances given in the other Collectorates of the Division in the current year amount to Rs. 9,510-3-0, and adding to this Rs. 52,086-4-6, the sum advanced in former years awaiting recovery, the total to be accounted for is Rs. 61,596-7-6. Of this sum there were collected—

	Rs.
On account of current year	356 8 0
On account of former years	17,717 5 11
Or a total of ...	18,073 13 11

leaving for future recovery—

On account of current year	9,153 11 0
On account of former years	34,368 14 7
Or a total of ...	43,522 9 7

20. The objects for which the advances were given are stated in Appendices VI. and VII., which also show the collections made under each head in the year under report and the balances outstanding at the close of the year. The further Appendices Nos. IX. and X. drawn up in Huzúr Form No. 15F. give the distribution of the balances at close of the year under the headings "Recoverable", "Irrecoverable" and "Doubtful and Disputed." It will be observed that the balances outstanding are all considered to be "Recoverable."

21. In the marginal table is shown the recoveries made up to the date of the Collectors' reports from the sums outstanding under each head at the close of the year. They reduce the balances on account of advances under the Land Improvement Act from Rs. 20,288-7-3 to Rs. 18,630-4-0, and the balances on account of advances for ordinary agricultural purposes from Rs. 43,522-9-7 to Rs. 42,380-13-9

Collectorates.	Advances under the Land Improvement Act.	Ordinary Advances.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.

Sholápur	.....	67 8 0	67 8 0
Kháudesh	90 0 0	221 14 4	311 14 4
Násik	.....	.....	.....
Total ...	1,658 3 3	1,141 11 10	2,799 15 1

Reduction of Assessment.

22. No reductions of assessment were made anywhere in the Division in the year under report.

23. Appendix No. XI.—Huzúr Form No. 18 I. is a statement giving in detail the realizations from items credited as interest and as miscellaneous revenue in the various districts of the Division in the year under report. The total under these heads for the Division is Rs. 10,175-7-4.

24. Appendix No. XII.—Huzúr Form No. 20 K. is a contrasted statement of allowances due to village and district hereditary officers and others for the year of report and the year preceding it, being a compendium of the items appearing in Táluka Forms Nos. 20, 21 and 22. It will be observed that in the items appearing in Táluka Form No. 20 there is a net increase in the total amounting to Rs. 7,323-12-6; that in those appearing in Táluka Form No. 21 there is also a net increase amounting to Rs. 43-13-3; while in the items taken from Táluka Form No. 22 there is a net decrease of Rs. 354-11-8 as compared with the preceding year. The increase under the first head is due to larger disbursements having been made in the year of report to Pátils, Kulkarnis and on account of Chávdi expenses. The fiuctuations in the items taken from Táluka Forms 21 and 22 are insignificant and call for no special explanation.

25. Appendix No. XIII.—Huzúr Form No. 21 L. shows the land in occupation in the year under report with particulars as to land thrown up and lands newly taken into occupation. Appendix No. XIV. is a supplement to the above, and explains the chief causes of their increase and decrease which appear in the aggregate in Appendix No. XIII. The area in cocupation in 1883-84 was 12,356,424 acres. In the year under report it is 12,515,694 acres. There is thus an increase in favour of the latter aggregating 159,269 acres, which is spread over all the Collectorates of the Division but occurs chiefly in the Poona, Ahmednagar and Násik Districts. It is to be explained that in Appendix No. XIV. the assessment is not in every case that of the land against which it is entered, and that the area and assessment must be independently reviewed as merely pertaining to each of the main heads under which they are entered.

26. Appendix No. XV.—Huzúr Form No. 25 P. gives the details of the lands set apart up to the close of the year 1884-85 for special and public purposes. The aggregate area for the Division is 2,674,510 acres, of which 613,437 acres are assessed and the remainder unassessed land.

27. Appendix No. XVI., being abstracts of Huzúr Forms 26 A. and 26 B., gives the number of holdings in surveyed Government Rayatwári villages for the Division, and the number of estates, other than Rayatwári, paying revenue to

Government. There is some difference of opinion as to the manner in which these statements should be compiled. The matter is under separate consideration, and will, if necessary, be placed before Government for final decision hereafter. In the meantime the particulars are given as they have been in the statements furnished to the Compiler of the General Administration Report and the Director of Agriculture under the orders in Government Resolution No. 9706, dated 9th December 1884.

28. Appendix No. XVII. shows the average incidence of the land revenue on the total culturable area and on the area under cultivation in the year under report, as also the incidence per head of population. The figures for the Division are—

For total area	Annas 7, pies 11.
For cultivated area only ...	Annas 11, pies 5.
And per head of population...	Rs. 2-1-7.

29. As I only assumed charge of the Central Division a few days ago, I do not feel called upon to make further remarks.

I have the honour to be,
Sir,
Your most obedient Servant,

ARTHUR CRAWFORD,
Commissioner, C. D.

Memorandum from the Commissioner, S. D., No. S. R.—755, dated 5th April 1886, forwarding one No. 942, dated 26th March 1886, from the Collector of Belgaum.

Letter from the Commissioner, C. D., No. R.—1487, dated 1st April 1886.

Memorandum from the Commissioner, C. D., No. R.—2215, dated 2nd June 1886.

} Submitting the Annual Reports on the revenue settlement of their respective Divisions for the year 1884-85.

RESOLUTION.—In the coast districts the season was favourable and the crops were good. In the inland districts the rainfall was delayed, causing in many instances almost total loss of the early sowings, and on the whole a poor outturn for such crops as were able to benefit by the rain which eventually came in fair quantity. In Gujarát these late monsoon rains damaged otherwise promising crops. The rabi season was however good, except in Bijápur, thanks to the late monsoon rains and a winter downpour.

Nature of season.

2. The number of Government villages has been increased by the lapse of 2 inám villages, one in Surat and one in Sátára, and the recognition of 14 hamlets, most of them in the Kánara District, as separate villages. In Ratnágiri 2 villages are reduced by their lands having been distributed among contiguous villages.

Territorial changes.

3. The figures in Appendix XIII of the report of the Commissioner, C.D., purporting to show the area of culturable land in the Ahmednagar District, are obviously incorrect and vitiate the totals of the Division. Survey operations in the Panch Mahals and account adjustments in Ahmedabad and Kaira have added a net 77,000 acres to the area reckoned as culturable in the Northern Division; and 11,000 acres have been similarly added in the Southern Division exclusive of the districts of Kánara and Ratnágiri where the survey arrangements are not yet sufficiently advanced to supply complete information.

Culturable area.

4. The following statement shows the area in occupation in each division in the year under review and in the previous year with increase and decrease :—

Area occupied.

Divisions.	Land occupied in 1883-84.		Land occupied in 1884-85.		Increase.		Decrease.	
	Area.	Assessment.	Area.	Assessment.	Area.	Assessment.	Area.	Assessment.
	Acres.	Rs.	Acres.	Rs.	Acres.	Rs.		
Northern Division ...	4,177,378	79,42,181	4,279,215	79,77,907	101,837	35,726	...	...
Central Division ...	12,356,425	87,89,470	12,515,694	89,33,833	159,269	1,44,363	...	...
Southern Division ...	4,999,796	46,01,439	5,044,839	46,77,358	45,043	75,919	...	...
Total ...	21,533,599	2,13,33,090	21,839,748	2,15,89,098	306,149	2,56,008	...	...

There was thus in the whole Presidency, exclusive of Kánara and Ratnágiri, an increase in the year under review of 306,149 acres in the area and of Rs. 2,56,008 in

the assessment of occupied lands. Each Division contributes to this increase, but a large share of that credited to the Northern Division is nominal and due to the same causes as increased the culturable area. In the Ahmedabad District 96,382 acres of Mevási and Tálukdári lands were for the first time brought to account, although the assessment on these lands had previously been included in the jama, while the entry of the correct area of certain Tálukdári lands in the Panch Maháls which have now been surveyed and the transfer of some lands in the Kaira District from the head "Cultivated" to "Kharáb" brought about a decrease in the occupied area in these districts. The area of land relinquished in the Ahmedabad, Broach and Surat Districts was less than in the previous year, and in the whole division the area of land actually taken up was nearly double that of land relinquished. This is satisfactory. In Surat there was a slight increase in the area of occupied land, but a decrease in the total assessment, which is presumably due to the exchange of better for poorer lands. Large areas were taken up in the Poona, Khándesh, Násik and Ahmednagar Districts, but in the last three considerable areas were also relinquished. In all the districts in the Southern Division, and principally in Bijápur, there was an increase in the area of land in occupation. The increase in Bijápur amounted to 25,628 acres, although the season was, as above stated, very unfavourable in that district. This fact indicates, as remarked by the Commissioner, S. D., that the assessment in that district is moderate and that the cultivators have rallied from the effects of the famine of 1876-77. It is probable that the extension of the railway system has encouraged people to occupy new lands.

Average size of occupancies.

5. The average size of occupancies in each district is shown below both for Government and alienated lands :—

Districts.	Average size of occupancies.					
	Khálsa.			Inám.		
	A.	g.	a.	A.	g.	a.
Northern Division.						
Ahmedabad	12	14	0	14	1	0
Kaira	5	34	0	7	14	0
Panch Maháls	9	24	0	11	8	0
Broach	14	32	0	8	23	0
Surat	10	20	0	4	36	0
Thána	12	15	0	13	6	0
Total ...	10	24	0	9	0	0
Central Division.						
Poona	28	34	0	36	8	0
Ahmednagar	37	9	4	31	24	11
Sátára	24	25	0	17	2	0
Sholápur	47	20	0	89	34	0
Khándesh	23	10	14	24	37	6
Násik	31	28	0	34	37	0
Total ...	30	11	8	26	20	13
Southern Division.						
Belgaum	21	27	0	31	3	0
Dhárwár	25	10	0	33	36	0
Bijápur	31	9	0	44	33	0
Kánara	10	11	10	31	31	5
Ratnágiri	11	36	4	.....		
Kolába	6	22	12	4	18	6
Total ...	18	12	13	35	33	11
Grand Total ...	20	32	13	20	8	13

The figures for Government lands show that the holdings in Khándesh and the districts above the ghâts are 2 or 3 times as large as those of the Konkan and Gujarát. There is no indication in these figures of the accumulation of lands in the hands of money-lenders or other capitalists. The statements relating to tenures other than rayatwári, Appendix XVI., Huzúr Form 26 (B), do not afford much useful information. The udhad jamábandi villages of the Central Division are possibly the leased villages of the district of Khándesh. The Commissioner, C. D., reports (paragraph 27) that the manner of preparing this statement is under consideration. The imperfection of the form is thus admitted, and if it were not, a comparison of the statements of the three divisions would establish it. The Commissioners should in communication with one another classify the various tenures and adopt a form that will enable a comparison to be readily made between districts and divisions. The name of a tenure should indicate the same tenure in whatever division or district it may be used. Such names as "Inámi" and "Sharákati" would seem to offend against this principle.

Incidence of land revenue.

6. Appendix XVII of the Southern Division Report is incomplete. This Appendix relates to khálsa villages only, but it is not clear that in calculating the incidence of the assessment in the cultivated area the full assessment has always been taken into account. For example, the high figure for Poona in column 2 of the Appendix evidently includes the inám lands of khálsa villages, and the figure of revenue in column 5 should include the full assessment of those lands and not the judi only when it is less than the full assessment, otherwise the figure of incidence will not be correct. The Commissioners are requested to pay particular attention to this detail in next year's reports.

Unoccupied culturable land.

7. The extent of assessed culturable land remaining unoccupied in the year under review and the previous year respectively is shown in the following statement. There is a satisfactory decrease in all divisions:—

Divisions.	Extent of unoccupied assessed land.		Decrease.
	1884-85.	1883-84.	
	Acres.	Acres.	Acres.
Northern Division	437,264	462,024	24,760
Central Division...	1,040,518*	1,155,863*	115,345*
Southern Division	506,336	540,303	33,967

* Exclusive of the figures for the Ahmednagar District.

The area available for new cultivation in the Kolába, Sátára, Thána, Surat and Broach Districts is quite inconsiderable.

Takávi.

8. The advances made in the Central and Southern Divisions for land improvement were respectively Rs. 9,853 and Rs. 17,365 as compared with Rs. 4,425 and Rs. 180 respectively in the previous year. The Commissioners give no explanation of the greater readiness of the cultivators to accept Government help in improving their farms. The money was used in the Belgaum District for sinking wells. Under the head of advances for the purchase of seed and cattle there were granted in the Northern Division Rs. 303, in the Central Division Rs. 9,510, and in the Southern Division Rs. 6,220. Rs. 3,837 of the last amount were advanced in Bijápur for the purchase of fodder for cattle. Of the advances of both kinds made in previous years and the year under review, Rs. 25 were written off, Rs. 26,003 were recovered during the year and Rs. 88,204 remained to be recovered at the close of the year.

Government demand.

9. The demand under all heads of land revenue in each division for the year under review is contrasted with that of the previous year in the following statement:—

Divisions.	1884-85.	1883-84.	Increase.	Decrease.
	Rs.	Rs.	Rs.	Rs.
Northern Division	95,51,268	95,12,223	51,576	12,532
Central Division	99,59,246	98,79,128	1,10,777	30,659
Southern Division...	79,11,192	77,86,774	1,24,418	...
Total ...	2,74,21,706	2,71,78,125	2,86,771	43,191

The total demand for the year under review was greater than that for the previous year by Rs. 2,43,580. The increase was largest in the Southern Division and is attributed mainly to the operations of the survey and the extension of cultivation, and partly to higher receipts from the sale of occupancy rights and from miscellaneous items of revenue. Broach, Khándesh and Násik are the only districts in which there was a considerable decrease in the revenue demand. In each of these districts the land taken up exceeded the area relinquished, and the decrease belongs to miscellaneous heads. Large increases in Poona and Ahmednagar are due mainly to the introduction of revised rates of assessment and expansion of cultivation.

Remissions.

10. The remissions granted in the year under review and the previous year respectively are shown in the following statement :—

Divisions.	Remissions on account of failure of crops, poverty, death and desertion.		Remissions on account of other causes.		Total Remissions.	
	1884-85.	1883-84.	1884-85.	1883-84.	1884-85.	1883-84.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Northern Division ...	626	849	16,264	14,014	16,890	14,863
Central Division ...	12,385	2,090	36,375	1,29,760	48,761	1,31,850
Southern Division ...	1,369	883	1,35,141	1,24,199	1,36,510	1,25,082
Total ...	14,380	3,822	1,87,780	2,67,973	2,02,161	2,71,795

The remissions made on account of failure of crops were large only in the Ahmednagar District. Among the remissions on account of other causes only one large item is due to the season, *viz.* Rs. 7,217, remitted in Broach in consequence of floods of the Narbada. The other remissions under this head are matters of account or temporary reductions of enhanced survey rates, and need no remark.

Revenue collected and balances.

11. The year opened with the following balances outstanding for collection :—

Divisions.	Balances on account of previous years.	Balances on account of 1883-84.	Total outstanding balance at the close of 1883-84.
	Rs.	Rs.	Rs.
Northern Division	2,728	7,669	10,397
Central Division	45,950	55,116	1,01,066
Southern Division	20,099	51,108	71,207
Total ...	68,777	1,13,893	1,82,670

and the following table shows the progress of collection during the year under report and the outstandings at its close :—

Divisions.	Amount for collection including balance at the end of 1883-84.	Amount adjusted.	Amount collected.	Balance outstanding at the close of 1884-85.		
				On account of previous years.	On account of 1884-85.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Northern Division ...	95,44,775	3,783	95,20,283	4,320	16,389	20,709
Central Division ...	1,00,11,551	14,746	98,93,261	41,237	62,307	1,03,544
Southern Division ...	78,45,889	23,021	76,75,912	26,804	1,20,153	1,46,957
Total ...	2,74,02,215	41,550	2,70,89,456	72,361	1,98,849	2,71,210

Of the arrears of previous years, Rs. 68,759 were recovered in the year under review, Rs. 41,550 of which more than half pertained to Ratnágiri alone, were written off, and Rs. 72,361 remained to be recovered at the close of the year. The balances continue to be large in Ahmednagar and Ratnágiri, but it is stated that in the latter district measures have been taken for their adjustment.

12. There was an increase of Rs. 3,13,215 in the revenue for collection, and of Rs. 2,28,259 in the amount collected. The arrears of the year under review were therefore larger than those of the previous year by Rs. 84,956. In the Bijápur District, in some tálukás of which the season was very unfavourable, the amount outstanding, Rs. 68,502, had by March last been reduced to a little over Rs. 4,000. On this subject Government passed a special Resolution No. 2203, dated 19th March last.

13. In the other districts also collections and adjustments made after the close of the year under review were mentioned in the Collectors' reports reducing the total outstandings shown in paragraph 10 to Rs. 2,15,242, of which Rs. 76,652 would appear to be irrecoverable and Rs. 6,456 doubtful and disputed. These figures include only a small share of the collections of the Bijápur arrears mentioned in the last paragraph which were reported at a much later date. Considering that the season was unfavourable over a great part of the Presidency, being described as regards Bijápur as the most critical it has experienced except in famine years, the result of the collections must be taken to be highly satisfactory and the strongest evidence of the moderation of the rates.

Coercive processes.

14. The extent to which the compulsory processes, short of forfeiture and sale of occupancy, were resorted to is shown in the following table :—

	Notices, Section 152, Land Revenue Code of 1879.		¼ Penalty, Section 148, Land Revenue Code.		Distraint and Sale of Property other than the land.		
	No.	Amount of Fees received.	No.	Amount.	No. of distraints and sales.	Amount for which sale became necessary.	Amount recovered by sale.
Northern Division.		Rs.		Rs.		Rs.	Rs.
1884-85	24,737	6,753	1,924	826	308	3,442	1,628
1883-84	24,688	6,668	1,438	1,487	227	1,325	1,100
Central Division.							
1884-85	52,685	11,870	724	1,337	65	2,317	1,887
1883-84	37,011	17,386	1,409	1,196	68	2,056	1,217
Southern Division.							
1884-85	40,193	7,106	751	862	618	4,030	7,055
1883-84	44,587	5,801	1,021	896	946	3,369	3,944
Total.							
1884-85	117,615	25,729	3,399	3,025	991	9,789	10,570
1883-84	106,286	29,856	3,868	3,580	1,241	6,751	6,261

Though notices were more numerous than in the previous year they were in fewer instances followed up by the penalty under Section 148, Land Revenue Code, and the sale of property other than land under Sections 154 and 155. There was a considerable increase of notices in all districts of the Central Division except Násik, in Dhárwár and Bijápur of the Southern Division, and in Thána and Broach of the Northern Division. The ¼ penalty was inflicted in a greater number of cases in Surat and the Panch Maháls and other districts of the Northern Division, in Sátára and Násik of the Central Division, and Dhárwár of the Southern Division. Broach shows the largest increase, *viz.* 46, in cases of distraint and the reduction in the record of this penalty belongs to Ratnágiri and Kolába, where it must be ultimately attributed to the good season. It is evident that the same penalty is not equally efficacious in all districts, and that Collectors therefore find it necessary to make use of the forms of pressure best suited to the peculiarities of each.

Forfeiture and sale of occupancies also show an improvement in most districts :—

	Number of cases.	Arrears on account of which forfeiture was resorted to.	Area of land forfeited.	Land sold.	
				Area.	Amount realized.
Northern Division.		Rs.	Acres.	Acres.	Rs.
1884-85	149	3,526	948	428	736
1883-84	203	2,696	1,379	541	1,061
Central Division.					
1884-85	219	5,369	5,587	2,700	2,696
1883-84	166	6,349	5,532	1,313	1,517
Southern Division.					
1884-85	95	527	400	220	497
1883-84	96	2,433	1,095	426	2,007
Total.					
1884-85	463	9,422	7,035	3,348	3,930
1883-84	465	11,479	8,007	2,280	4,586

The increase in the number of cases is only remarkable in Násik. Comparatively little of the unsold forfeited land was restored to the occupants and unless there was an intention of restoring it there would appear to be no very good reason why it should not have been sold. Having regard to the strict orders on the subject of forfeiture and sale His Excellency in Council presumes that resort was had to this process in the other divisions for reasons similar to that stated by the Commissioner, S. D., *viz,* "the obstinacy of some of the occupants in easy circumstances—rich merchants and the like—in withholding payment of the instalments on the prescribed dates, in hopes of my consenting to a general remission or postponement of revenue in consequence of the bad season."

Public Works revenue from irrigation.

15. The revenue from water-rate has not been included in the statements given above. The amount realized under this head in the Central Division (Rs. 1,45,699) was less by Rs. 5,738 than in the previous year, the decrease being principally in the Poona District. There was also a decrease of Rs. 15 in the amount realized in the Southern Division (Rs. 4,291). The Northern Division has no separate Irrigation Revenue.

Alienated revenue.

16. The total alienated revenue of the year under review exceeded that of the previous year by Rs. 33,296. The increase in the Northern and Southern Divisions is attributed to

the introduction of survey rates into certain alienated villages. It would appear from this that the survey rates were higher than the inámdár's rentals which is never the case. In the Central Division the increase is reported to be the result of revision survey and this cause is intelligible. There was a considerable decrease in the alienated revenue in the Dhárwár District owing to the lapse of an inám and the resignation of a shetsandi's land, and increase of the scale judi leviable from Pátils and Kulkarnis.

General results.

17. The general result of the administration of land revenue during the year under review is contrasted with that for the previous year in the following statement:—

			1884-85.	1883-84.
			Rs.	Rs.
Gross Revenue ...	Northern Division	... ...	1,21,65,122	1,21,17,469

	Southern Division	... ...	26,804	20,099
	Total	...	72,361	68,777

These results are satisfactory. The revenue for collection and the amount actually collected were, as above stated, larger than in the previous year. The collections were made with comparatively little pressure and the outstanding balances are not really large, a great share of them requiring only an account adjustment. Generally speaking the country and the administration have been tried by a season far from favourable and borne the test, especially in the case of Bijápur, remarkably well.

18. His Excellency the Governor in Council has much pleasure in acknowledging the efficiency with which the Commissioners have supervised the land revenue administration of the Presidency and the lucid manner in which they have summarized the results of their work.

License Tax Returns for the Bombay Presidency, inclusive of Sind and Aden, for the year 1885-86.

No. 2639 OF 1886.

FINANCIAL DEPARTMENT.

Bombay Castle, 31st August 1886.

Read the following papers :—

Letter from the Political Resident, Aden, No. T.—2125, dated 19th December 1885. Memorandum from the Commissioner in Sind, No. 628, dated 20th February 1886. Letter from the Commissioner, S. D., No. S. R.—457, dated 28th February 1886. Memorandum from the Commissioner, S. D., No. S. R.—595, dated 24th March 1886. Letter from the Commissioner, S. D., No. S. R.—608, dated 24th March 1886. Letter from the Commissioner, C. D., No. R.—915, dated 1st March 1886. Letter from the Commissioner, N. D., No. 951, dated 18th March 1886. Memorandum from the Collector of Bombay, dated 7th May 1886—Forwarding a letter No. 203, dated 7th idem, from the Collector of Income-tax, Bombay.	Submitting returns showing the working of the License Tax Act III. of 1878 as amended by Act VI. of 1880 in their respective charges during the year 1885-86.

RESOLUTION.—As the License-tax has now been superseded by the Income-tax, the reports on its working during the year 1885-86 are very brief, and consist of little more than summaries of the statistical information contained in the standard forms.

2. A decrease in the License-tax collections, as compared with those of the previous year, is observable in the case of the Northern, Central and Southern Divisions. The explanations offered are various. In some districts the fact that the year 1885 was a Sinhast year, in which no Hindu marriages could be celebrated, is stated to have caused a depression of trade. In others this depression is attributed to such causes as the operation of the Deccan Agriculturists' Relief Act, the departure of contractors, a bad season, or the opening of a railway which diverted the course of trade. While these explanations seem more or less plausible, the Governor in Council is constrained to remark that equally plausible explanations have been given in past years, and that, nevertheless, there has been an absolutely unbroken annual decrease, since 1880-81, in the collections in the Northern and Central Divisions, and an almost equally steady decrease in the Southern Division. Some other explanation of such a remarkable and unsatisfactory result must evidently be sought: for it is hardly credible that there has been a general annual decrease in incomes for six years in succession. It seems obvious that insufficient care has been taken by the local authorities to ascertain the incomes of those liable to pay the tax.

3. On the other hand, in Bombay City, in Sind, and in Aden, the collections exceeded those of the previous year. In both Bombay City and Sind it is satisfactory to find that the increase in the collections, year by year, for six years, has been as steady and unvaried as the decrease in the divisions of the Presidency proper, and has done much to counterbalance that decrease.

4. In the year under review, the total collections for the whole Presidency were less than in the previous year, though the original assessment was higher. The following table gives comparative figures for the two years :—

	1884-85.			1885-86.		
	Original Demand.	Final Demand.	Collections.	Original Demand.	Final Demand.	Collections.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Northern Division	2,59,490	2,49,655	2,49,356	2,60,295	2,49,220	2,48,838
Central Division	2,70,335	2,52,925	2,51,088	2,63,785	2,47,395	2,44,440
Southern Division	1,56,995	1,50,575	1,49,800	1,51,265	1,43,150	1,42,261
Sind	1,61,170	1,49,378	1,52,278	1,71,070	1,56,170	1,56,963
Bombay	4,22,685	4,13,820	4,12,921	4,28,100	4,20,210	4,19,786
Aden	14,595	9,895	9,895	16,090	11,010	11,010
Total ...	12,85,270	12,26,248	12,25,338	12,90,605	12,27,155	12,23,298

5. The incidence of the tax has not changed perceptibly. The number of appeals and the amount remitted on appeal increased from 8,060 to 9,033 and from Rs. 55,946 to Rs. 62,230 respectively. No other points call for special notice.

J. DEC. ATKINS,

JAMÁBANDI REPORT

FOR THE

NORTHERN DIVISION,

1885-86.

[*Price*—3½ *Annas.*]

No. 383 OF 1887.

FROM

G. F. SHEPPARD, ESQUIRE,
Commissioner, N. D;

To

T. D. MACKENZIE, ESQUIRE,
Acting Chief Secretary to Government,
Revenue Department,
Bombay.

Kaira Districts, Camp Nadiad, 1st February 1887.

SIR,

I have the honour to submit the annual report on the revenue settlement of the Northern Division for the year 1885-86 with the usual appendices as per list appended.

Season.

2. The rainfall was considerably below the average in all districts except Broach. The monsoon commenced with light showers, and after a break which caused some apprehension and necessitated re-sowing in some districts it set in fairly in the month of July and continued till about the middle of August, when a second long break succeeded, followed at the close with heavy rain in the Southern Districts of the Division and with light falls in the Northern Districts which did not reach the Panch Mahâls. The failure of the later rain thus affected the crops in Ahmedabad and Kaira and caused much damage in the Panch Mahâls. Even in Broach the outturn was affected. There was at one time much apprehension for the rabi crops, but there was a fair yield, except in the Panch Mahâls. In Surat and Thâna the season was on the whole favourable, and the jowâri crop in Surat and the warkas crops in Thâna were excellent, but rice appears to have suffered in the latter district.

Villages and Hamlets.

3. The number of villages and hamlets (Government and alienated) is shown in columns 3 to 5 of the Huzúr Form No. 10A. The following comparative table exhibits the number of villages in the current and preceding year:—

Appendix No. I.

No.	Districts.	1885-86.			1884-85.			INCREASE.			DECREASE.		
		Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.
1	Ahmedabad	832	52	884	832	52	884	...	..	...	...	...	...
2	Kaira	563	28	591	563	28	591	...	...	...	...	...	...
3	Panch Mahâls ...	610½	139½	750	607	143	750	3½	...	3½	...	3½	3½
4	Broach	408	15	423	408	15	423	...	...	...	...	...	...
5	Surat	814½	38½	853	814½	38½	853	...	...	..	...	...	...
6	Thâna	1,871	113	1,984	1,876	108	1,984	...	5	5	5	...	5
	Total ...	5,099	386	5,485	5,100½	384½	5,485	3½	5	8½	5	3½	8½
	Net ...	..	...	...	...	...	...	...	1½	1½	1½	...	1½

4. The fluctuation in the Panch Mahâls is due to the 3½ villages comprising the Shivrajpur estate having been recognized by Government as a distinct tâlukdâri estate instead of an inâm, *vide* Government Resolution No. 1417, dated 20th February 1886. The restoration of the villages of Amgaon, Dolhare,

Adoshi, Warnoli and Warle to the Izafatdárs (Government Resolution No. 6427, dated 7th August 1885) has resulted in the decrease in Thána.

5. The following is a comparative table of Government and alienated hamlets :—

No.	Districts.	1885-86.			1884-85.			Increase.			Decrease.		
		Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.
1	Amedabad	257	10	267	257	10	267	...	...	...	...	...	...
2	Kaira	519	17	536	519	17	536	...	...	...	...	...	...
3	Panch Mahâls ..	588	96	684	586	96	682	2	...	2	...	...	...
4	Broach	14	...	14	14	...	14	...	...	...	...	...	...
5	Surat	858½	25½	884	858½	25½	884	...	...	...	...	...	...
6	Thána	2,225	108	2,333	2,230	103	2,333	...	5	5	5	...	5
	Total ...	4,461½	256½	4,718	4,464½	251½	4,716	2	5	7	5	...	5
	Net ...	...	...	...	...	...	...	3	...	3	...	5	2

6. The increase in the Panch Mahâls is due to the transfer of 4 hamlets with the villages referred to in paragraph 4 and to the recognition of 2 hamlets of the villages of Karoli and Kharsalia. The decrease in Thána represents the hamlets belonging to the villages referred to in the same paragraph.

Land Revenue.

7. The following is a brief comparative abstract of Huzúr Form No. 10A. showing the gross and net land revenue, the realizations, remissions and balances outstanding for the previous year and 1885-86 in each District of the Northern Division :—

STATEMENT.

8. The above return presents very satisfactory results, as it will be observed that while there has been a large increase in the Government demand and the amount for collection, the balance remaining unrealized is inconsiderable, being only about 42 per cent. of the amount uncollected at the close of the preceding year. The following abstract exhibits the results more readily :—

Heads.	1885-86.	1884-85.	Increase.	Decrease.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Gross Revenue	1,22,09,728 0 5½	1,21,65,122 3 4	44,605 3 1½	.. ...
Alienations	26,14,242 2 1	26,13,854 7 7	387 10 6	.....
Public Works Revenue from Irrigation	.....	.....	.....	.....

Revenue for Collection	95,76,051 7 4½	95,34,377 8 5	41,673 14 11½	.....
Collections	95,68,150 13 10½	95,17,988 10 5	50,162 3 5½	.....
Balances on account of current year...	7,900 9 6	16,388 14 0	.....	8,488 4 6
Balances on account of former years...	11,247 8 10	4,319 14 7	6,927 10 3	.....

9. The total gross revenue amounts to Rs. 1,22,09,728-0-5½ against Rs. 1,21,65,122-3-4 in the previous year, giving a net increase of Rs. 44,605-13-1½, to which all districts, except Thána, contributed as shown below :—

	Rs. a. p.
Ahmedabad	7,756 13 9½
Kaira	15,544 12 3
Panch Maháls	17,764 1 5
Broach	8,450 3 9
Surat	14,594 15 9
Total Increase ...	64,110 14 11½
Deduct Decrease in Thána ...	19,505 1 10
Net Increase ...	44,605 13 1½

Alienations.

10. The net increase under this head is Rs. 387-10-6, the total alienations being Rs. 26,14,242-2-1 compared with Rs. 26,13,854-7-7 in 1884-85. The following table exhibits the fluctuations in each Collectorate :—

Districts.	Increase.	Decrease.
	Rs. a. p.	Rs. a. p.
Ahmedabad	.....	146 3 9
Kaira	.....	48 10 9
Panch Maháls...	887 15 10	.....
Broach	.....	250 6 0
Surat	.....	1 2 10
Thána	.....	53 14 0
Total ...	887 15 10	500 5 4
Net ...	387 10 6	.....

11. The increase in the Panch Maháls is due to a settlement of the watans of the Desáis of Dohad having been effected at the rate of two (instead of 4) annas in the rupee, *vide* Government Resolution No. 6483, dated 10th August 1885. In the remaining districts there is an aggregate decrease of Rs. 500, the individual items being too trifling to require explanation except perhaps in the case of Broach and Ahmedabad. The decrease in the first named district is principally due to relinquishment of land in consequence of its having become unfit for cultivation and to inám lands having been forfeited to Government, the holders having failed to pay the quit-rent due from them; while in Ahmedabad it is owing to the transfer of certain wanta lands in Savlana, Táluka Viramgám, to the head of personal inám as also to the alienated lands in the Tálukdári villages of Kaṣla and Sháhápur which were resumed, having been subjected to summary settlement, *vide* Government Resolution No. 4241, dated 15th December 1883.

Government Revenue.

12. The following table shows the Government revenue in each Collectorate as compared with that in the preceding year:—

Districts.	1885-86.	1884-85.	Increase.	Decrease.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Ahmedabad	14,65,869 5 11½	14,57,966 4 5	7,903 1 6½	.....
Kaira	20,14,680 2 6	19,99,086 11 6	15,593 7 0	.....
Panch Maháls	2,99,289 9 11	2,82,413 8 4	16,876 1 7	.....
Broach	22,48,247 0 2	22,39,546 6 5	8,700 9 9	.....
Surat	23,67,601 15 0	23,53,005 12 5	14,596 2 7	.....
Thána	11,99,797 12 10	12,19,249 0 8	.....	19,451 3 10
Total ...	95,95,485 14 4½	95,51,267 11 9	63,669 6 5½	19,451 3 10
Net ...	.....	.....	44,218 2 7½	.....

13. The several districts of Gujarát show an aggregate increase of Rs. 63,669-6-5½ against a decrease of Rs. 19,451-3-10 in Thána, giving a net increase of Rs. 44,218-2-7½ for the Division.

14. The detailed causes of these fluctuations furnished by the several Collectors show that the increase in Gujarát is principally due to the extension of cultivation as the following figures will show:—

	Increase by extension of cultivation.	Decrease by relinquishment of lands.
	Rs.	Rs.
Ahmedabad	15,630	8,984
Kaira	18,288	6,258
Panch Maháls	12,015	3,158
Broach	7,908	3,200
Surat	18,575	4,635

15. The other items of increase which may be mentioned are (in Ahmedabad) realizations on account of ground-rent of other than cultivated lands, (in Kaira) sale-proceeds of materials of the old Kacheri at Thásra, (in Panch Maháls) realizations from occasional items of revenue, and (in Broach) a sum of Rs. 12,812 on account of unassessed land brought under cultivation with permission. On the other hand, the decrease in Thána is principally due to the abolition of the Buddene (a cess on toddy trees) in that district.

Remissions.

16. The remissions granted during the year amounted to Rs. 19,434-7-0 against Rs. 16,890-3-4 in 1884-85, giving an increase of Rs. 2,544-3-8. The subjoined statement shows the amount remitted in each district as compared with the preceding year:—

Districts.	1885-86.	1884-85.	Increase.	Decrease.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Ahmedabad	1,904 12 1	1,640 14 0	263 14 1	.....
Kaira	1,450 8 4	1,451 7 6	.....	0 15 0
Panch Maháls	1,717 12 5	4,067 15 1	.....	2,350 2 8
Broach	9,154 0 11	7,627 5 9	1,526 11 2	.....
Surat	5,032 4 5	1,844 1 3	3,188 3 2	.....
Thána	175 0 10	258 7 9	.....	83 6 11
Total ...	19,434 7 0	16,890 3 4	4,978 12 5	2,434 8 9
Net ...	.....	.....	2,544 3 8	.....

17. The largest amounts were granted in Broach and Surat; in the former Rs. 8,759 and in the latter Rs. 3,977, owing to the flooding of the Nerbudda and Tápti rivers, which, as stated in the previous year's report, caused considerable damage to lands along the banks.

18. From the details given in columns 25 to 33 of Appendix I. it will be observed that two-thirds of the total amount of remissions is attributable to injury from floods, Rs. 148 to introduction of survey, Rs. 1,278 to poverty, death and desertion, and Rs. 5,017 to other causes.

Collections and Current Year's Balances.

19. The amount for collection during the year under report was Rs. 95,76,051-7-4½ against Rs. 95,34,377-8-5 in the preceding year, giving a net increase of Rs. 41,673-14-11½. Of the former sum Rs. 95,68,150-13-10½ were realized within the year, leaving a balance of Rs. 7,900-9-6 uncollected. Nearly half this amount belongs to Broach, Rs. 1,756 to Ahmedabad, Rs. 1,187 to Surat, Rs. 919 to Thána, and Rs. 508 to the Panch Maháls. The entire revenue was collected in Kaira. About 50 per cent. of the above sums are reported to be recoverable, and since the close of the year the following amounts have been recovered :—

	Rs.	a.	p.
Broach	1,133	11	4
Thána	497	12	0
Surat	97	4	8
Ahmedabad	54	10	8

Former Years' Balances.

Collectorates.	Balance on 1st August 1885.			Collected.			Written off.			Balance on 1st August 1886.		
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.
Ahmedabad	4,910	7	4	107	10	0	966	14	6	3,835	15	10
Kaira	1,108	0	0	100	0	0	....			1,008	0	0
Panch Maháls	1,675	4	2	191	7	2	19	4	3	1,464	8	9
Broach	6,211	8	2	4,952	14	10	1,076	10	7	181	14	9
Surat	4,606	10	6	114	8	10	115	4	8	4,376	13	0
Thána	2,196	14	5	1,816	9	11	....			380	4	6
Total ..	20,708	12	7	7,283	1	9	2,178	2	0	11,247	8	10

20. The progress in the collection of former years' balances is shown in the margin, and it will be seen that the amount which stood at the beginning of the year at Rs. 20,708-12-7 has been reduced to Rs. 11,247-8-10.

Appendix No. III.

21. In Huzúr Form 12 C. the total outstanding balances of the current and former years are as classified below :—

Balances.	On account of current year.			On account of former years.			Total.		
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.
Recoverable	3,900	14	9	1,923	8	4	5,824	7	1
Irrecoverable	2,324	15	3	5,490	0	6	7,814	15	9
Doubtful and disputed	1,674	11	6	3,834	0	0	5,508	11	6

Recoverable Balances.

22. Of the recoverable balances it is only necessary to notice those of the previous year, and it may be added that the large sum in Kaira is, as stated in paragraph 21 of the last year's report, due from the village of Chandna, which is under the management of the Tálukdári Settlement Officer. The amount in the Panch Maháls is on account of the Summary Settlement due by the Desáis of Dohad and an attachment has been placed on their villages for its realization. The sum of Rs. 380 belonging to Thána is in course of recovery.

Irrecoverable Balances.

23. The greater portion of the irrecoverable balances belongs to Surat, Broach, and the Panch Maháls, and is explained as follows :—

Surat.—Rs. 3,716-3-9 due on account of certain lands in the villages of Bet and Adájan washed away by the river Tapti.

Rs. 1,255-8-0 on account of the settlement due from the Peta (Sub) Inám lands in the villages of Jamálpur and Virwádi of the Jalálpur Táluka, which have been declared to be of the Bandhi (fixed) Jama tenure.

Broach.—Rs. 1,780-4-2 due on account of land become unfit for cultivation, the holders of which are unable to pay.

Panch Mahâls.—Rs. 947-1-11, being the difference between the higher rate (4 annas) of the Summary Settlement cess recoverable from the Desáis of Dohad and that (2 annas) finally decided upon. This amount will be written off.

Doubtful and Disputed.

24. Under this head the only district which shows any balance is Ahmedabad, and of the large sum of Rs. 5,508-11-6 the collection of Rs. 4,551, being the Jama of the village of Hirápur, has been held in abeyance under Government Resolution No. 5708, dated 14th July 1884. The remainder is pending litigation in the Civil Courts.

25. The dates for the payments of the revenue instalments were altered in 11 villages in Surat and 1 in Broach from kharíf to rabi, as the villagers represented that the principal products in them were hot weather crops.

Appendix No. IV.

26. Appendix No. IV. shows the processes adopted for the realization of land revenue. As compared with the previous year it appears that a considerably larger number of notices were issued in Ahmedabad, Kaira, the Panch Mahâls and Thána, but except in the Panch Mahâls and Thána the number of instances in which the one-fourth penalty was levied is small, particularly in Kaira; indeed in this district the severer forms of pressure are found to be necessary in comparatively rare instances. The Panch Mahâls District is exceptional in the contrary direction, but in all other districts the powers conferred for the realization of the revenue are moderately exercised.

Advances under the Land Improvement Act.

Appendices Nos. V., VII. and IX.

27. From the appendices named in the margin it will be seen that an advance of Rs. 900 was made in Ahmedabad during the year under report for the construction of wells, and that Rs. 75 were collected in Surat on account of advances in previous years, leaving Rs. 1,287-8-0 outstanding for collection in future.

Ordinary Takávi Advances.

Appendices Nos. VI., VIII. and X.

28. No fresh advances under this head were granted in any of the districts of this Division. The sum of Rs. 101-8-0 in Thána, left over for collection in the current year, has been recovered. Out of the outstanding balance (Rs. 75) in Kaira an instalment of Rs. 25 due this year has been recovered. A balance of Rs. 50 only now remains for collection in future.

Huzúr Form No. 18.

Appendix No. XI.

29. As compared with the preceding year the realizations under the heads "Interest" and "Miscellaneous items" (Financial Head 24) show an increase of Rs. 2,360. In consequence of the abolition of Huzúr Form No. III., the details given last year under the latter head are not obtainable and have not been given.

Village and District Hereditary Allowances.

Appendix No. XII.

30. Huzúr Form No. 20 K. is a comparative statement of the allowances of Village and District Hereditary Officers and of allowances of a miscellaneous nature for the years 1885-86 and 1884-85. The result is a net decrease of Rs. 1,278-5-4. The various fluctuations are explained below.

Items appearing in Táluka Form No. 20.

31. The decrease of Rs. 1,157-8-1 in "Málvero" is due to the whole of the balance under this head in the Panch Mahâls having been struck off the

accounts in accordance with Government Resolution No. 4807, dated 21st December 1881. The fluctuations under "Patels" and "Village servants useful to Government" are mostly on account of cash payments in lieu of lands having been sanctioned in the districts of Ahmedabad and Broach.

Items appearing in Táluka Form No. 21.

32. The fluctuations under this head are owing to the Desáis of Godhra, Dohad and Kálol having accepted the Watan settlement, *vide* Government Resolution No. 10197, dated 19th December 1885.

Items appearing in Táluka Form No. 22.

33. The fluctuations under this head are principally due to the lapses of girás allowance on the death of life-holders, to the revival of certain Devasthán allowances in the Thána District and to the Waje from the Maleki villages in Kaira having increased in proportion to the revenue of those villages.

34. The area and assessment of all occupied lands, also of lands relinquished and taken up for cultivation during the year as compared with the preceding year, are shown in Huzúr Form No. 21 L., and a supplemental statement is appended, showing the causes of the fluctuations in the area under cultivation. The following is a brief abstract of the divisional totals under each head:—

Appendices Nos. XIII. and XIV.

Year.	Occupied Land.		Land taken up.		Land bought in by Government of Revenue Defaulters.		Land thrown up.	
	Area.	Assessment.	Area.	Assessment.	Area.	Assessment.	Area.	Assessment.
	A. g. a.	Rs. a. p.	A. g. a.	Rs. a. p.	A. g. a.	Rs. a. p.	A. g. a.	Rs. a. p.
1885-86	43,29,119 36 10½	80,20,476 4 1	73,937 0 7½	77,137 3 4	972 14 8	2,736 13 0	23,059 11 3½	31,831 0 2
1884-85	42,79,214 21 14½	79,77,907 2 11	1,65,751 12 7½	73,893 15 9	847 24 4	821 9 0	63,066 32 8½	37,346 12 5
Increase	49,905 14 12	42,569 1 2	....	3,243 3 7	124 30 4	1,915 4 0	....	....
Decrease	....	....	91,814 12 ½	....	.....	....	40,007 21 5	5,515 7 3

35. It will be seen from paragraph 37 of the last year's report that owing to certain adjustments in the area of lands relinquished and taken up in Ahmedabad, the Panch Maháls and Kaira, the figures of that year did not exhibit the actual results. This year again it has been necessary to add similarly 17,049 acres 24 gunthás of Tálukdári and Mehwási lands in Ahmedabad and 2,409 acres 9 gunthás in the Panch Maháls. Omitting these adjustments it will be seen that Kaira, Panch Maháls, Surat and Thána exhibit an aggregate increase of 8,064 acres in lands taken up against a decrease of 6,027 acres in Ahmedabad and Broach, giving a net increase of 2,174 acres; while in lands thrown up, Ahmedabad, Panch Maháls, Broach and Surat show an aggregate decrease of 4,246 against an increase of 526 acres in Kaira and Thána, being a net decrease of 3,720 acres. The following figures compare the area taken up for cultivation with that thrown up during the year under report:—

	Taken up.	Thrown up.
Ahmedabad	13,831	8,619
Kaira	9,547	3,953
Panch Maháls	16,404	4,531
Broach	2,376	657
Surat	9,421	2,267
Thána	364	174

These results are eminently satisfactory, more especially in the Panch Maháls.

36. The area and assessment of lands assigned for special and public purposes are shown in Huzúr Form No. 25 P. and its abstract. The aggregate quantity of land thus set apart amounts to 77,554 acres of assessed and 11,18,736 of unassessed, making a total of 11,96,290 acres. The largest portion of this is taken up by forest and by land assigned as pasture and standing ground for cattle.

Appendix No. XV.

37. Form 26 A. remains the same as last year. No. 26 B. has been slightly altered and expanded. The former shows the number and extent of holdings in surveyed Government rayatwári villages, including the Narvadári and Bhágdári villages in Kaira and Broach. In this form khálsa and inám occupancies were shown separately for the first time in last year's report, and owing to a variety of reasons, the chief of which was that many persons have both alienated and Government land in their occupancy, the details were not correctly given with respect to alienated holdings in four tálukás of the Thána District. The error has been corrected this year, which accounts for the increase in the number of these occupancies noticeable in that Collectorate.

Appendix No. XVI.

38. The area of Government occupancies, as exhibited in this statement, shows an increase due principally to extension of cultivation in every district except in Thána, where there is a decrease, which, however, is apparent only, and is due simply to the fact that khoti villages shown last year in this form have, in the current year's returns, been included in Form No. 26 B., to which they properly belong.

39. The fluctuations noticeable in the area of alienated holdings in Government villages, as compared with last year, are due principally to the fact that much alienated land included in Government survey numbers, was, during the year under report, separated into distinct alienated numbers.

40. The decrease in the average area of alienated holdings and in the average revenue per holding noticeable in the Thána District is explained by the increase in the number of occupancies noticed in paragraph 37 above.

41. Form 26 B. shows all villages other than strictly khálsa villages.

These are in the Northern Division—

1. Tálukdári.
2. Leased.
3. Khoti.
4. Udhád Jamabandi.
5. Mehwási.
6. Bandhi Jama, and
7. Inámi or alienated.

Alienated villages have for the first time been shown separately according to class of alienation. These changes were decided upon by the Commissioners in consultation.

42. As regards Huzúr Form No. IX., the question of entirely remodelling this form so as to meet the wishes of the Government of India regarding the submission of fiscal statistics to the Secretary or State (*vide* Government Resolution No. 2075 of 16th March 1886 and subsequent correspondence), is now before Government. The form meanwhile necessarily remains the same as last year.

Appendix No. XVII.

I have the honour to be,

Sir,

Your most obedient Servant,

G. F. SHEPPARD,

Commissioner, N. D.

LIST OF APPENDICES TO THE JAMABANDI REPORT OF THE NORTHERN DIVISION FOR 1885-86.

Appendix No. I.—Huzúr Form No. 10 A.—Contrasted Statement showing the Gross and net Land Revenue together with remissions and the Balances Outstanding.

Appendix No. II.—Supplement to Huzúr Form No. 10 A.—Statement exhibiting the minor items of Revenue entered in Column 22 of Huzúr Form No. 10 A.

Appendix No. III.—Huzúr Form No. 12 C.—Statement of Outstanding Balances of Land Revenue.

Appendix No. IV.—Statement showing processes issued for the realization of Land Revenue, and their results.

Appendix No. V.—Huzúr Form No. 13 D.—Contrasted Statement of Advances under the Land Improvement Act.

Appendix No. VI.—Huzúr Form No. 13 D. (I).—Contrasted Statement of ordinary Takávi Advances.

Appendix No. VII.—Huzúr Form No. 14 E.—Statement showing the objects for which Advances under the Land Improvement Act were granted.

Appendix No. VIII.—Huzúr Form No. 14 E (I).—Statement showing the objects for which ordinary Takávi Advances were granted.

Appendix IX.—Huzúr Form No. 15 F.—Statement of Outstanding Balances of Advances under the Land Improvement Act.

Appendix No. X.—Huzúr Form No. 15 F. (I).—Statement of Outstanding Balances of ordinary Takávi Advances.

Appendix No. XI.—Huzúr Form No. 18.—Statement of Sáyar Revenue (other than Abkári), from Interest and Miscellaneous Items (Financial Head XXIV).

Appendix No. XII.—Huzúr Form No. 20 K.—Contrasted Statement of Allowances of Village and District Hereditary Officers.

Appendix No. XIII.—Huzúr Form No. 21 L.—Contrasted Statement of Occupied Lands thrown out of, and Waste Lands taken up for, cultivation.

Appendix No. XIV.—Supplement to Huzúr Form No. 21 L.—Explanatory Statement of the causes of Increase and Decrease in the Area of Land thrown out of, and taken up for, cultivation.

Appendix No. XV.—Huzúr Form No. 25 P.—Statement showing the Details of Lands set apart for special and public purposes.

Appendix No. XVI.—Huzúr Forms Nos. 26 A. and B.—The former showing the number and extent of holdings in Surveyed Government Rayatwári villages with details of each district and the latter giving other varieties of tenure than Rayatwári with the number of estates and the area and revenue paid to Government under each variety of tenure.

Appendix No. XVII.—Huzúr Form No. 9.—Statement exhibiting the Average Incidence of Land Revenue for each district per Acre and per Head of Population in Surveyed Khálsa Rayatwári Villages.

G. F. SHEPPARD,
Commissioner, N. D.

BOMBAY: PRINTED AT THE GOVERNMENT CENTRAL PRESS.

JAMÁBANDI REPORT

FOR THE

CENTRAL DIVISION,

1885-86.

[*Price*—4 *Annas.*]

No. $\frac{R}{731}$ OF 1887.

FROM

ARTHUR CRAWFORD, ESQ.,
Commissioner, C. D.,

To

THE CHIEF SECRETARY TO GOVERNMENT,
Revenue Department.

26th February 1887.

SIR,

I have the honour to submit the Annual Report on the Revenue Settlement of the Collectorates of the Central Division, as per margin, for the year 1885-86, together with the appendices specified below :—

Poona.	Sholápur.
Ahmednagar.	Khándesh.
Sátára.	Násik.

Huzúr Form No. 10 A. — Appendix No. I.—Contrasted Statement showing the Gross and Net Land Revenue together with Remissions and the Balances outstanding.

Supplement to Huzúr Form No. 10 A. — Appendix No. II.—Statement showing the minor items of revenue entered in column 22 of the abovenamed statement.

Huzúr Form No. 12 C. — Appendix No. III.—Analytical Statement of Outstanding Balances of Land Revenue.

Process Statement. — Appendix No. IV.—Statement showing the processes employed in realization of Government dues.

Huzúr Form No. 13 D. — Appendix No. V.—Contrasted Statement of Advances made under the Land Improvement Act.

Huzúr Form No. 13 D. (I). — Appendix No. VI.—Contrasted Statement of Takávi Advances made under the rules prescribed under Section 4 of Act XV. of 1880.

Huzúr Form No. 14 E. — Appendix No. VII.—Statement showing the objects for which advances under the Land Improvement Act were given.

Huzúr Form No. 14 E. (I). — Appendix No. VIII.—Statement showing the objects for which advances under the rules prescribed under Section 4 of Act XV. of 1880 were given.

Huzúr Form No. 15 F. — Appendix No. IX.—Analytical Statement of Balances outstanding on account of advances made under the Land Improvement Act.

Huzúr Form No. 15 F. (I). — Appendix No. X.—Analytical Statement of Balances outstanding on account of advances made under the rules prescribed under Section 4 of Act XV. of 1880.

Huzúr Form No. 18 I. — Appendix No. XI.—Statement of realizations from (1) Interest, (2) Miscellaneous items (Financial Head XXIV.)

Huzúr Form No. 20 K. — Appendix No. XII.—Contrasted Statement of Allowances of Village and District Hereditary Officers, including Miscellaneous Allowances.

Huzúr Form No. 21 L. — Appendix No. XIII.—Contrasted Statement showing the area of occupied Land thrown out of and Waste Land taken up for cultivation.

Supplement to Huzúr Form No. 21 L. — Appendix No. XIV.—Explanatory statement of the reasons of increase and decrease in the area of land thrown out of, and taken up for, cultivation.

Huzúr Form No. 25 P. — Appendix No. XV.—Statement showing the details of land set apart for special and public purposes.

Huzúr Form No. 26 A. Appendix No. XVI (A).—Showing the number and extent of Holdings in Surveyed Government Rayatwári villages.

Huzúr Form No. 26 B. Appendix No. XVI.(B).—Showing other varieties of tenure than Rayatwári with the number of estates under each variety of tenure and the area and revenue paid to Government under each such variety.

Huzúr Form No. 9. Appendix No. XVII.—Statement showing the average Incidence of Land Revenue per Acre and per head of population in Surveyed Khálsa Rayatwári villages.

The Season.

2. The character of the season in each district of the Division was as follows:—

Poona. The rainfall throughout the district was above the average and seasonable. The average outturn of kharíf is estimated from 10 to 14 annas. The rábi crops were doing well. The public health was generally good during the season.

Ahmednagar. The rainfall was above the average and seasonable for the kharíf sowing throughout the district, but the crops which promised to be excellent were afterwards damaged by the heavy rains that fell in the months of September and October. The outturn of kharíf is estimated at 9 annas and 3 pies. For rábi crops the rain was sufficient and seasonable, though the seeds were washed off by heavy rains and had to be resown. The outturn is estimated at 12 annas all round. The public health was generally good.

Sátára. The rainfall was timely and sufficient throughout the district. The yield of kharíf harvest is estimated at from 10 to 14 annas, and the rábi crops are on the whole in a thriving condition. With the exception of a few isolated cases of cholera of a mild type in the Wái and Jávli Tálukas the public health was generally good.

Sholápur. The rainfall throughout the district was above the average, and though the untimely heavy rain of September and October caused some injury to standing crops here and there, especially to bájri, cotton, and linseed, the prospects of the season are, on the whole, fairly good. The outturn of both kharíf and rábi crops is estimated at 12 annas. The public health was good throughout the season.

Khándesh. The rainfall was timely and sufficient everywhere except in the tálukas of Sháháda, Pimpalner, Taloda and Nandurbár, where the kharíf crops generally suffered from want of rain and the rábi from excessive rain. The season on the whole is considered to be the best that Khándesh has had for several years. The yield of kharíf harvest is estimated from 12 to 14 annas and the rábi very promising. Small-pox and ague were prevalent to some extent in the tálukas of Sháháda, Taloda, Dhulia, and Sávda; and a few cases of cholera occurred in the Edalabad Táluka; otherwise the public health was good.

Násik. The rainfall was below the average in all the tálukas except Sinnar, Yeola, Nándgaon, and Málegaon. The season opened with scanty rain at the beginning, yet there was timely and sufficient rain throughout the district in the months of June and July to commence sowing of the kharíf crops. In August and September rain was seasonable and beneficial and the crops promised a good harvest; but the Elephanta downpour in September and October was excessive and injurious, especially to bájri. On the whole the season was fairly good and the kharíf outturn is estimated at annas 10 to 14. The rabi crops are very promising. With the exception of fever and ague in Násik and Peint the public health was good.

Villages.

3. The number of Government and alienated villages is entered in columns 3 and 4 of Huzúr Form No. 10A. The changes effected during the year under report are shown in the following contrasted table:—

No.	Districts.	Villages. 1885-86. Government.	Alienated.	Total.	1884-85. Government.	Alienated.	Total.	1885-86. Increase. Government.	Alienated.	Total.	Decrease. Government.	Alienated.	Total.
1	Poona	997¾	203¼	1,201	997¾	203¼	1,201	..	..	..	..	..	..
2	Ahmednagar	1,225	151	1,376	1,223	151	1,374	2	..	2	..	..	..
3	Sátára	960	396	1,356	960	396	1,356	..	..	..	..	..	..
4	Sholápur	663	54	717	663	54	717	..	..	..	..	..	..
5	Kháńdesh	3,223	111½	3,334½	3,223	111½	3,334½	..	..	..	..	..	..
6	Násik	1,512	184	1,696	1,512	184	1,696	..	..	..	..	..	..
	Total ..	8,580¾	1,099¾	9,680½	8,578¾	1,099¾	9,678½	2	..	2	..	..	..

4. It will be seen that, except in the Ahmednagar District, there has been no fluctuation during the year under report with regard to the number of villages. The increase of two villages in Ahmednagar is due to the following causes :—

(1) Constitution of the hamlet "Undirmal" in táluka Nagar of the Ahmednagar District into a separate village (*vide* Government Resolution No. 2873, dated 4th April 1884 (R. D.), sanctioning proposals for the revision of villages of the Nagar Táluka). These rates were introduced in 1885-86.

(2) Treatment of certain lands known as "Sheri Kasari" in the village of Randhe in táluka Párner of the Ahmednagar District as a separate village (*vide* Government Resolution No. 2164, dated 19th March 1886, Revenue Department).

Hamlets.

5. The following is a comparative table of Government and alienated hamlets :—

No.	Districts.	Hamlets. 1885-86. Government.	Alienated.	Total.	1884-85. Government.	Alienated.	Total.	1885-86. Increase. Government.	Alienated.	Total.	Decrease. Government.	Alienated.	Total.
1	Poona	925	155	1,080	925	155	1,080	..	..	..	..	..	..
2	Ahmednagar	557	72	629	558	72	630	..	..	..	1	..	1
3	Sátára	959	339	1,298	959	339	1,298	..	..	..	..	..	..
4	Sholápur	237	11	248	237	11	248	..	..	..	..	..	..
5	Kháńdesh	151	4	155	151	4	155	..	..	..	..	..	..
6	Násik	662	85	747	662	85	747	..	..	..	..	..	..
	Total ..	3,491	666	4,157	3,492	666	4,158	..	..	..	1	..	1

It will be perceived that there has been no variation in the number of Government and alienated hamlets except in Ahmednagar. The decrease of one Government hamlet in Ahmednagar is due to the constitution of "Undermal" in táluka Nagar into a separate village as explained in the preceding para.

Land Revenue—Financial Results.

6. The subjoined table, being an abstract of Appendix No. I. Huzúr Form No. 10A., contrasts the financial results of the year's settlement with those of the preceding year for each district and for the Division :—

Collectorates.	Gross Revenue.		Alienations.		Government Revenue.		Public Works Revenue from Irrigation.

7. It will be seen from the above that the results of this year are satisfactory, inasmuch as the Government revenue and the amount for collection show considerable increase over the figures of the previous year. The fluctuations under each head will be readily perceived from the following table :—

Heads.	1885-86.	1884-85.	Increase.	Decrease.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Gross revenue	1,23,83,009 15 9	1,22,29,239 12 11	1,53,770 2 10	.....
Alienations	21,33,215 4 0	21,24,294 5 7	8,920 14 5	.....
Government revenue ...	1,00,97,624 15 6	99,59,246 2 11	1,38,378 12 7	.....
Public Works revenue from Irrigation	1,52,169 12 3	1,45,699 4 5	6,470 7 10	.....

Collections	1,00,15,146 1 4	98,48,178 10 1	1,66,967 7 3	.....
Balances on account of current year	31,485 15 11	62,306 14 3	.....	30,820 14 4
Balances on account of former years	16,568 8 6	41,237 3 8	.....	24,668 11 2

Gross Land Revenue.

8. As shown above there is an increase in the gross land revenue for the Division, which in the year under report amounts to Rs. 1,23,83,009-15-9 against Rs. 1,22,29,239-12-11 in the preceding year. The increase is made up as follows :—

	Increase. Rs. a. p.	Decrease. Rs. a. p.
Poona	.....	10,833 3 5
Ahmednagar	99,391 15 7	.....
Sátára	6,480 11 2	.....
Sholápur	13,953 10 0	.....
Khándesh	25,677 14 8	.....
Násik	19,099 2 10	.....
Total ...	1,64,603 6 3	10,833 3 5
Deduct—Decrease ...	10,833 3 5	
Net Increase ...	1,53,770 2 10	

Alienations.

9. These also have increased in the year of report by Rs. 8,920-14-5. In 1884-85 they stood at Rs. 21,24,294-5-7, while in 1885-86 they amount to Rs. 21,33,215-4-0 :—

	Increase. Rs. a. p.	Decrease. Rs. a. p.
Poona	.....	1,688 0 3
Ahmednagar	3,847 9 6	.....
Sátára	.....	1,401 5 0
Sholápur	22 14 7	.....
Khándesh...	4,334 1 5	.....
Násik	3,805 10 2	.....
Total ...	12,010 3 8	3,089 5 3
Deduct—Decrease ...	3,089 5 3	
Net Increase ...	8,920 14 5	

10. It will be observed that there is an increase under this head in the Ahmednagar, Sholápur, Khándesh, and Násik Districts, while Poona and Sátára show a decrease. In Násik the chief cause of increase is the introduction of revision survey which has enhanced the assessment of alienated holdings. The increase in Ahmednagar is accounted for partly by the enhancement of assessment consequent on the revision survey and partly by fluctuations in the revenues of co-shared villages. In Khándesh the increase is chiefly due to the variations in the annual revenue settlements of alienated villages on the revenues of which the share or dues of Government are calculated from year to year. The increase in Sholápur is very trifling and requires no explanation. The

decrease in Poona is principally due to the settlement of the allowances of village officers according to Wingate's scale and the consequent changes in the relative amounts of scale-judi and net inám. The decrease in Sátára is explained by the resumption of petty life holdings in the Karád Táluka and also by the re-settlement of judi in sundry different cases in which it was not properly calculated.

Government Revenue.

11. The Government revenue after deducting alienations amounted to Rs. 1,00,97,624-15-6 which, compared with the demand for the previous year, shows an increase of Rs. 1,38,378-12-7. This increase is made up as follows :—

Districts.	Increase. Rs. a. p.	Decrease. Rs. a. p.
Poona	.....	18,850 7 8
Ahmednagar	96,018 7 1	.....
Sátára	3,463 10 10	.....

PUBLIC WORKS REVENUE FROM IRRIGATION.

13. Under this head there is an increase in the year under report aggregating Rs. 6,470-7-10 as compared with the preceding year, the Poona and Sátára Districts showing more, and Ahmednagar, Sholápur, Khándesh, and Násik Districts showing less, as the revenue of the year from this source. The decrease in Ahmednagar, Sholápur, Khándesh, and Nasik—that in the last-named district being the largest—is due to less water having been taken for purposes of irrigation; while the increase in Poona and Sátára—that in the former being greater—is due to more water having been so utilized.

REMISSIONS.

14. The remissions granted during the year under report aggregated Rs. 50,992-14-3 against Rs. 48,760-10-7 in 1884-85, giving an increase of Rs. 2,232-3-8, which is mainly due to a comparatively large amount remitted this year in the Násik District in consequence of the introduction of revised survey rates. Remissions to the extent of Rs. 38,600-1-8 were granted in the Ahmednagar District in consequence of the revision survey, but the amount is smaller compared to the preceding year in which Rs. 40,647-7-8 were remitted. The amounts remitted in other districts are small and call for no special remark.

15. The subjoined statement shows the remissions granted in each district during the current and the preceding years and the grounds which justified their grant:—

Items.	Poona.		Ahmednagar.		Sátára.		Sholápur.		Kha'ndesh.		Násik.		Total.

Collections and Current Year's Balances.

16. Deducting the public works revenue from irrigation and the remissions of the year the land revenue for collection is Rs. 1,00,46,632-1-3 or Rs 1,36,146-8-11 in excess of that of the preceding year. Of this sum Rs. 1,00,15,146-1-4 were collected within the year, leaving Rs. 31,485-15-11 as an outstanding balance at the close of the year. Násik shows the largest balance and Ahmednagar the next largest.

17. The subjoined table will show the amount of outstanding balances that has been either collected or written off since the close of the year and up to the date of the Collector's reports :—

District.	Collected.	Written off.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
Poona	.....	.....	.....
Ahmednagar	4,550 8 10	152 8 0	4,703 0 10
Sátára	59 0 9	.....	59 0 9
Sholápur	.....	.....	.....
Khándesh	2,367 8 11	.....	2,367 8 11
Násik	2,977 7 4	.....	2,977 7 4
Total ...	9,954 9 10	152 8 0	10,107 1 10

From the above table it will be seen that of the sum of Rs. 31,485-15-11, Rs. 10,107-1-10 have since been collected or written off the books, thus reducing the balances to Rs. 21,320-2-1, the greater portion of which is recoverable.

18. In none of the districts in this Division except Ahmednagar was it found necessary to alter the dates fixed for the levy of revenue instalments. In Ahmednagar the levy of the rabi instalments had, owing to the lateness of the crops, to be deferred—of the first instalment to 10th March and of the second instalment to 10th April—in the tálukas of Sangamner and Ráhuri.

Former Years' Balances.

19. These amounted at the beginning of the year to Rs. 1,03,544-1-11, but by collections and adjustments as shown in the margin they were, by the end of the year, reduced to Rs. 16,568-8-6; and of this sum there were further collected and written off Rs. 761-15-3 as shown in the margin, thus reducing the balances outstanding at the date of the Collectors' reports to Rs. 15,806-9-3.

Total ...	753 7 0	8 8 3	761 15 3

20. Appendix No. III.—Huzúr Form No. 12 C.—gives an analysis of the outstanding balances in the several districts. The total amount may be classified as under ;—

	Current year.	Former years.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
Recoverable	28,306 3 2	3,985 11 3	32,291 14 5
Irrecoverable	2,183 2 7	10,895 13 9	13,079 0 4
Doubtful and disputed ...	996 10 2	1,686 15 6	2,683 9 8
Total ...	31,485 15 11	16,568 8 6	48,054 8 5

21. Of the irrecoverable balances of former years amounting to Rs. 10,895-13-9, Rs. 6,963-7-5 are on account of the Ahmednagar District, while Rs. 3,310-0-2 refer to Sholápur. The outstandings in Ahmednagar are chiefly leviable from indigent rayats in the Sangamner and Kopargaon Tálukas and there is little chance of recovering the dues. Steps are being taken to write-off the arrears after a full and detailed enquiry into the condition of each defaulting rayat. The outstandings in Sholapur are on account of lands taken up for the Pángaon Tank in the Bársi Táluka and have been borne on the books since 1879. The Collector has been asked to submit a separate report on the subject, and the matter will be disposed of in due course. The irrecoverable balances for the current year, aggregating Rs. 2,183 2-7, are made up of petty sums in the four districts of Ahmednagar, Poona, Násik, and Khándesh, and call for no comment.

22. The sum of Rs 1,677-1-5 on account of former years' balances entered as " Doubtful and Disputed " against the Poona District is leviable on account of the summary settlement judi in respect of the kuran of Ambegaon in the Haveli Táluka. There is a long-standing dispute between certain Gowlis and Rastia concerning the proprietorship of a portion of this kuran, and the Gowlis decline to pay the judi pending the final settlement of the dispute. The matter will, it is hoped, be set at rest before long.

23. Appendix No. IV. shows the various processes employed in the realization of the revenue during the year under report. The particulars are contrasted with those of the previous year in the subjoined statement :—

Districts.	Notices under Section 152 of Act V. of 1879.			One-fourth penalty under Section 148.		Distraint and sale of moveable and immoveable property other than land under Sections 154 and 155.

Decrease ..		..	....	....	....	988 17 4	1,283 14 2	....	....

24. It will be seen from the foregoing statement that although the number of notices issued during the year is less than in the preceding year, the amount of notice-fee recovered shows a considerable increase. This increase is chiefly traceable to the Ahmednagar and Sátára Districts. The decrease in the number of notices for the Division is mainly due to the striking diminution perceptible in Khándesh.

25. The amounts recovered on account of penalty and sums realized by sale of moveable property do not exhibit any striking variations.

26. The solitary case of the sale of immoveable property other than land occurred in the Nandurbár Táluka of the Khándesh District. In this case the occupant has left the village for good, and as there seemed no prospect of his ever returning, the Collector deemed it prudent to order the sale of his house in addition to forfeiture and sale of the land.

27. It will be apparent from column 22 of Appendix IV. that land assessed at Rs. 8,123 was declared forfeited during the year under report as compared to land assessed at Rs. 3,366 similarly dealt with in the preceding year. The increase is mainly perceptible in the Ahmednagar District.

28. On the whole it may be stated that compulsory processes have been resorted to with discretion and that the figures disclose no extraordinary fluctuations except perhaps in Ahmednagar, where it seems that a greater amount of coercion was found indispensable, partly owing to contumacy of the rayats and partly to the necessity of selling up such occupants as were hopelessly insolvent.

Tagai.

29. The transactions under this head are given in Appendices Nos. V. and VI., which are in Huzúr Form No. 13 D. The former of these relates to advances under the Land Improvement Act, and the latter to advances for ordinary agricultural purposes.

30. It will be observed that advances under the Land Improvement Act were given in the year of report in the four districts of Ahmednagar, Sátára, Sholápur and Násik, and the sum advanced was Rs. 9,904, of which Rs. 7,779 were given in the Sholápur District alone. The balances of former years remaining for collection at the close of last year amounted to Rs. 20,258-7-3, and this added to the sum advanced in the current year gives a total of

Rs. 30,162-7-3 to be accounted for. Of this total there were collected during the year—

	Rs.	a.	p.
On account of current year's advances	213	0	0
„ former years' advances	7,545	8	3
	7,758	8	3
And written off as irrecoverable in Poona on account of former years' advances	157	3	0
Making a total of	7,915	11	3

leaving on 1st August 1886 for recovery—

On account of current year's advances	9,691	0	0
„ former years' advances	12,555	12	0
Making a total of	22,246	12	0

31. The advances for ordinary agricultural purposes were given in the current year in all districts except Poona, and amounted to Rs. 5,872, the largest sums appearing against the Khándesh and Ahmednagar Districts. The balances of former years remaining to be collected at the close of the last year amounted to Rs. 43,552-9-7, so that the total to be accounted for is Rs. 49,424-9-7. Of this sum there were collected during the year—

	Rs.	a.	p.
On account of current year's advances	540	11	0
„ former years' advances	14,998	2	6
And were written off as irrecoverable in Poona, Ahmednagar, Sholápur and Khándesh on account of former years' advances	888	4	3
or a total of Rs.	16,427	1	9

leaving for recovery on 1st August 1886—

	Rs.	a.	p.
On account of current year's advances	5,331	5	7
„ former years' advances	27,666	2	3
or a total of Rs.	32,997	7	10

32. Appendices Nos. VII. and VIII. Huzúr Form No. 14 E.—The former relating to advances under the Land Improvement Act and the latter to ordinary advances show the objects for which the advances were given under each head, the instalments due and the recoveries made during the year.

33. From Appendix No. VII. it will be observed that of a total to be accounted for of Rs. 30,162-7-3, there were collected during the year—

	Rs.	a.	p.
On account of instalments due in the current and future years in payment of advances made in present or former years ...	6,221	13	0
On account of instalments which fell due in former years ...	1,536	11	3
or a total of Rs.	7,758	8	3
And were written off on account of instalments which fell due in past years	157	3	0
or an aggregate of ... ...Rs.	7,915	11	3

and that the balances outstanding on 1st August 1886 were—

	Rs.	a.	p.
On account of instalments which fall due in future years ...	19,328	8	0
„ „ „ due in the current year ...	2,326	0	0
And which fell due in former years	592	4	0
or a total of Rs.	22,246	12	0

34. Appendix No. VIII. shows that of a total of Rs. 49,424-9-7 to be accounted for, there were collected during the year—

	Rs.	a.	p.
On account of instalments due in the current and future years in payment of advances made in present and former years ...	12,322	0	3
On account of instalments which fell due in former years ...	3,216	13	3

and were written off as irrecoverable on account of instalments which fell due in past years:—

	Rs.	a.	p.
Poona	488	8	6
Ahmednagar	353	8	0
Sholápur	33	6	6
Khándesh	17	13	3
or a total of ...	16,427	1	9

leaving the following balances outstanding at the close of the year, *viz.*:—

	Rs.	a.	p.
On account of instalments which fall due in future years ...	23,374	6	6
" " " due in the current year ...	3,248	0	9
And which fell due in former years	6,375	0	7
or a total of ...	2,997	7	10

35. Appendices Nos. IX. and X., drawn up in Huzúr Form No. 15 F, give the distribution of the balances at close of the year under the headings "Recoverable," "Irrecoverable," and "Doubtful and Disputed." It will be observed that the balances outstanding are all considered to be recoverable.

36. In the marginal table are shown the recoveries made up to the date of the Collectors' reports from the sums outstanding under each head at the close of the year. They reduce the balances on account of advances under the Land Improvement Act from Rs. 22,246-12-0 to Rs. 20,742-6-0 and the balances on account of advances for ordinary agricultural purposes from Rs. 32,997-7-10 to Rs. 25,906-3-0.

Reduction of Assessment.

37. In none of the districts in this Division, except Poona, was it found necessary to reduce the survey assessment under the authority of Government Resolution No. 3374, dated 24th July 1871. The cases in Poona are noted in the subjoined table:—

Táluka.	On what account.	Amount reduced.	Remarks.
		Rs. a. p.	
Junnar	Water-cess	2 0 0	
Ditto	Ditto	39 8 0	
Purandhar	Ditto	18 0 0	*Vide* Government Resolution No. 5197 of the 25th June 1835, R. D.
	Total ...	59 8 0	

38. Appendix No. XI.—Huzúr Form No. 18 I.—is a statement giving in detail the realizations from (1) Interest, and (2) Miscellaneous Items (Financial Head XXIV). The revenue realized under these heads amounts to Rs. 9,122-11-1 against Rs. 10,175-7-4 in the preceding year, giving a net decrease of Rs. 1,052-12-3. The decrease is due chiefly to smaller receipts under some of the sub-heads, *i.e.* Treasure Trove; Bribe to Government servants; Travellers' Bungalow Fee; Unclaimed deposit, &c.

VILLAGE AND DISTRICT HEREDITARY ALLOWANCES.

39. Appendix No. XII.—Huzúr Form No. 20 K.—is a comparative statement of the allowances of Village and District Hereditary Officers and of allowances of a miscellaneous nature. The comparative results exhibit a net increase of Rs. 11,225-12-0, and the various fluctuations may be briefly explained as follows:—

Items appearing in Táluka Form No. 20.—The large increase in the allowances of Pátils and Kulkarnis amounting to Rs. 3,709-8-5 in the case of the former and Rs. 5,455-14-9 in the case of the latter is principally due to the decennial revision of these allowances effected in the Khándesh District. The increase of Rs. 407-13-6 and Rs. 331-4-0 under contingent and chávdi expenses respectively is traceable to the same cause. The increase of Rs. 838-10-11 in the case of village servants useful to Government, which chiefly occurs in the Khándesh and Sátára Districts, is attributable to certain allowances payable to Bheels in the Pimpalnair Táluka of the Khándesh District on account of 1884-85 having been paid during the year under report, and to the grant of cash allowances to "Gadkaris" in the alienated village of Yelávi in Táluka Tásgaon of the Sátára District which was resumed last year. Under village servants useful to the community the increase is small and calls for no remark.

Items appearing in Táluka Form No. 21.—Under this head the decrease in the item "Hereditary Officers who have accepted the watan settlement" is chiefly accounted for by the settlement of the allowances of District Hereditary Officers in respect of certain villages in the Chandore and Niphád Tálukas ceded by His Highness the Holkar in 1865. The settlement was made on an average of 5 years and sanctioned in Government Resolution No. 5299, dated 29th June 1885, R. D. The increase which mainly occurs in the Poona District is due to the entry in our accounts of allowances held by District Officers in alienated villages which have lapsed to Government.

Items appearing in Táluka Form No. 22.—The large increase under "Political Pensions" is due to the transfer of four pensions amounting in the aggregate to Rs. 405 per month from the Madras Presidency to the Poona District and to the payment for 6 months of a Political pension of Rs. 700 per month to Sháháji Ráje Bhosle under Government Resolution No. 7387, dated 14th December 1886. The decrease under "Amals" is explained by larger sums due on account of previous years having been disbursed in Poona during 1884-85 than during the year under report; while the increase under the same head which is chiefly apparent in Sholápur is accounted for by the results of a re-settlement of allowances on the expiry of the fixed term. The decrease under "Dharmádáyá" allowances is due chiefly to lapses owing to deaths of life recipients in Poona, Ahmednagar, Sátára, and Násik Districts, while the increase and decrease under the heads "Subha &c.," and "Gram &c.," respectively, are attributable to a book adjustment by which items erroneously appearing under the latter were transferred to the former head. The fluctuations under the remaining heads are unimportant and call for no explanation.

40. Appendices No. XIII. and No. XIV.—Huzúr Form No. 21 L.—shows the area and assessment of all occupied lands, also of lands thrown out of and taken up for cultivation during the years 1885-86 and 1884-85 in each Collectorate; and the supplemental statement exhibits the causes in detail of the fluctuations in the area of lands relinquished and taken up for cultivation. The following is a brief abstract giving the total occupied lands, the lands resigned and taken up, and lands of revenue defaulters bought by Government; as also the increase and decrease under each head:—

Year.	Occupied Land.		Lands taken up.		Lands bought in by Government of Revenue Defaulters.		Lands thrown up.	
	Area.	Assessment.	Area.	Assessment.	Area.	Assessment.	Area.	Assessment.
	A. g. a.	Rs. a. p.	A. g. a.	Rs. a. p.	A. g. a.	Rs. a. p.	A. g. a.	Rs. a. p.
1885-86...	12,637,505 4 4	90,68,247 15 1	252,434 24 6	2,06,170 7 5	8,224 6 12	5,097 12 0	122,399 15 10	66,657 12 5
1884-85...	12,515,694 2 4	89,33,833 0 1	239,732 24 11	1,86,349 6 4	2,601 8 0	1,447 13 9	77,861 35 8	40,538 5 8
Increase	121,811 2 0	1,34,414 15 0	12,701 39 11	19,821 1 1	5,622 38 12	3,649 14 3	44,537 20 2	26,119 6 9
Decrease	.....	.....	.....	.....	.....	.....	.....	.....

41. The large increase in the area of land "thrown up" (columns 5 and 6 of Appendix No. XIII.) is distributed over all the Collectorates of the Division except Poona, and is principally due to the survey operations and the transfer of lands to the Forest Department. The increase in the area of land "taken up" (columns 13 and 14 of Appendix No. XIII.) is found in Ahmednagar, Sholápur, and Násik, and is principally due to the survey operations. There is an increase also in the area of lands bought in by Government, which is due to the unusually large number of cases of forfeiture under Section 153 of the Land Revenue Code that occurred in Ahmednagar, Khándesh, and Násik. The area of occupied land at the close of the year under report, however, shows an increase of 121,811 acres over that of the previous year, a result which is certainly satisfactory as showing that more land was taken up during the year than was both resigned and bought in by Government.

42. Appendix No. XV.—The area and assessment of lands assigned for special and public purposes are set forth in detail in Huzúr Form No. 25P. to which an abstract is appended. The aggregate quantity of land thus set apart amounts to 822,282 acres of assessed land and 2,132,035 acres of unassessed area, making a total of 2,954,317 acres. No less than 1,758,366 acres of this is, however, under forest.

43. Appendix No. XVI. (A. and B.)—Huzúr Form No. 26—is now rendered in two parts: one (A) dealing with the number and extent of holdings in surveyed Government and alienated villages in which the Rayatwári tenure exists and the other (B) with the area held on tenures other than Rayatwári. These statements have already been forwarded to the Director of Agriculture for incorporation in the General Administration Report and copies of them are now appended to this report.

44. Appendix No. XVII.—Huzúr Form No. 9—shows the average incidence per area of the Government demand on the total culturable area and on the area under cultivation in the year under report, as also the incidence per head of population. The figures for the Division are:—

	1885-86.	1884-85.
	Rs. a. p.	Rs. a. p.
For total area	0 8 2	0 7 11
For cultivated area only	0 11 7	0 11 5
Per head of population	2 1 7	2 3 1

The difference exhibited by the above table is insignificant and calls for no special remarks.

45. It will be observed that the incidence of the Government demand under all the heads is highest in Khándesh and lowest in Sholápur.

I have the honour to be,
Sir,
Your most obedient Servant,
ARTHUR CRAWFORD,
Commissioner, C. D.

JAMÁBANDI REPORT

FOR THE

SOUTHERN DIVISION,

1885-86.

[*Price*—4 *Annas.*]

No. 316 OF 1887.

FROM

W. H. PROPERT, ESQ.,
Commissioner, Southern Division;

To

T. D. MACKENZIE, ESQ.,
Acting Chief Secretary to Government,
Revenue Department,
Bombay.

Camp Amba Ghát,
Dated 11th February 1887.

SIR,

I have the honor to submit the annual report on the revenue settlement of the districts of the Southern Division for the year 1885-86 together with the following appendices :—

No. I.—Huzúr Form No. 10 (A.)—Contrasted Statement of the Gross and Net Land Revenue together with Remissions and the Balances outstanding.

No. II.—Supplement to Huzúr Form No. 10 (A.)—Statement exhibiting the minor items of Revenue entered in Column 22 of Huzúr Form No. 10 (A).

No. III.—Huzúr Form No. 12 (C.)—Statement of Outstanding Balances of Land Revenue.

No. IV.—Statement showing Processes issued for the realization of Land Revenue, and their results.

No. V.—Huzúr Form No. 13 (D.)—Contrasted Statement of Advances made under the Land Improvement Act.

No. VI.—Huzúr Form No. 13 (D.) I.—Contrasted Statement of Advances made under the Agriculturists' Loans Act.

No. VII.—Huzúr Form No. 14 (E.)—Statement showing the objects for which Advances under the Land Improvement Act were given.

No. VIII.—Huzúr Form No. 14 (E.) I.—Statement showing the objects for which Advances under the Agriculturists' Loans Act were given.

No. IX.—Huzúr Form No. 15 (F.)—Statement of Outstanding Balances of Advances under the Land Improvement Act.

No. X.—Huzúr Form No. 15 (F.) I.—Statement of Outstanding Balances of Advances under the Agriculturists' Loans Act.

No. XI.—Huzúr Form No. 18 (I.)—Statement showing Realizations from Interest and Miscellaneous Items under Financial Head XXIV.

No. XII.—Huzúr Form No. 20 (K.)—Contrasted Statement of Allowances of Village and District Hereditary Officers.

No. XIII.—Huzúr Form No. 21 (L.)—Contrasted Statement of Occupied Lands thrown out of, and Waste Lands taken up for, cultivation.

No. XIV.—Supplement to Huzúr Form No. 21 (L.)—Explanatory of the reasons of Increase and Decrease in the area of Land thrown out of and taken up for cultivation.

No. XV.—Huzúr Form No. 25 (P.)—Statement showing the details of Lands set apart for special and public purposes.

No. XVI.—Huzúr Forms Nos. S. 26 (A.) and (B.)—The former showing the number and extent of Holdings in Surveyed Government Rayatwári Villages with details of each District; and the latter showing the other varieties of tenure and the area and Revenue paid to Government under each such variety.

No. XVII.—Huzúr Form No. 9.—Statement showing the average incidence of Land Revenue for each Táluka of the District per acre and per head of population in Surveyed Khálsa Rayatwári Villages.

Season.

2. The character of the season in each district of the Division was as follows:—

Belgaum. The rainfall was copious throughout the district at the first burst of the monsoon, but subsequently scanty in many parts, and at one time great apprehensions were entertained about the prospects in the north-east, where much land usually devoted to kharíf cultivation remained unsown, and what was sown suffered from want of seasonable rains. The heavy falls which occurred in September proved beneficial and secured the rabi crops. The yield of both the kharíf and rabi crops, especially of wheat and rice, was fair in the Belgaum, Khánápur, Parasgad, and Athní Tálukas.

Bijápur. In the beginning of the year it was feared that the bad season of 1884-85 would be followed by a worse, but the heavy falls in September and October removed all cause for anxiety, and the outturn of kharíf crops was from 3 to 6 annas, and of rabi from 8 to 12 annas. On the whole, the season was a fairly favourable one.

Dhárwár. The rainfall at most of the stations exceeded the average of the preceding 5 years, and in all it was considerably more than in the last year. Owing to the deficient rainfall at the beginning of the year the outturn of rice and other kharíf crops was scanty. The later heavy rains benefited the rabi crops, which yielded an abundant harvest.

Kánara. The rainfall though much below the average was sufficient. Garden cultivation thrived well, and the season was on the whole a favourable one.

Kolába. Though the rainfall was a little below the average, the season was generally a favourable one. The average yield was estimated at about 12 annas for the whole district.

Ratnágiri. The monsoon commenced a fortnight earlier than usual in the northern and southern parts and in the other tálukás about the beginning of June. The rainfall was scanty in the second fortnight of June and first fortnight of July and September. In other fortnights it was abundant and sufficient. The outturn of crops was not much below the average.

Villages.

3. The number of Government and alienated villages in the several districts of the Division in the year under review and the previous year respectively is shown in the subjoined table:—

Territorial changes—Appendix No. I., Columns 3 and 4.

Districts.	Villages.						1885-86.					
	1885-86.			1884-85.			Increase.			Decrease.		
	Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.	Government.	Alienated.	Total.
Belgaum	893	240	1,133	894	239	1,133	...	1	1	1	...	1
Bijápur	1,011	165	1,176	1,010	193	1,203	1	...	1	...	28	28
Dhárwár	1,280	184	1,464	1,280	157	1,437	...	27	27	...	...	...
Kánara	1,313	...	1,313	1,287	...	1,287	26	...	26	...	...	...
Kolába	1,223	119	1,342	1,223	119	1,342	...	...	...	...	...	...
Ratnágiri	1,271½	64	1,335½	1,271½	64	1,335½	..	...	...	...	...	...
Total ...	6,991½	772	7,763½	6,965½	772	7,737½	27	28	55	1	28	29

The increase of one in the number of alienated villages and a corresponding decrease in the number of Government villages in the Belgaum District is due to the restoration to the Inámdárs of the village of Bedkihal, Táluka Chikodi, as sanctioned in Government Resolution No. 7284, dated 19th October 1882. The transfer of the 27 Gajendragad Inám villages from the Bádámi Táluka of the Bijápur District to the Ron Táluka of the Dhárwár District, as ordered in Government Resolution No. 3306, dated 23rd April 1885, and the lapse to Government of an Inám village held by the late holder during his lifetime, account for the changes observable in the Bijápur and Dhárwár Districts. The classification of some hamlets as villages at the time of the survey settlement has occasioned the increase of 26 in the number of Government villages in the Kánara District.

Hamlets.

4. The following comparative table shows the Government and alienated hamlets in the Division :—

Districts.	Hamlets.						1885-86.					
	1885-86.			1884-85.			Increase.			Decrease.

The fluctuations in Bijápur, Dhárwár, and Kánara are due to the reasons given in the preceding paragraph.

Land Revenue—Financial Results.

5. The following abstract of Huzúr Form No. 10 A. contrasts the financial results of the year's settlement with those of the preceding year for each district and for the Division :—

Districts.	Gross Revenue.		Alienations.		Government Revenue.		Public Works Revenue from Irrigation.

Balances on account of former years ...	26,349	11	1	26,803	15	7	.....			454	4	6

Gross Land Revenue.

6. There is an increase, as shown above, in the Government demand, amounting to Rs. 1,45,499-7-10, which is made up as shown below :—

	Increase.			Decrease.		
	Rs.	a.	p.	Rs.	a.	p.
Belgaum	1,14,458	5	9	.....		
Bijápur	2,128	7	6	.....		
Dhárwár	36,271	10	6	.....		
Kánara	15,416	0	2	.....		
Kolába	1,355	1	6	.....		
Ratnágiri	.....			24,130	1	7
Total ...	1,69,629	9	5	24,130	1	7
Deduct— Decrease	24,130	1	7	.....		
Net Increase ...	1,45,499	7	10	.....		

The causes which have occasioned this increase will be noticed under the head " Government Revenue."

Alienations.

7. These have also increased by Rs. 31,747-4-7. The fluctuations are as under :—

Districts.	Increase.			Decrease.		
	Rs.	a.	p.	Rs.	a.	p.
Belgaum	30,351	8	3	.....		
Bijápur	.....			7,123	4	0
Dhárwár	8,823	1	11	.....		
Kánara	.....			0	8	0
Kolába	.....			271	0	4
Ratnágiri	.....			32	9	3
Total ...	39,174	10	2	7,427	5	7
Deduct— Decrease	7,427	5	7	.....		
Net Increase ...	31,747	4	7	.....		

The increase in the Belgaum District is chiefly due to the introduction of revised survey rates in the Athni, Sampgaon, and Parasgad Tálukas, and to the

restoration of the village of Bedkihal to the Inámdárs. The transfer of the Gajendragad Inám villages accounts for the decrease in the Bijápur and the increase in the Dhárwár District. The decrease in Kolába is ascribed to the lapse of an Inám village to Government.

GOVERNMENT REVENUE.

8. The current demand, after deducting alienations, amounted to Rs. 80,29,235-15-5 against Rs. 79,11,192-5-10 in the previous year, thus showing an increase of Rs. 1,18,043-9-7 or 1·49 per cent. This increase occurs in all the districts except Rátnágiri, as shown below :—

	Increase.			Decrease.		
	Rs.	a.	p.	Rs.	a.	p.
Belgaum	85,696	3	6	.....		
Bijápur	9,392	11	6	.....		
Dhárwár	30,009	8	11	.....

By adoption of higher commutation rates for the Government share of revenue assessed in kind	2,617 13 9	
„ larger realizations from sale-proceeds of dry-wood and value of trees ...	275 7 6	
„ collection of revenue of attached and Dhára lands	217 4 4	
„ notice fees, ¼th fine, &c.	899 0 10	
„ increase in other miscellaneous items of revenue	1,071 15 9	
		5,081 10 2
Net Decrease ...		24,097 8 4

It will be seen from the foregoing explanations that the increase in land revenue in all the districts, except Ratnágiri, is due chiefly to enhancements at the revision survey to the extension of cultivation and to higher receipts from the sale of occupancy rights of waste lands, and from miscellaneous items of revenue. The decrease in Ratnágiri has principally resulted from the operations of the survey.

Public Works Revenue from Irrigation.

9. The revenue from irrigational works accrues only in the Belgaum, Bijápur and Dhárwár Districts and amounted to Rs. 4,599-9-7, being more than that of the preceding year by Rs. 308-3-3. The increase occurs chiefly in Dhárwár where a larger area of land was brought under irrigation.

Remissions.

10. Remissions of revenue granted during the year amounted to Rs. 1,44,894-9-9 against Rs. 1,36,510-2-3 in 1884-85. The amount is distributed as follows among the several heads shown in columns 25 to 33 of Appendix No. I.:—

	Rs.	a.	p.
1. Introduction of revision of survey	54,935	13	5
2. Failure of crops	109	0	0
3. Poverty, death, and desertion	664	0	2
4. Injury by fire and flood	459	10	0
5. Injury by other accidents	528	10	2
6. Other causes	88,197	8	0
Total ...	1,44,894	9	9

Of the sum shown against item No. 1, Rs. 20,017-8-1 pertain to Belgaum and Rs. 34,918-5-4 to Kánara. The whole of the former and Rs. 23,834-4-3 out of the latter represent the remissions granted owing to the introduction of the survey settlement. The balance of the sum in Kánara, *viz.* Rs. 11,084-1-1, was remitted under the orders contained in Government Resolution No. 5573 dated 21st October 1874 regarding the gradual assessment of the demand in certain cases. Remission of item No. 2 was allowed in Dhárwár only; No. 3 in all the districts of the Division except Kolába; No. 4 in the coast districts of Kánara, Kolába, and Ratnágiri; and No. 5 in Dhárwár and Kánara. Only two large sums appear under the last head "Other causes," which call for special remark. That against Bijápur, *viz.* Rs. 29,241-9-0, is on account of the temporary reduction of $1\frac{3}{4}$ annas in the rupee of the revised assessment of the Hungund, Bágalkot, and Bádámi Tálukas as sanctioned in Government Resolutions marginally quoted. The other sum against Kánara, *viz.* Rs. 58,250-8-7, is made up of the following items:—

*No. 5858, dated 7th August 1883.
No. 290, dated 11th January 1884.
No. 5749, dated 16th July 1884.

	Rs.	a.	p.
Nominal remissions retained in the accounts pending the completion of the survey settlement of the district ...	24,777	1	8
Assessment on lands taken up for special purposes ...	6,388	5	3
Do. on waste lands	26,749	11	7
Miscellaneous	335	6	1
Total ...	58,250	8	7

The two items of Rs. 6,388-5-3 and Rs. 26,749-11-7 ought not to have been shown as remissions. They ought to have been deducted from the gross revenue. I have drawn the attention of the Collector of Kánara to this point.

*Current Year's Collections and Balances.

11. Out of a demand of Rs. 78,84,341-5-8, exclusive of the Public Works Revenue from Irrigation and Remissions, there were realized Rs. 78,59,572-1-1, which exceeded the collections of the preceding year by Rs. 2,05,042-8-4, the percentage of collections being 99·7 against 98·4 in 1884-85. This result is highly satisfactory.

The sum that remained outstanding at the close of the year was Rs. 24,769-4-7, being Rs. 95,383-6-3 less than the balances on the corresponding date of the previous year.

The Rayats of a village in the Kod Táluka of the Dhárwár District having suffered from an accidental fire in February 1886 were allowed to pay in the 2nd instalment of land revenue due by them before the 31st July 1886. No action was taken in any other district under Rule 85 of the rules under the Land Revenue Code.

Vide G. R. No. 3757, dated 25th May 1886.

FORMER YEARS' COLLECTIONS AND BALANCES.

12. The outstanding balances from former years, the collections made and the amounts written off during the year, and the balance on 1st August 1876 are exhibited in the subjoined table:—

Districts.	Balance on 1st August 1885.	Amount collected.	Amount written off.	Balance on 1st August 1886.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Belgaum	4,536 6 8	293 7 9	.....	4,242 14 11
Bijápur	68,501 14 8	65,326 12 10	830 1 0	2,345 0 10
Dhárwár	5,375 12 3	1,727 6 11	204 12 0	3,443 9 4
Kánara	147 15 9	96 15 9	51 0 0	.....
Kolába	49 8 1	49 8 1	.....	.....
Ratnágiri...	68,345 1 0	32,208 5 7	19,818 9 5	16,318 2 0
Total ...	1,46,956 10 5	99,702 8 11	20,904 6 5	26,349 11 1

The result of the collections in Bijápur is very creditable to the District Officers. The large amount written off in Ratnágiri is principally due to the attachment expenses of Dhára lands being borne by Government.

Appendix No, III.

The entire balances, both for the current and former years, as they stood on 1st August 1886 in each district, were:—

Districts.	Current year.	Former years.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
Belgaum	601 10 1	4,242 14 11	4,844 9 0
Bijápur	1,251 9 7	2,345 0 10	3,596 10 5
Dhárwár	1,527 6 11	3,443 9 4	4,971 0 3
Kánara	336 5 10	.....	336 5 10
Kolába	.....	.....	.....
Ratnágiri	21,052 4 2	16,318 2 0	37,370 6 2
Total ...	24,769 4 7	26,349 11 1	51,118 15 8

These have been classified by the Collectors as:—

	Current year.	Former years.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
Recoverable	8,575 1 11	14,781 6 11	23,356 8 10
Irrecoverable	14,233 14 5	3,839 7 10	18,073 6 3
Doubtful and disputed	1,960 4 3	7,728 12 4	9,689 0 7
Total ...	24,769 4 7	26,349 11 1	51,118 15 8

The balances specified above have, since the close of the year, been reduced by collections and adjustments made up to the end of November 1886 to Rs. 46,911-12-5 as shown below :—

Districts.	Arrears at the end of July 1886.	Since collected up to 30th November 1886.	Since remitted or written off up to 30th November 1886.	Balance on 1st December 1886.			Remarks.

	51,118 15 8	....	....	....	....	....	

Out of the former years' balances shown against Belgaum Rs. 4,085-4-0 are due from the Bedkihal Inámdárs which, the Collector reports, will be adjusted when the accounts are made up. Measures are being taken for the levy of the recoverable balances in this district, as well as in Bijápur and Dhárwár, which are very small. The chief causes which have retarded collection in Ratnágiri are the settlement of Kowli lands and the recovery of the loss on direct management of Khoti villages from the Khots on their resuming the villages. The large irrecoverable balance in Ratnágiri is due to the attachment expenses of Dhára lands being borne by Government.

Compulsory Processes.

13. The various processes adopted for the realization of revenue are detailed in this appendix. The particulars are constrasted with those of the previous year in the following statement :— Appendix No. IV.

Districts.		Notices under Section 152 of Act V. of 1879.			One-fourth penalty under Section 148.		Distraint and Sale of Moveable and Immoveable Property other than Land under Sections 154 and 155.				Forfeiture and Sale of Occupancy under Section 153.							
		Number.	Amount of arrears on account of which notices were issued.	Amount of notice fees recovered.	Number of cases.	Amount levied.	Number of cases.	Arrears on account of which distraint was resorted to.	Arrears on account of which sale was resorted to.	Amount realized.	Number of cases.	Arrears on account of which forfeiture was resorted to. Increase or Decrease ...		—7,355	+53,981 0 4	+1,982 1 2	-93	—93 10 3	-167	-4,180 15 9	+839 2 11	-1,626 14 8	+5	+1,463 14 0	+1,064 35 4	+1,137 5 9	+365 22 12	+223 14 0	+452 27 4	+246 25 4

It will be seen from the foregoing statement that there is a fall in all the districts except Ratnágiri in the number of notices issued during the year under review. The increase in Ratnágiri is apparently due to the increased amount fixed for recovery, as well as to the numerous small holdings in that district. The amount of notice fees received exceeded, however, the realizations of the previous year by Rs. 1,982-1-2.

There was no occasion anywhere to resort to the extreme measure of arrest and imprisonment in the civil jail.

The penalties enforced under Section 148 of the Land Revenue Code amounted to Rs. 767-10-11 against Rs. 861-5-2 in 1884-85. It was inflicted in a greater number of cases in Kánara only.

There were 449 cases against 618 in 1884-85, in which moveable property was distrained to recover Rs. 13,849-13-1, out of which it was found necessary to effect sales for the recovery of Rs. 4,651-9-5 only. The sale-proceeds exceeded the arrears by Rs. 686-6-6.

In two cases only—one in Belgaum and the other in Ratnágiri—immoveable property other than land was sold to recover very insignificant amounts, viz. Rs. 3-3-0 in the former and Rs. 214-11-11 in the latter.

Lands were forfeited in a larger number of cases in Bijápur, Dhárwár, and Kánara. The arrears due were Rs. 1,990-13-1 against Rs. 526-15-1 in the previous year. Of the forfeited area amounting to 1,564 acres and 10 gunthas, assessed at Rs. 1,688-1-1, the right of occupancy of acres 586-9-8, bearing an assessment of Rs. 569-1-6 was sold to the public for Rs. 721-11-1, acres 485-33-4 were restored to the defaulters, and the balance—acres 492-7-4—eventually remained with Government.

Advances under the Land Improvement Loans Act, 1883.

14. The transactions under the above Act have been detailed in these appendices. The sums sanctioned by Government for advances under the above Act on the requisitions of the local officers were as shown in the margin, but the actual advances made were in Belgaum and Bijápur only, and amounted to Rs. 12,955 in the former and 500 in the latter. Out of the current year's advances, Rs. 1,882-8-0 were realized during the year, those in Bijápur falling due in future years. In repayment of former years' advances, there were collected in Belgaum Rs. 3,654, and in Dhárwár Rs. 100, the entire balance outstanding.

Appendices Nos. V. & VII.

G. R. No. 3453, dated 29th April 1885...For Belgaum Rs. 13,950
G. R. No., 3934 dated 16th May 1885...For Dharwár Rs. 500
Bijápur „ 12,000
Ratnágiri „ 500

The balances at the close of the year, both on account of the current and former years' advances, were Rs. 24,646 in Belgaum and Rs. 500 in Bijápur, and they are reported to be all recoverable.

Appendix No. IX.

Advances under the Agriculturists' Loans Act, 1884.

15. These appendices contain the same particulars as those relating to advances under the Land Improvement Loans Act. The sums sanctioned for the purposes of the Agriculturists' Loans Act in the *Resolutions already quoted above amounted for the entire Division to Rs. 36,400. Advantage was taken of this to the extent of Rs. 1,634 only, *viz.*:—

Appendices VI. & VIII.

*No. 3453 of 29th April 1885.
No. 3934 of 16th May 1885.

Rs. 1,260 in Belgaum } For the purchase of seed and animals.
„ 329 in Dhárwár }
„ 45 in Bijápur—For the purchase of fodder.

The collections made on account of the current and former years' advances aggregated to Rs. 4,582-5-0. The balance outstanding on 1st August amounted to Rs. 3,479-13-0. Of these—

Rs. 3,038-5-0 ... ... Fall due in future years.
„ 441-8-0 ... ... Fall due in the current year.

These are stated to be all recoverable.

Appendix No. X.

Since the close of the year the collections made up to the end of November 1886, both under the Land Improvement Loans Act and the Agriculturists' Loans Act, were as follows:—

	On account of current year.			On account of former years.		
	Rs.	a.	p.	Rs.	a.	p.
Belgaum ...	854	9	0	692	10	0
Bijápur ...	50	0	0	692	0	0
Ratnágiri ...	.....			2	8	0

Sayár Revenue.

16. Huzúr Form No. 18 I. is a statement showing the realizations from interest and miscellaneous items under Financial Head No. XXIV. The revenues derived from these two heads amounted to Rupees 15,504-11-5, which, added to the land revenue, raises the entire revenues of the Division to Rs. 78,99,846-1-1.

Appendix No. XI.

Village and District Hereditary Officers' Allowances.

17. Huzúr Form No. 20 K. is a contrasted statement showing the allowances to Village and District Hereditary Officers and allowances of a miscellaneous nature, being a compendium of items appearing in Táluka Forms Nos. 20, 21, and 22. Compared with the preceding year there is a net decrease of Rs. 4,797-8-11. The fluctuations are accounted for as follows:—

Appendix No. XII.

The increase is mainly due to the settlement of the allowances of village servants in consequence of the introduction of the revised survey rates in the Bijápur District.

Form No. 20.

The increase in the allowances payable to District Hereditary Officers who have not accepted the Vatan settlement is attributable to higher commutation rates and to the calculation of their dues on the survey rates.

Form No. 21.

The decrease in Dharmádáya and Political Pensions is due to lapses owing to death of recipients.

Form No. 22.

Culturable Area in Occupation &c.

18. Huzúr Form No. 21 L. shows the area available for cultivation, as also the area in occupation and the extent of land thrown out of and waste land taken up for cultivation, during the years 1885-86 and 1884-85 in each district of the Division. In the supplement to this Form are given the causes of the fluctuations in the areas of lands relinquished and taken up for cultivation. The following is a summary of the chief items entered in Appendix No. XIII. The figures relating to the unsurveyed portions of the Kánara and Ratnágiri Districts not being available, particulars regarding these portions have been omitted from the table:—

Appendix No. XIII.

Appendix No. XIV.

Years.	Total Area of Land available for cultivation.	Total Occupied Land.		Land thrown up.		Land forfeited to Government.		Land newly taken up.	
		Area.	Assessment.	Area.	Assessment.	Area.	Assessment.	Area.	Assessment.
	A. g. a.	A. g. a.	Rs. a. p.	A. g. a	Rs. a. p.	A. g. a.	Rs. a. p.	A. g. a.	Rs. a. p.
1885-86	6,988,731 3 2	6,494,647 11 2	59,49,554 5 11	20 321 26 5	32,204 14 9	567 30 12	541 9 0	81,137 3 9¾	1,44,235 3 8
1884-85	6,897,028 23 7½	6,370,595 8 5¼	57,37,262 3 9	15 625 29 15	36,317 15 9	191 30 8	145 5 6	277,909 39 9	95,331 9 4
1885-86.. Increase ..	91,702 19 10¾	124,052 7 12¾	2,12,292 2 2	4,695 36 6	....	376 0 4	396 3 6	....	48,903 10 4
1885-86.. Decrease ..	....	....	....	....	4,113 1 0	....	..	196,772 35 15½	...

The results as exhibited by the above table are satisfactory. It will be noticed that there is a large increase of 124,052-7-12¾ acres in the total area of land in occupation with a corresponding increase of Rs. 2,12,292-2-2

in assessment. This, however, represents the sum total of the land newly brought under survey, &c., and of waste land taken up for cultivation. The real increase is therefore 32,349 acres, by which figure the area of waste land available for cultivation has been reduced. The total area of land available for cultivation during the year was acres 6,988,731-3-2, out of which 494,083-32-0 acres or 7·06 per cent. is remaining still uncultivated.

The lands set apart for special and public purposes are noted in Húzur Form No. 25. The area of lands so assigned throughout the Division amounted to acres 152,275-27-0 of assessed and 2,255,137-8-10½ of unassessed land, thus making a total of 2,407,412 acres 35 gunthas and 10½ annas against 2,321,101-2 8¼ in 1884-85. The increase over the previous year is chiefly in lands assigned for forest reserves.

Appendix No. XV.

Extent of Occupancies.

19. Huzúr Form No. 26 has been divided into two parts. Part A. treats of the number and extent of occupancies including Inám holdings in surveyed Government rayatwári villages, and Part B. furnishes particulars regarding the number of estates held under each variety of tenure and the area and revenue paid to Government under each such variety.

Appendix No. XVI.

The following table gives a summary of the particulars embodied in Part A :—

Districts.	Total Number of Holdings.		Total Area.		Total Land Revenue.		Average Area of Holding.		Average Revenue demand per Holding.	
	Khálsa.	Inám.	Khálsa.	Inám.	Khálsa.	Inám.	Khálsa.	Inám.	Khálsa.	Inám.

Compared with the preceding year there is a fall both in the number of holdings and the total area in occupation. Taking the figures for each district separately, an increase rather than a decrease appears in almost all the districts except Bijápur and Ratnágiri. The decrease in the former district is due principally to the operations of the revision survey and in the latter to incorrect information having been supplied by the Collector last year.

The average incidence of land revenue per acre and per head of population in surveyed Government rayatwári villages as shown in this Appendix is respectively Rs. 0-11-1 and 2-2-11, the incidence on the cultivated area only being Rs. 0-15-6. This shows an increase over last year of Re. 0-2-2, 0-3-3, and 0-1-9 respectively, which is due to the full assessment (and not Judi only) on Inám lands being shown in column 5 as ordered by Government in their Resolution No. 4907 of 10th July 1886, paragraph 6. This improvement does not, however, fulfil the object of the form, which is to ascertain accurately the incidence per acre and per head of population. The full assessment instead of Judi, which is actually paid to Government on Inám lands being shown in this Appendix, the incidence per head of population cannot be said to be correct. As Government are however aware, steps are being taken to remedy this defect by revising the present Húzur Form No. 9.

Appendix No. XVII.

19. In conclusion, I trust that looking to the small amount remaining outstanding at the close of the year and the increase in land under cultivation, Government will regard the administration of the year as satisfactory.

I have the honour to be,
Sir,
Your most obedient Servant,
W. H. PROPERT,
Commissioner, S. D.

W. H. PROPERT,
Commissioner, S. D.

BOMBAY: PRINTED AT THE GOVERNMENT CENTRAL PRESS.

Annual Reports: Revenue Settlement Reports of the Divisions of the Presidency Proper, for 1885-86.

No. 5178.

REVENUE DEPARTMENT.

Bombay Castle, 8th August 1887.

Letter from the Commissioner, N. D., No. 383, dated 1st February 1887—Submitting the annual report on the Revenue Settlement of the Northern Division for the year 1885-86.

Letter from the Commissioner, C. D., No. R.—731, dated 26th February 1887—Submitting his annual report on the Revenue Settlement of the districts of the Central Division for the year 1885-86.

Memorandum from the Commissioner, S. D., No. 1081, dated 7th May 1887—Submitting his annual report, No. 316, dated 11th February 1887, on the Revenue Settlement of the districts of the Southern Division for the year 1885-86.

RESOLUTION.—It appears from these reports that the season was a very fair one. In the coast districts from Surat to Kánara, though the rainfall was generally below the average, the crops turned out favourably. In Kaira, Ahmedabad and Panch Maháls, more especially the latter, the failure of the later rains somewhat injured the crops, but their yield was satisfactory in the inland districts of both the Central and Southern Divisions, owing to a seasonable rainfall in the former and to heavy showers in September and October in the latter.

2. In the Northern Division changes in the number of Government and alienated villages were made only in Thána and Panch Maháls, in the former by the restoration of 5 villages to izáfatdárs and in the latter by the recognition of 3½ villages as a distinct tálukdári estate instead of an inám. 2 new Government villages were formed in Ahmednagar: 1 village in Belgaum was restored to inámdárs: 1 inám village in Bijápur lapsed to Government: and 26 new villages were constituted in Kánara in the course of the Survey Settlement operations.

3. There is a considerable increase in the areas returned as culturable (Appendix XIII.) throughout the three Divisions as compared with 1884-85. Of the increase however more than one lákh of acres is due to the erroneous return entered for Ahmednagar last year as pointed out in paragraph 3 of Government Resolution No. 4907 of 10th July. The rest of the difference is mainly due to survey operations in Kánara, Násik, and elsewhere. The increase owing to this cause is, as might be expected in a forest country, very considerable in Kánara. To the same cause also is due a certain portion of the increase in the occupied area as compared with 1884-85. The figures showing this increase, which are highly satisfactory, are as follows:—

DIVISIONS.	LAND OCCUPIED IN 1884-85.		LAND OCCUPIED IN 1885-86.		INCREASE.	
	Area.	Assessment.	Area.	Assessment.	Area.	Assessment.
	A.	Rs.	A.	Rs.	A.	Rs.
Northern Division	4,279,215	79,77,907	4,329,120	80,20,476	49,905	42,569
Central do.	12,515,694	89,33,833	12,637,505	90,68,247	121,811	1,34,414
Southern do.	5,044,839	46,77,358	5,097,944	47,94,585	53,105	1,17,227
Total ...	21,839,748	2,15,89,098	22,064,569	2,18,83,308	224,821	2,94,210

4. In referring to the average size of holdings in the various districts the Commissioner, N. D., has pointed out that inaccurate enumeration of inám holdings in some tálukás of Thána caused the average size of those holdings to be wrongly given in last year's report. Explanation of any marked variations in the size of holdings should if possible be furnished. The natural tendency due to increase of population should be towards diminution but in some districts such as Ahmednagar and Sátára an opposite tendency is apparent. The extraordinary decrease (from 339,751 to 244,810) in the reported number of holdings of unalienated land in the Southern Division should not have been passed over without remark by the Commissioner. No other noticeable changes in either size or number of holdings are reported.

5. In the Northern and Central Divisions no material change is reported in the incidence of the land revenue; but in the Southern Division, as shown in the margin, a considerable increase in the incidence is reported, which the Commissioner explains by the fact of his having carried out the orders given in paragraph 6 of the Government Resolution on last year's reports, for the inclusion of the full assessment of inám lands of khálsa villages in column 5 of Appendix 17. The Commissioners of the Northern and Central Divisions have apparently not obeyed those orders and in view of the particular attention which was requested to the point in the Resolution mentioned they should have explained their failure to do so; but as Huzúr Form No. 9 has lately been revised it is now unnecessary to pass orders as to future procedure in preparing that appendix. No explanation has been furnished by the Commissioner, S. D., of the change made in the treatment of the Ratnágiri District for the purposes of this return by which a fraction only of the area, assessment and population of former years has now been shown.

	1884-85.	1885-86.
	Rs. a. p.	Rs. a. p.
Incidence for total cultivated and uncultivated area.	0 8 11	0 10 7
Incidence for cultivated area ...	0 13 9	1 0 9
Incidence per head of population ...	1 15 8	2 8 11

6. No ordinary takávi advances were made in the Northern Division, but Rs. 5,872 in the Central Division (chiefly in Khándesh and Ahmednagar) and Rs. 1,634 in the Southern Division were advanced. Under the Land Improvement Act the advances amounted in the Northern, Central and Southern Divisions, respectively, to Rs. 900 (in Ahmedabad), Rs. 9,904 (mostly in Sholápur) and Rs. 13,455 (almost all in Belgaum). The collections on account both of the year under review and of former years together with the balances still outstanding at the end of the year are shown below. The figures for collections include those for small amounts written off as irrecoverable:—

	Northern Division.		Central Division.		Southern Division.	
	Land Improvement.	Takávi.	Land Improvement.	Takávi.	Land Improvement.	Takávi.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Collections...	75	126	7,916	16,427	5,636	4,582
Balances outstanding ...	1,287	50	22,247	32,997	25,146	3,480

7. The gross revenue and its component parts are shown for each Division in the following table:—

	Alienations.	Public Works Department Revenue from Irrigation.	Government Land Revenue.	Total or Gross Revenue.
	Rs.	Rs.	Rs.	Rs.
Northern Division ..	26,14,242	.....	95,95,486	1,22,09,728
Central do. ..	21,33,215	1,52,170	1,00,97,625	1,23,83,010
Southern do. ..	16,67,383	4,599	80,24,637	96,96,619
	64,14,840	1,56,769	2,77,17,748	3,42,89,357

An increase as compared with the figures for the previous year in Public Works Department Irrigation revenue was almost confined to Poona, Sátára and Dhárwár. In alienations there was an increase of Rs. 387 in the Northern, Rs. 8,921 in the Central and Rs. 31,747 in the Southern Division, caused in the first by a change in the settlement of certain watans in the Panch Mahals and in the last two by the assessment of many alienated holdings being enhanced at revision survey settlements.

8. The Government demand, inclusive of remissions, is compared with that of the previous year in the marginal table.* In the Northern Division a decrease of Rs. 19,451 in Thána was due mainly to the abolition of the Bud-dené Cess, but in all other districts an increase took place, which is attributed for the most part to extension of cultivation. In all districts in the Central and Southern Divisions, except Ratnágiri and Poona, especially in those noted in the margin,† an increase is observed, which was caused principally by the introduction of revised survey rates but also to some extent by extension of cultivation. In Poona the decrease was mainly in miscellaneous items and sale proceeds at auctions and in Ratnágiri it was due to the survey settlement of the Sangameshvar Táluka.

† Ahmednagar. Belgaum. Dhárwár. | Khándesh. Násik.

9. The remissions granted in the year under review and in the previous year are shown in the margin. In the Northern Division the only increases of importance were in Broach and Surat in which districts remissions amounting respectively to Rs. 8,759 and Rs. 3,977 were found necessary in consequence of the flooding of the Narbada and Tápti Rivers. In the Central Division Rs. 46,545 were remitted—mainly in Ahmednagar and

Division.	Remissions on account of failure of crops, poverty, death and desertion.		Remissions for other reasons.		Total.	
	1885-86.	1884-85.	1885-86.	1884-85.	1885-86.	1884-85.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Northern Division ...	1,278	626	18,156	16,264	19,434	16,890
Central do. ...	1,828	12,385	49,165	36,375	50,993	48,760
Southern do. ...	773	1,369	1,44,122	1,35,141	1,44,895	1,36,510
Total ...	3,879	14,380	2,11,443	1,87,780	2,15,322	2,02,160

Násik—where the introduction of revision settlements caused nominal remissions, while the remissions on account of failure of crops fell from Rs. 9,335 to Rs. 271. Of the remissions in the Southern Division Rs. 54,936 (in Belgaum and Kánara) were on account of the introduction of revision settlements, Rs. 29,242 (in Bijápur) on account of the temporary reduction of the revised assessment in three tálukás, Rs. 24,777 were nominal remissions in Kánara, and Rs. 33,138, also in Kánara, were sums which, as the Commissioner has pointed out, appear to have been erroneously classed as remissions.

10. The net Government demand, after deducting remissions, was, as shown in the margin, Rs. 2,75,07,024, of which the whole was collected except Rs. 7,900 in the Northern, Rs. 31,486 in the Central and Rs. 24,769 in the Southern Division. The outstanding balance at the close of the year thus amounted to only Rs. 64,155, a striking contrast to the previous year's balance of Rs. 1,98,849. The Governor in Council notices with great satisfaction that in Kaira and Kolába the entire revenue was collected, and the collections in Kánara, Belgaum, Thána, Panch Maháls, Poona and Sholápur, the aggregate uncollected balance for which six districts was only Rs. 3,270, were scarcely less satisfactory. In the Central Division, Násik and Ahmednagar had the largest balances, viz., Rs. 12,177 and Rs. 8,327, respectively, and in the Southern Division Ratnágiri alone had a balance (Rs. 21,052) of any importance. It was only found necessary to alter the dates for the payment of revenue instalments in the case of 11 villages of Surat, 1 of Broach, 1 of Dhárwár and two tálukás of Ahmednagar.

Northern Division	Rs. 95,76,051
Central do.	„ 1,00,46,632
Southern do.	„ 78,84,341
Total ...	Rs. 2,75,07,024

11. Former years' balances were also considerably reduced, as shown in the margin. It is observed with satisfaction that in Broach the balance was reduced from Rs. 6,212 to Rs. 182. Great credit is due to the district officers of Bijápur for the reduction of the outstanding balance of Rs. 68,502 to Rs. 2,345, made by collecting Rs. 65,327 and writing off the accounts only the comparatively small sum of Rs. 830, and these figures are highly significant in showing the ease with which cultivators can pay their assessment out of the profits of a moderate season even when it is immediately preceded by a bad one. Very marked reductions were also made in Ratnágiri (from Rs. 68,345 to Rs. 16,318) and Ahmednagar (from Rs. 76,165 to Rs. 7,179), but in each case a considerable portion of the reduction (Rs. 19,819 in the former and Rs. 34,637 in the latter) was due to the writing off of sums as irrecoverable. The balances still outstanding, both for 1885-86 and for former years, are classified as follows :—

Division.	Collections.	Amounts written off.	Balances Outstanding on 1st August 1886.
	Rs.	Rs.	Rs.
Northern Division... ...	7,283	2,178	11,248
